**Internet marketing** Owen Jones,2022-11-17 I hope that it will interest those who are hoping to make money on line. In fact, the number of people trying to make (some extra) money online has skyrocketed over the last ten or twelve years, but especially since the Covid-19 lockdowns. Not everything can be blamed on Covid-19 though. Britain, for example, has suffered twelve years of 'austerity' brought in by a government that seems no longer to care about the electorate. First they blamed the banking crisis; then the influx of foreign labour; then Covid; and now Brexit and the war in the Ukraine. No doubt you have heard similar excuses where you live. Anyway, the result has been exorbitant inflation and a reduction in wages, and that has led to enterprising people trying improve their situation by working online. This book is for you. I hope that it helps. The information in this ebook on various aspects of using the Internet to your advantage is organised into 20 chapters of about 500-600 words each.
