Air Show Performers Manolis Karachalios,Daniel Kwasi Adjekum,2023-12-07 Air shows are high-risk activities that must be conducted with careful thought towards the general public, spectators, and flying and nonflying participants to ensure that the activity is as safe as reasonably possible. The impromptu, ad hoc, unrehearsed or unplanned must never be attempted. This book offers a holistic overview of the state of safety, including safety cultural variables, safety risk parameters, and human performance factors, in the international air show community. This book aims to close the knowledge gap on safety management in air shows. It imparts to the aviation sector and other high-risk and high-performance industries the experience and knowledge that airshow performers have gained regarding risk assessment, psychological aspects, and mindfulness techniques used for safe and effective performances. The book highlights how resilient safety culture can change the air show community's mentality to deliver safer and more spectacular air show events and promotes the culture of excellence that the air show community is wedded to. The reader will obtain a thorough understanding of safety issues in air shows. *Air Show Performers: Safety, Risk Management, and Psychological Factors* is a critical read for professionals within the international air show community including nonflying participants. Its appeal extends to practitioners in aviation, health and safety and events management. "[...] For sure, this book will become a reference and a source of inspiration for future generations of Display Pilots." Jacques Bothelin, French Aerobatic Jet Team Leader, Honorary Board Member European Airshow Council Manolis Karachalios was the Hellenic Air Force's F-16 Demo Team "ZEUS" Display Pilot for the 2010-2012 display seasons. Dr. Karachalios holds a Master of Business Administration (MBA) in Aviation Management from Coventry University, and a Doctor of Philosophy (PhD) in Aerospace Sciences from the University of North Dakota focusing on air show safety and development. Daniel Kwasi Adjekum has over 25 years of experience in aviation as a former Ghana Air Force squadron commander, command pilot, and air display safety director. He was also an airline pilot and is currently an aviation safety consultant and professor of aviation. He is an Internationally recognized aviation safety subject-matter expert and an International Air Transport Association (IATA) certified Safety Management Systems (SMS) implementation and control expert.

The Violence of Neoliberalism Victoria E. Collins,Dawn L. Rothe,2019-07-05 This book examines the impact of neoliberalism on society, bringing to the forefront a discussion of violence and harm, the inherent inequalities of neoliberalism and the ways in which our everyday lives in the Global North reproduce and facilitate this violence and harm. Drawing on a range of contemporary topics such as state violence, the carceral state, patriarchy, toxic masculinity, death, sports and entertainment, this book unmaskes the banal forms of violence and harm that are a routine part of life that usurp, commodify and consume to reify the existing status quo of harm and inequality. It aims to defamiliarize routine forms of violence and inequality, thereby highlighting our own participation in its perpetuation, though consumerism and the consumption of neoliberal dogma. It is essential reading for students across criminology, sociology and political philosophy, particularly those engaged with crimes of the powerful, state crime and social harm.
