The Invisible Tom Percival,2021-02-04 A moving, powerful story that shines a light on those that feel invisible in our world - and shows us that we ALL belong - from the author of Ruby's Worry. The Invisible is the story of a young girl called Isabel and her family. They don't have much, but they have what they need to get by. Until one day, there isn't enough money to pay their rent and bills and they have to leave their home full of happy memories and move to the other side of the city. It is the story of a girl who goes on to make one of the hardest things anyone can ever make...a difference. And it is the story of those who are overlooked in our society - who are made to feel invisible - and why everyone has a place here. We all belong.

The Enduring, Invisible, and Ubiquitous Centrality of Whiteness Kenneth V. Hardy,2022-05-17 A comprehensive collection on the topic of whiteness from writers in the field of mental health and activism. Whiteness is a pervasive ideology that is rarely overtly identified or examined, despite its profound effects on race relationships. Being intentional about naming, deconstructing, and dismantling whiteness is a precursor to responding effectively to the racial reckoning of our society and improving race relationships, addressing systemic bias, and moving towards the creation of a more racially just world. In this collection of essays, scholars from a variety of backgrounds and trainings explore how the longstanding centering of whiteness in all aspects of society, including clinical therapy spaces, has led to widespread racial injustice. Contributors include: David Trimble, Lane Arye, Jodie Kliman, Ken Epstein, Toby Bobes, Cynthia Chestnut, Ovita F. Williams, Gene E. Cash Jr., Carlin Quinn, Christiana Ibilola Awosan, Niki Berkowitz, Jen Leland, Mary Pender Greene, Hinda Winawer, Bonnie Berman Cushing, Michael Boucher, Robin Schlenger, Alana Tappin, Timothy Baima, Jeffery Mangram, Liang-Ying Chou, Irene In Hee Sung, Ana Hernandez, Robin Nuzum, Keith A. Alford, Hugo Kamya, and Cristina Combs.

Landscape with Invisible Hand M. T. Anderson,2017-09-12 National Book Award winner M. T. Anderson returns to future Earth in a sharply wrought satire of art and truth in the midst of colonization. When the vuvv first landed, it came as a surprise to aspiring artist Adam and the rest of planet Earth — but not necessarily an unwelcome one. Can it really be called an invasion when the vuvv generously offered free advanced technology and cures for every illness imaginable? As it turns out, yes. With his parents' jobs replaced by alien tech and no money for food, clean water, or the vuvv's miraculous medicine, Adam and his girlfriend, Chloe, have to get creative to survive. And since the vuvv crave anything they deem classic Earth culture (doo-wop music, still life paintings of fruit, true love), recording 1950s-style dates for the vuvv to watch in a pay-per-minute format seems like a brilliant idea. But it's hard for Adam and Chloe to sell true love when they hate each other more with every passing episode. Soon enough, Adam must decide how far he's willing to go — and what he's willing to sacrifice — to give the vuvv what they want.

The City of Zirdai Maria V. Snyder,2021-06-02 It's suicide, Shyla. You're the prize they want. Through her courage and tenacity, Shyla Sun-Kissed has awoken the power of The Eyes of Tamburah. But this feat only marks the beginning of the challenges that the magical order, the Invisible Sword, faces to free the underground city of Zirdai. Though they have allies among the monks and splinter cells inside the city, Shyla knows the Invisible Sword doesn't have the strength to win. With the group fracturing due to the strain of losses from their latest ordeal, thinly veiled suspicions and endless disagreements, it's up to Shyla to forge a new united order. When both the draconian Water Prince and brutal Heliacal Priestess learn of Shyla's new powers, life becomes even more complicated as they will stop at nothing to capture Shyla and take the magic of The Eyes for themselves. Hunted at every turn and unable to hide, Shyla and the Invisible Sword must use every resource at their command - and unearth new ones - in their race to save the city from destruction. But their enemies always seem to be one step ahead. And the cost to win the battle may be more than Shyla would ever be willing to pay...

Invisible No More Andrea J. Ritchie,2017-08-01 “A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence.” —Michelle Alexander, author of The New Jim Crow Invisible No More is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the

evolution of movements centered around women’s experiences of policing. Featuring a powerful forward by activist Angela Davis, Invisible No More is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

Invisible China Scott Rozelle,Natalie Hell,2020-09-29 A study of how China’s changing economy may leave its rural communities in the dust and launch a political and economic disaster. As the glittering skyline in Shanghai seemingly attests, China has quickly transformed itself from a place of stark poverty into a modern, urban, technologically savvy economic powerhouse. But as Scott Rozelle and Natalie Hell show in Invisible China, the truth is much more complicated and might be a serious cause for concern. China’s growth has relied heavily on unskilled labor. Most of the workers who have fueled the country’s rise come from rural villages and have never been to high school. While this national growth strategy has been effective for three decades, the unskilled wage rate is finally rising, inducing companies inside China to automate at an unprecedented rate and triggering an exodus of companies seeking cheaper labor in other countries. Ten years ago, almost every product for sale in an American Walmart was made in China. Today, that is no longer the case. With the changing demand for labor, China seems to have no good back-up plan. For all of its investment in physical infrastructure, for decades China failed to invest enough in its people. Recent progress may come too late. Drawing on extensive surveys on the ground in China, Rozelle and Hell reveal that while China may be the second-largest economy in the world, its labor force has one of the lowest levels of education of any comparable country. Over half of China’s population—as well as a vast majority of its children—are from rural areas. Their low levels of basic education may leave many unable to find work in the formal workplace as China’s economy changes and manufacturing jobs move elsewhere. In Invisible China, Rozelle and Hell speak not only to an urgent humanitarian concern but also a potential economic crisis that could upend economies and foreign relations around the globe. If too many are left structurally unemployable, the implications both inside and outside of China could be serious. Understanding the situation in China today is essential if we are to avoid a potential crisis of international proportions. This book is an urgent and timely call to action that should be read by economists, policymakers, the business community, and general readers alike. Praise for Invisible China “Stunningly researched.” —TheEconomist, Best Books of the Year (UK) “Invisible China sounds a wake-up call.” —The Strategist “Not to be missed.” —Times Literary Supplement (UK) “[Invisible China] provides an extensive coverage of problems for China in the sphere of human capital development . . . the book is rich in content and is not constrained only to China, but provides important parallels with past and present developments in other countries.” —Journal of Chinese Political Science

Travels in the Invisible Charles Stépanoff,2022-02-09 A lively exploration of the Indigenous traditions of shamanism in the Far North of Eurasia and North America. In this book, Charles Stépanoff draws on ethnographic literature and his fieldwork in Siberia to reveal the immense contribution to human imagination made by shamans and the cognitive techniques they developed over the centuries. Indigenous shamans are certain men and women who are able to travel in spirit in ways that appear mysterious to Westerners but which rely on the human capacity of imagination. They perceive themselves simultaneously in two types of space--one visible, the other virtual--putting them in contact and establishing links with nonhuman beings in their surroundings. Shamans share their experience of spirit travel with their patients, families, or the wider community, allowing them to experience this odyssey through the invisible together. This work will appeal to anthropologists and to anyone with an interest in learning about the power of imagination from the masters of the invisible, the shamans of the Far North.
