Bluewater Hunting and Freediving Terry Maas, 1995 Learn the secrets of spearfishing and underwater photography from some of the best freedivers around the world. History of Spearfishing and Scuba Diving in Australia Tom Byron, 2014-04-08 Discover the pioneering days of spearfishing and scuba diving, read about the sport's early spearmen and women and the founding fathers of scuba diving in Australia. This book takes you month by month from 1917 to 1997, through the good and bad times, the discoveries, the tragedies, the undersea explorations, as well as instructor organizations, diving achievers, and a number of important events which together comprise the history of underwater diving in Australia. Within the pages of this book is a large section dealing with the Chronicle of Sport Diving, events reported as though they had recently happened, recapturing all the important occurrences that took place during 80 years since Alex Wickham first speared fish in Sydney Harbour. Special features include newspaper reports of early spearfishing, the establishment of the first spearfishing association in 1948 and the appearance of the first home-made scuba regulator. There are thrilling and sometimes tragic stories of shark attacks. A woman skin diver was lost at sea for nearly three days and nights, and survived. There is the story of Australia's first and so far only world champion spearfisherman and that of two scuba divers who swam with a white pointer shark for half an hour in open water, yet were not attacked by the beast, the devastating deaths of four

scuba divers in a sinkhole at Mt. Gambier, the rapid advance of underwater technology in Australia and much more. This is the only book of its kind dealing with the history of spearfishing and scuba diving in this country. For some, it will bring back old memories, for others a readable and authoritative history of spearfishing and scuba diving in Australia. For every diver, man or woman, it cannot fail to stir emotions as it recaptures exciting and historical events. At the end of the Second World War, a Frenchman, Michel Calluauud brought plans of the Gagnan-Cousteau regulator to Australia and he built one of the first in the world here. Australians could then use this equipment for work and pleasure and it has furthered their knowledge of life in the sea. As we push beyond the boundary of seashores and venture further under water we begin to discover many things that were once beyond our grasp and it is the aqualung that has enabled us to journey beyond the confinements of land. THE HISTORY OF SPEARFISHING AND SCUBA DIVING IN AUSTRALIA not only deals with the scuba diving, but also, as the title suggests, with a wealth of information concerning spearfishing and related underwater activities.

Freedive! David Sipperly, Terry Maas, 1998

One Breath Adam Skolnick, 2016-01-12 One Breath is a gripping and powerful exploration of the strange and fascinating sport of freediving, and of the tragic, untimely death of America's greatest freediver Competitive freediving—a sport built on diving as deep as possible on a single breath—tests the limits of human ability in the most hostile environment on earth. The unique and eclectic breed of individuals who freedive at the highest level regularly dive hundreds of feet below the ocean's surface, reaching such depths that their organs compress, light disappears, and one mistake could kill them. Even among freedivers, few have ever gone as deep as Nicholas Mevoli. A handsome young American with an unmatched talent for the sport, Nick was among freediving's brightest stars. He was also an extraordinary individual, one who rebelled against the vapid and commoditized society around him by relentlessly questing for something more meaningful and authentic, whatever the risks. So when Nick Mevoli arrived at Vertical Blue in 2013, the world's premier freediving competition, he was widely expected to challenge records and continue his meteoric rise to stardom. Instead, before the end of that fateful competition Nick Mevoli had died, a victim of the sport that had made him a star, and the very future of free diving was called into question. With unparalleled access and masterfully crafted prose, One Breath tells his unforgettable story, and of the sport which shaped and ultimately destroyed him.

A Life of Spearfishing Freediving and Polo Tony Buxton, 2020-05-10 A truly astonishing account of the author's progression from a laid-back spearfishing guide in Sri Lanka to an international celebrity. His services were much in demand by the rich and famous including the grandson of America's richest man. They invited him to their homes where he experienced a lifestyle that he hardly knew existed. His passion was to explore the underwater world where no one else had been. This was not difficult at the time since few places ever seen a diver. He was the first person to dive in the Maldives, India and Thailand. He eventually ended up in Singapore where he formed a very profitable joint venture with oil giant Exxon to underwater clean tankers. With the money he made he took up the expensive sport of polo playing in international tournaments all over the world and the life of a veritable Playboy socialising with international celebrities. Among his closest friends were prime ministers presidents and movie stars. He finally ended marrying four times and playing polo living in the Palace of wealthy sultan.

The Last Attempt Carlos Serra, 2006 THE LAST ATTEMPT by Carlos Serra While attempting to set a new world record in the extreme sport of freediving, Audrey dies. Something had gone terribly wrong and despite a massive media attention, many questions remained unanswered. Suspicion fell over her husband, the legendary freediver known as Pipin, prompting his business partner, Carlos Serra, a brother-like friend to Audrey, to promise an investigation to determine responsibilities, if any. But Pipin rejected the motion and that's when the struggle between Serra and Pipin began. THE LAST ATTEMPT is the result of that investigation, and with a surprising

conclusion, it comprises the whole story as it actually occurred.

Free Diving to Fame and Fortune Tony Buxton, 2017-10-17 Setting himself up as a diving guide in Sri Lanka in the early 1950s, his services were in high demand by wealthy celebrities seeking new interests, especially spearfishing. Many invited him to their homes, leading to a lifestyle and fame that he hardly knew existed. Later both Hans Hass and Jacques Cousteau offered him employment. The diversity of his free diving experiences is fascinating. As the first person to dive in The Maldives, Thailand and Southern India, he became a diving legend. In 1965 he set out to sail around the world on a Chinese junk filmed by award-winning underwater photographer Ben Kropp and diving on virgin reefs with famed explorer Jacques Dumas. Finally, he became a highly successful commercial diver in Singapore. The different kinds of diving work he performed were astounding, including an underwater ship cleaning venture with Exxon, resulting in a fortune he never anticipated. Buying a leading hotel in Pattaya, Thailand he set up the first significant PADI diving outfit in the country. Branching out into many other businesses, he led a flamboyant lifestyle, counting Kings, Presidents and well-known film

stars among his friends. Amazingly, he hardly ever used SCUBA for his work, but diving almost entirely without it achieved a lifestyle all but impossible today. Anyone interested in freediving should read this book.
