YouTube Strategies Paul Colligan, 2013-03 I love YouTube. Always have. Always will. She's been very good to me, not just at my Colligan Channel, but through a number of partners and ventures online. With me and my face for radio, I'm confident in saying anyone can see success on YouTube with the right strategies. That's why I wrote this ... I did a few courses about YouTube that sold well, and made some good money, but I always got frustrated with the simple reality that whenever we would put something out there, YouTube would change their interface. Funny thing is, there are some things about YouTube that will never change / or at least haven't changed yet. Despite all the interface changes, the whole Google Plus integration and everything else, the core of what I've taught stands true. But, unfortunately, it all stands true against screenshots and videos from interfaces so last week. So, with that, I release this book. It's the top 21 questions I get asked about YouTube (as well as a few that people should be asking). At the end of each answer is an even shorter summary and a few action items. Put them to good use. The screens might change. The interface might get gussied up, but the stuff here, won't change. Fair enough? Here are the questions this book answers: Is YouTube Really A Social Network? How Can You Leverage That Fact? How Do I Make The Best Of The New YouTube Live Options? How Can I Optimize My YouTube Channel And Videos? What Can I Do To Maximize My YouTube Channel? How Should I Integrate My YouTube Strategies With Other Social Networks? How Do You Get Your YouTube Video Ranked On The Front Page Of Google? What Are The Best SEO Methods And Strategies For A YouTube Video? What Equipment And Software Do I Need To Create A Decent Quality Video? What Value Is There In

Closed Captioning Your YouTube Videos? What Is The Ideal Length For A YouTube Video? How Should I Use YouTube Annotations? How Do I Make My Video Go Viral? What Quality Should I Publish My YouTube Videos In? How Do I Get My Videos To Link Outside Of YouTube? What Is The Best Format For A YouTube Video? What Should I Do After I Publish My YouTube Video? When Should I Use YouTube And The YouTube Player? When Should I Not? Is It Better To Have One YouTube Channel For Everything I Do? When Should I Let YouTube Place Ads On My Videos? What Are The Best Third Party Tools And Services For YouTube? Should I Use Services To Get More Views For My YouTube Videos?

Creating The Perfect YouTube Marketing Video

Dan Aiello, 2021 You can use YouTube to market your business, product, or services. However, you need a good video in order to draw traffic and make people want to visit your website after they have finished watching. So what goes into the perfect YouTube marketing video? Creativity always counts, of course, as does professionalism. Still, there are other things to take into consideration as well. The following is a list of 5 tips that will get you started.

1. Make your video creative. With all of the videos out there, yours needs to stand out in the crowd. Use fun music, great shots, and try to find an angle that hasn't already been done. People generally turn on to YouTube to be entertained and your video needs to be able to do this.
2. Give some tips or solutions to common problems that are associated with your particular product, business, or services. This is an informational type of video and the audience will like the fact that they are learning something. Try to make the tips unique enough that most people can use them but haven't necessarily heard of them before.
3. Make your video educational. People like to learn things

when they watch video. Your perfect You Tube marketing video doesn't have to be all about how to find your website and what the cost of your product is. For example, if you are advertising your mechanical business then why not give a demonstration on how to change a tire? People will watch your video, learn something, and then visit your website. These how-to videos are a lot less threatening than standard commercials or advertisement that you see on television. Plus, they are entertaining.4. Add some realism or "behind the scenes" in your video. You can do this by introducing your staff, introducing some customers, or even giving the audience a "behind the scenes" tour of the office, factory, or place of work. People appreciate this and it gives your product or business some authenticity.5. Add closed-captions to your video. Keep in mind that not everyone is able to hear and that those audience members might be the very ones that want to order your product. It's very thoughtful to keep the hearing impaired in mind when creating a video, even a marketing video, because most people rarely do.
