The Digital Marketing Internet Toolkit Raymond Wayne, 2018-02-12 Remember the famous clause "Earning Money While in Pajamas ! Many of us got into digital internet marketing thinking it was going to improve our lives in major ways. You may even feel that you were 'promised' by internet marketing gurus that your life would suddenly be easy once you took up this line of work. Digital Internet marketing means working online and that in turn means working from anywhere, and without a boss. The only problem is that very few people have any idea what makes the web tick. People tell me they want to

start their own business selling crafts, or they tell me that they want to start blogging for fun but they have zero clue what that entails. So of course, life will be easy! You can choose your own hours; you can work out of coffee shops or from beautiful locations... And you can do it all your own way without someone breathing down your neck and shouting at you when you get things wrong. What's more, if you manage to achieve a 'passive income', then you'll be earning money even while you sleep. Passive income means generating cash from a websites, or from YouTube channels, or through affiliate sales but even if you know the basics of internet marketing, there's a good chance that you don't have all of the advanced skills you need to really make any project into a success. It means that even as you are resting, the seeds you sowed may either fail or it might continue to to grow and waiting for you reap the rewards. Well we are not saying its not True , some does hits the roof with the right digital product launch at the right time with the right content to the right audience but likewise some drown in their couch but the most important is whether you do it the most efficient and healthy way . ? To make it easy, I've put together a step-by-step guide that will show you exactly how it's done... The Digital Marketing Internet Toolkit - Learn the basics of internet marketing 101 even if you have no prior experience. - Learn how to turn any idea or concept into a reality. - You are going to learn how to prevent yourself from going entirely mad when you work from home. - It will guide on new trending methods of internet marketing - You are

going to learn how to manage your finances, knowing that you're going to have different amounts of money coming in at different times. - You will know if you have what it takes to make your own taxes. - Learn tools that will make you immensely employable, to the point that you are never without work. And the list goes on and on... You will learn skills here that will put you head and shoulders above the competition: How to not rely on Google Ads to make money from a website · How to keep 100% of the profits from your website earnings · How to optimize a website, article or both for search engines. · How to build long-time fans and followers You will later see how the ability to work online can allow pretty much any of your wildest dreams and plans to come true...

Avoid Starting With Failure, Succeed With Effective Online Internet Business Strategy Raymond Wayne, 2019-03-09 Every entrepreneur has the power to make an absolute profit on the Internet. Yes, this includes you. Whether you're an existing marketer in search of serious passive income, a part-time fiver who just can't get consistent sales or maybe a newbie with no

experience packed with lots of drive and desire, you will have the power to pull a six-figure profit off the Internet as consistent and routine as clockwork. Entrepreneurs venturing into the World Wide Web typically have dreams of having time all for themselves, sitting on their couches with laptops on and money pouring continuously with every click. That's possible, all right but this normally is not always the case. Success doesn't come easy, you know that. Only those who have a perfect combination of events and ideal attitude towards work would be the people who can be showered with success. The specific idea of becoming an internet business entrepreneur is that of leaving an old job of stressful deadline buzzing and annoying bosses overlooking your work, in exchange for a flexible job that you are in total control of. You won't have to abide with company cultures or deal with people you refuse to see every working day. However, it's not always easy to sail on with internet businesses. They are equally risky as compared with offline business ventures. We are not putting a scare in here, it's just that we want you to open your eyes to truths that you would sooner or later face. Truths that are inevitable parts of internet business transactions. Avoid Starting With Failure, Learn to Succeed With Effective Online Internet Strategy Remember that even the largest establishment fails. No one can ever be assured that Internet sales would keep on coming. You would surely have great and bad months and the only thing that you can be assured of is that you always have to deal with unpredictability of trends. If you are not a

risk taker, a steady paycheck may appeal to you more than an unsteady business earning. As an entrepreneur, you have to face the truth that once you embark on an internet home based business, this very thing will be your life. It's like turning work into your obsession as to eliminate the work attitude and all factors that go with it. Once you leave work, you really have to leave your old job. Most entrepreneurs practice breathing their own business so they need not experience fatigue while working and will therefore be able to dedicate long hours on their work without even getting fed up with it. Making money would be impossible unless you take charge of really selling your business. Well that would surely be a task that you would have to dedicate yourself into Remember that there is no sure path to success, even if we are to talk success in its many facets, than to toil and really sweat for it. In the end, you'll be happy that you did. After all, all your toil will boil down towards your earnings.
