*Nancy Braithwaite* Nancy Braithwaite,2014-10-14 Interior designer Nancy Braithwaite's long-awaited first book is a striking tutorial in the power of simplicity in design. In the world of interior design, Nancy Braithwaite is known for her single-minded devotion to the principle that has guided her work for more than forty years: simplicity. Braithwaite's work

is luxuriously minimalist, its beauty inextricably tied to its Shaker-like purity. While her work varies from art deco to country, the underlying rules remain the same: every element should strive to be simple and powerful without compromise, and every room must have a level of power that comes from commanding scale, repetition of elements, subtleties of color, or the sheer beauty of forms. In Braithwaite's world, excess is not opulent. Simplicity is opulent. Braithwaite takes the reader deep into her singular vision. Divided into five sections, the book begins with her manifesto on simplicity and the aspects of design used to achieve it, including architecture, scale, color, texture, pattern, and composition. She then presents three categories of style—country, classic, and contemporary—and explains and illustrates each with iconic rooms from her portfolio. Finally, she presents several houses as case studies, displaying the power of these principles in action and emphasizing the importance of craftsmanship in design, from a stunning modern seaside retreat on Kiawah Island, South Carolina, to her unforgettable country house in Atlanta.

The Interior Design Handbook teaches you general rules of thumb—like what the golden ratio and the golden spiral are, the proper size for a coffee table in relation to your sofa, the optimal height to hang lighting fixtures, and the best ways to use a mood board—complete with helpful illustrations. **Slob Proof!** Debbie Wiener, 2008 When people think of hiring an interior decorator to help them design a house, an apartment, or just a room, they often have stars in their eyes. This is the opportunity to live out their dreams—maybe not Architectural Digest dreams, but at least House Beautiful, Country Living, or House & Garden. Then they spend a lot of time and money, admire their gorgeous home for a week or two, then realize that the one thing they should have considered was making the place . . . slob proof. In Slob Proof! Deborah Weiner passes on to readers real-life home decorating solutions that were previously available only to her clients at Designing Solutions in Silver Spring, Maryland—the secrets her husband and two sons taught her through years of sad experience. When you live with

'slobs'-basically, when you really live in your home, without designating off-limits rooms and untouchable furniture-you need to choose sofas and tables, carpets and tiling, curtains and blinds, and every other element you can think of that can stand the wear and tear of real life and still look great. In *Slob Proof!* readers will find so much advice: •Decorate for the way you really live-not the way you'd like to live-and spend money now on pieces that wear and clean well. •Lifestyle comes first-toys may never be put away, clothes may always be thrown on the bedroom floor, and feet won't be wiped, so dirt and mud is probably going to be tracked in every day. Plan ahead so these things won't ruin your home! •If you've got kids or a black Lab, white upholstery is not an option-and beige carpeting is on the endangered list, too. •If you think your family belongs in an institution, get institutional carpet! •Colour is your friend-you can use it to camouflage everyday life. And good lighting is a close second-it brings colour to life. Got a sloppy spouse who loves to eat late-night snacks while reclining on the living room sofa? Do your kids use your once-gleaming hardwood floors for indoor hockey practice while you're at work? Do your beds double as trampolines? Let Deborah Weiner take you by the hand, from room to room of your real-life house, filled with comfortable, functional furnishings that will hold up to the way you really live-and we're not talking about plastic covers here!

**Suspended Living in Temporary Space** Marco Vaudetti, Valeria Minucciani, Simona Canepa, Nilufer Saglar Onay, 2018-03-30 On 9th October 2017, the international conference Suspended Living in Temporary Space was held at the headquarters of the Architecture

School of the Polytechnic of Turin. Some scholars, architects but not only, have found themselves reflecting on the role of the architect and architecture within the almost apocalyptic scenario of the great migratory waves following disasters and emergencies, with specific attention to the context of the Mediterranean area. In this scenario, there are those who flee alone and with the whole family, people who leave a promising profession and others who leave almost nothing; unaccompanied minors and adults. For everyone, we must, first and foremost, guarantee the fundamental right of a refuge. It is easy to see how many studies, idea competitions, experimental projects carried out by architects to tackle this problem, but if we refer to common practice, then we must recognize that the role of architecture as a discipline has been decidedly secondary. The contributions collected here testify to this double track, where the most innovative experiments haven't often interfered with the reality of the facts. The origin of the participants at this conference, Turkey, Spain, Tunisia and Italy, also underlined how the problem of housing emergency is particularly felt and debated in these countries also within the universities.
