Non PC World Ben Fry,Alec Jupp,2010-08 The internet is a rich and huge source of humour - home to some of the most hilarious jokes, photos and stories from around the world. But the fact that anyone and everyone can contribute means it's also full of a lot of dross Luckily, this book has done all the work finding the gems and collects the very best of internet funnies together in one place. Always funny, often shocking, Non PC World is the perfect gift for anyone who enjoys forwarding silly pics (the beach wedding spoilt somewhat by the fat naked bloke in the background, the brilliantly named mobile kebab shop Jason Donervan) and daft stories (the greatest ever break-up letter, the ad placed in the classifieds looking for an assistant time traveller). And of course, no collection of internet humour would be complete without classic 'Chinglish' public notices and wrong answers from game shows (Q: 'what was Ghandi's first name?' A: 'Goosey?').

The Book of F*cking Hilarious Internet Memes Richard Face,2012-01-13 WHAT THE HECK IS AN INTERNET MEME? Meme (pronounced meem): An idea, belief or element of social behavior spread that is transmitted from one person or group of people to another. This word was coined in the '70s by Richard Dawkins, the atheist godman worshipped by neckbeards everywhere. Simply put, Internet memes are memes that spread on the Internet through social networking sites, blogs, email, news sources, and so on. In the real world they're called ideas, but pseudo-intellectuals prefer memes. WHERE DO INTERNET MEMES COME FROM? Amongst all the stupid crap on the Internet are hilarious gems of wit and wisdom. Most of the best memes start as images shared on the Web and, by some great misfortune, they find their way into the lecherous hands of drunken basement trolls who mutate these images into the hilarious,

the lame, and sometimes the downright bizarre. WHAT IS THIS BOOK? This book will take you on bizarre journey through the bilges of the Internet and introduce you to 23 of its funniest and most popular memes, complete with a sh*tload of images that might just make you wet your panties. The Day the Internet Died (full-length version)

Jason Pizzarello, Ian McWethy, 2022-05-31 On a sunny day in the town of Bloomington, a devastating occurrence happens. No, it's not famine, or floods, or loss of your basic rights. The internet has gone down! And it will continue to be down! For a week! A whole week! Pandemonium! In a world that is so dependent on the internet for shopping, mailing, and posting pictures of cute babies, how will society function? Not well as it turns out. The Day the Internet Died hilariously explores how inept we are at dating, research, and basic human interactions when we don't have a screen to look at. (A one-act version is also available.) Comedy Full-length. 70-85 minutes 10-50 actors, gender flexible

The Shallows: What the Internet Is Doing to Our Brains Nicholas Carr, 2011-06-06 Finalist for the 2011 Pulitzer Prize in General Nonfiction: "Nicholas Carr has

written a Silent Spring for the literary mind.”—Michael Agger, Slate “Is Google making us stupid?” When Nicholas Carr posed that question, in a celebrated Atlantic Monthly cover story, he tapped into a well of anxiety about how the Internet is changing us. He also crystallized one of the most important debates of our time: As we enjoy the Net’s bounties, are we sacrificing our ability to read and think deeply? Now, Carr expands his argument into the most compelling exploration of the Internet’s intellectual and cultural consequences yet published. As he describes how human thought has been shaped through the centuries by “tools of the mind”—from the alphabet to maps, to the printing press, the clock, and the computer—Carr interweaves a fascinating account of recent discoveries in neuroscience by such pioneers as Michael Merzenich and Eric Kandel. Our brains, the historical and scientific evidence reveals, change in response to our experiences. The technologies we use to find, store, and share information can literally reroute our neural pathways. Building on the insights of thinkers from Plato to McLuhan, Carr makes a convincing case that every information technology carries an intellectual ethic—a set of assumptions about the nature of knowledge and intelligence. He explains how the printed book served to focus our attention, promoting deep and creative thought. In stark contrast, the Internet encourages the rapid, distracted sampling of small bits of information from many sources. Its ethic is that of the industrialist, an ethic of speed and efficiency, of optimized production and consumption—and now the Net is remaking us in its own image. We are becoming ever more adept at scanning and skimming, but what we are losing is our capacity for concentration, contemplation, and reflection. Part intellectual history, part popular science, and part cultural

criticism, *The Shallows* sparkles with memorable vignettes—Friedrich Nietzsche wrestling with a typewriter, Sigmund Freud dissecting the brains of sea creatures, Nathaniel Hawthorne contemplating the thunderous approach of a steam locomotive—even as it plumbs profound questions about the state of our modern psyche. This is a book that will forever alter the way we think about media and our minds.

The Social Media Reader Michael Mandiberg, 2012-03

The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The Social Media Reader is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts, personal narratives from blogs, and whitepapers,

The Social Media Reader promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson, Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian potential of new forms of surveillance and control.

Is This Anything? Jerry Seinfeld, 2020-10-06 The first book in twenty-five years from “one of our great comic minds” (The Washington Post) features Seinfeld’s best work across five decades in comedy. Since his first performance at the legendary New York nightclub “Catch a Rising Star” as a twenty-one-year-old college student in fall of 1975, Jerry Seinfeld has written his own material and saved everything. “Whenever I came up with a funny bit, whether it happened on a stage, in a conversation, or working it out on my preferred canvas, the big yellow legal pad, I kept it in one of those old school accordion folders,” Seinfeld writes. “So I have everything I thought was worth saving from forty-five years of hacking away at this for all I was worth.” For this book, Jerry Seinfeld has selected his favorite material, organized decade by decade. In this “trove of laugh-out-loud one-liners” (Associated Press), you will witness the evolution of one of the great comedians of our time and gain new insights into the thrilling but unforgiving art of writing stand-up comedy.

Un-cook Yourself Nat's What I Reckon, 2020-12-01 Nat's What I Reckon was the tattooed lockdown saviour we didn't know we needed, rescuing us from packet food, jar sauce and total boredom with his hilarious viral recipe videos that got us cooking at home like champions again. Now that we've cooked our way out of lockdown and are wondering what the hell to do next, our favourite ratbag is back – and he's ready to teach us more about life in this thoroughly unhelpful (but maybe actually kinda helpful?) self-help guide. Nat's already shown us that jar sauce can get f*cked. But what else is sh*t – and what's actually not sh*t? Is it all as bad as we feel like it is most of the time? No part of our weird world and strange behaviour is spared as our long-haired guru tells us what he reckons about it all – and amps up the flavour with some eye-watering stories from his early years before a sweary video about pasta sauce shot him to global fame. With Nat's nine no-nonsense rules, you'll be on the road to being a better d*ckhead faster than you can say 'get in the bin' to jar sauce. And if you screw it up: it doesn't bloody Parramatta! Features a small selection of Nat's favourite recipes illustrated by Sydney artists Bunkwaa, Glenno and Onnie O'Leary. 'The tastiest self-help book of this generation . . . Regardless of what you take away from *Un-Cook Yourself*, you'll definitely be laughing.' Urban List
