Nightbitch Rachel Yoder, 2021-07-20 In this blazingly smart and voracious debut novel, an artist turned stay-at-home mom becomes convinced she's turning into a dog. • A must-read for anyone who can't get enough of the ever-blurring line between the psychological and supernatural that *Yellowjackets* exemplifies. —Vulture One day, the mother was a mother, but then one night, she was quite suddenly something else... An ambitious mother puts her art career on hold to stay at home with her newborn son, but the experience does not match her imagination. Two years later, she steps into the bathroom for a break from her toddler's demands, only to discover a dense patch of hair on the back of her neck. In the mirror, her canines suddenly look sharper than she remembers. Her husband, who travels for work five days a week, casually dismisses her fears from faraway hotel rooms. As the mother's symptoms intensify, and her temptation to give in to her new dog impulses peak, she struggles to keep her alter-canine-identity secret. Seeking a cure at the library, she discovers the mysterious academic tome which becomes her bible, *A Field Guide to Magical Women: A Mythical Ethnography*, and meets a group of mommies involved in a multilevel-marketing scheme who may also be more than what they seem. An outrageously original novel of ideas about art, power, and womanhood wrapped in a satirical fairy tale, *Nightbitch* will make you want to howl in laughter and recognition. And you should. You should howl as much as you want.

Sustainable Construction Materials and Technologies Yoon-Moon Chun, Peter Claisse, Tarun R. Naik, Eshmaiel Ganjian, 2007-05-31 The construction materials industry is a major user of the world's resources. While enormous progress has been made towards sustainability, the scope and opportunities for improvements are significant. To further the effort for sustainable development, a conference on Sustainable Construction Materials and Technologies was held at Coventry University, Coventry, U.K., from June 11th - 13th, 2007, to highlight case studies and research on new and innovative ways of achieving sustainability of construction materials and technologies. This book presents selected, important contributions made at the conference. Over 190 papers from over 45 countries were accepted for presentation at the conference, of which approximately 100 selected papers are published in this book. The rest of the papers are published in two supplementary books. Topics covered in this book include: sustainable alternatives to natural sand, stone, and Portland cement in concrete; sustainable use of recyclable resources such as fly ash, ground municipal waste slag, pozzolan, rice-husk ash, silica fume, gypsum plasterboard (drywall), and lime in construction; sustainable mortar, concrete, bricks, blocks, and backfill; the economics and environmental impact of sustainable materials and structures; use of construction and demolition wastes, and organic materials (straw bale, hemp, etc.) in construction; sustainable use of soil, timber, and wood products; and related sustainable construction and rehabilitation technologies.

Principles, Definitions and Model Rules of European Private Law Study Group on a European Civil Code, Research Group on the Existing EC Private Law, 2008 In this volume, the Study Group and the Acquis Group present the first academic Draft of a Common Frame of Reference (DCFR). The Draft is based in part on a revised version of the Principles of European Contract Law (PECL) and contains Principles, Definitions and Model Rules of European Private Law in an interim outline edition. It covers the books on contracts and other juridical acts, obligations and corresponding rights, certain specific contracts, and non-contractual obligations. One purpose of the text is to provide material for a possible political Common Frame of Reference (CFR) which was called for by the European Commission's Action Plan on a More Coherent European Contract Law of January 2003.

Retranslation and Reception ,2022-08-22 This is the first comprehensive study of the relationship between Retranslation and Reception. New translations always reveal a changing interest in authors and their work, and this book explores this phenomenon through a wide variety of case studies of literary reception.

The End of Stress Don Joseph Goewey, 2014-09-23 Rid yourself of stress and live a richly beautiful life filled with the joy you deserve! Using a simple method, *The End of Stress* shows you how to change your brain's default reaction from stress, anxiety, and depression to calm, creativity, and happiness. Have you been struggling with your levels of stress, unable to escape it completely? It's not your fault. We were brought up in a fear-based, shame-based culture that wired our brains' default systems to stress and fear—triggering all sorts of stress reactions that sabotage happiness, compromise health, and block our potential to flourish. If ignored too long, long-term stress can become deadly, resulting in a build-up of toxic stress hormones in your body, shrinking your brain mass and lowering optimum brain function, depressing your emotional set point, and shortening your lifespan. There's now proof that the deadly long-term effects of stress are reversible and *The End of Stress* provides four steps to better achieve success and happiness. This specific shift literally rewires the brain to deliver the full measure of intelligence, creativity, and emotional balance that enables you to thrive instead of struggle. *The End of Stress: Four Steps to Rewire Your Brain* guides you through an evidence-based process that achieves this powerful shift. This book is designed as a workshop-in-a-book, supported by a website of tools, audio files, and materials that can help create a new and healthier you!

Prague, Capital of the Twentieth Century Derek Sayer, 2021-11-09 The story of modernity told through a cultural history of twentieth-century Prague Setting out to recover the roots of modernity in the boulevards, interiors, and arcades of the city of light, Walter Benjamin dubbed Paris the capital of the nineteenth century. In this eagerly anticipated sequel to his acclaimed *Coasts of Bohemia: A Czech History*, Derek Sayer argues that Prague could well be seen as the capital of the much darker twentieth century. Ranging across twentieth-century Prague's astonishingly vibrant and always surprising human landscape, this richly illustrated cultural history describes how the city has

experienced (and suffered) more ways of being modern than perhaps any other metropolis. Located at the crossroads of struggles between democratic, communist, and fascist visions of the modern world, twentieth-century Prague witnessed revolutions and invasions, national liberation and ethnic cleansing, the Holocaust, show trials, and snuffed-out dreams of socialism with a human face. Yet between the wars, when Prague was the capital of Europe's most easterly parliamentary democracy, it was also a hotbed of artistic and architectural modernism, and a center of surrealism second only to Paris. Focusing on these years, Sayer explores Prague's spectacular modern buildings, monuments, paintings, books, films, operas, exhibitions, and much more. A place where the utopian fantasies of the century repeatedly unraveled, Prague was tailor-made for surrealist André Breton's black humor, and Sayer discusses the way the city produced unrivaled connoisseurs of grim comedy, from Franz Kafka and Jaroslav Hasek to Milan Kundera and Václav Havel. A masterful and unforgettable account of a city where an idling flaneur could just as easily be a secret policeman, this book vividly shows why Prague can teach us so much about the twentieth century and what made us who we are.

International studies in time perspective Maria Paula Paixão, José Tomás da Silva, Victor Ortuño, Pedro Cordeiro, 2013-12-01 This book integrates several papers which were presented on the 1st International Conference on Time Perspective – Converging Paths in Psychology Time Theory and Research that took place 5-8 September 2012, at the University of Coimbra. Being the first, we hope it to be a milestone in highlighting the effort spent by different psychological approaches to understand the role played by time concepts in individual, group, and organizational development. The Conference was hosted by the Faculty of Psychology and Educational Science of the University of Coimbra (Portugal), (its foundation takes back to 1290), and an institution for which the notions of a rich past history and future strategic planning constitute the cornerstones of today's concerns. In a moment in time where the past, the present and the future are intensively invested with meaning and intention, researchers coming from all over the world reflected on how time perspectives impact on our lives, from our more proximal to our most distal socio-ecological contexts. It reunited more than 300 participants coming from 42 countries spread all over the 5 continents. The chapters that are included in this book are a good illustration of the multifaceted focus on the research of subjective time in the psychological science. We hope that this book is able to nourish the next wave of researchers on psychological time concepts, encouraging them to pursue and renovate the theory, the research efforts and the practical applications in this exciting field of psychological enquiry.

I Am John Galt Donald Luskin, Andrew Greta, 2011-05-04 Inspired by Ayn Rand's characters in *Atlas Shrugged* and *The Fountainhead*, penetrating profiles of both the innovators who move our world forward and those who seek to destroy the achievement of others John Galt, the fictional character from Ayn Rand's bestselling novel, *Atlas Shrugged*, has come to embody the individualist capitalist who acts in his own enlightened self interest, and in doing so lifts the world around him. Some of today's most successful CEOs, journalists, sports figures, actors, and thinkers have led their lives according to Galt's (i.e., Rand's) philosophy. Now, in *I Am John Galt*, these inspiring stories are gathered with the keen insight and analysis of well-known market commentator Donald Luskin and business writer Andrew Greta. Filled with exclusive interviews, profiles, and analyses of leading financial, business, and artistic stars who have based their lives, and careers, on the philosophy of the perennially popular Ayn Rand, this book both inspires and enlightens. On the other side are Rand's arch villains? the power-seekers, parasites, and lunatics who would destroy that which the creators and builders make. Who are today's anti-heroes, fighting the creativity of the innovators? Contains insightful interviews, profiles, and analyses of the individuals who have lived by a Randian code to achieve greatness for themselves and others Offers a probing analysis of those who seek to destroy or undo the achievements of others? from academics, pundits, and government bureaucrats to fraudsters who have wreaked havoc on our world Engaging and entertaining, *I Am John Galt* examines how the inspiration that is Galt thrives more than 50 years after publication of *Atlas Shrugged*. It will spark the interest of Ayn Rand fans everywhere, as well as those seeking a way to succeed in today's turbulent and confusing times.

Biogeochemistry of Wetlands K. Ramesh Reddy, Ronald D. DeLaune, Patrick W. Inglett, 2022-09-10 The globally important nature of wetland ecosystems has led to their increased protection and restoration as well as their use in engineered systems. Underpinning the beneficial functions of wetlands are a unique suite of physical, chemical, and biological processes that regulate elemental cycling in soils and the water column. This book provides an in-depth coverage of these wetland biogeochemical processes related to the cycling of macroelements including carbon, nitrogen, phosphorus, and sulfur, secondary and trace elements, and toxic organic compounds. In this synthesis, the authors combine more than 100 years of experience studying wetlands and biogeochemistry to look inside the black box of elemental transformations in wetland ecosystems. This new edition is updated throughout to include more topics and provide an integrated view of the coupled nature of biogeochemical cycles in wetland systems. The influence of the elemental cycles is discussed at a range of scales in the context of environmental change including climate, sea level rise, and water quality. Frequent examples of key methods and major case studies are also included to help the reader extend the basic theories for application in their own system. Some of the major topics discussed are: Flooded soil and sediment characteristics Aerobic-anaerobic interfaces Redox chemistry in flooded soil and sediment systems Anaerobic microbial metabolism Plant adaptations to reducing conditions Regulators of organic matter decomposition and accretion Major nutrient sources and sinks Greenhouse gas production and emission Elemental flux processes Remediation of contaminated soils and sediments Coupled C-N-P-S processes Consequences of environmental change in wetlands# The book provides the foundation for a basic understanding of key biogeochemical processes and its applications to solve real world problems. It is detailed, but also assists the reader with box inserts, artfully designed diagrams, and summary tables all supported by numerous current references. This book is an excellent resource for senior undergraduates and graduate students studying ecosystem biogeochemistry with a focus in wetlands and aquatic systems.

The Future of Identity in the Information Society Vashek Matyáš, Simone Fischer-Hübner, Daniel Cvrcek, Petr Švenda, 2009-07-26 What constitutes an identity, how do new technologies affect identity, how do we manage identities in a globally networked information society? The increasing diversity of information and communication technologies and their equally wide range of usage in personal, professional and official capacities raise challenging questions of identity in a variety of contexts. The aim of the IFIP/FIDIS Summer Schools has been to encourage young academic and industry entrants to share their own ideas about privacy and identity management and to build up collegial relationships with others. As such, the Summer Schools have been introducing participants to the social implications of information technology through the process of informed discussion. The 4th International Summer School took place in Brno, Czech Republic, during September 1-7, 2008. It was organized by IFIP (International Federation for Information Processing) working groups 9.2 (Social Accountability), 9.6/11.7 (IT Misuse and the Law) and 11.6 (Identity Management) in cooperation with the EU FP6 Network of Excellence FIDIS and Masaryk University in Brno. The focus of the event was on security and privacy issues in the Internet environment, and aspects of identity management in relation to current and future technologies in a variety of contexts.

The Geography of Tourism of Central and Eastern European Countries Krzysztof Widawski, Jerzy Wyrzykowski, 2017-01-24 This book presents a comprehensive overview of the tourism market development in Central and Eastern European countries. It is divided into 13 chapters, including a chapter dedicated to Belarus, all richly illustrated with colorful maps and illustrations. The book presents the output of international conferences organized every two years by the Department of Regional Geography and Tourism of the University of Wrocław which have served as inspiration for this book. Chapter 1 provides the characteristics of 20 post-communist countries of the region on the international tourism market and it sets the background and context for the following chapters. Chapters 2 to 13 present the condition of research on tourism, tourist attractions, tourist infrastructure, tourism movement, main types of tourism as well as tourist regionalization in 12 Central and Eastern European countries. All chapters have been updated with reference to the statistics. This book is a revised and updated version of "The Geography of Tourism of Central and Eastern Europe Countries" published by the Department of Regional Geography and Tourism of Wrocław University in 2012. It has been developed by a group of specialists through their exchange of research experience in the scope of international tourism in Central and Eastern Europe.
