**We Are Our Memories** Frank Vajda,2021-05-28 We Are Our Memories is a series of vignettes related to events, people and opinions from a recollection of many decades. Having been involved in periods of major distressing episodes as well as joyful ones, the author has been fortunate to meet and contact some historical figures and campaigned ceaselessly for many decades to honour the Righteous Gentiles, the salt of the Earth who saved their fellow citizen at the risk of their own lives. He pays tributes to rescuers. Reports on nazi crimes from an unusual vantage point are communicated by a former appointed functionary. He recalls teachers, colleagues and books that have shaped his life and motivated him not to remain silent. He recalls liberation by the Red Army from the terrors of nazi tyranny and pays tribute to Australia, which he embraced passionately. He has been honoured by Sweden, by the Royal Order of the Polar Star and he has been made an Officer of the Order of Australia in 2018.

**What Is Cultural Translation?** Sarah Maitland,2017-02-09 What Is Cultural Translation? In this book, Sarah Maitland uncovers processes of negotiation and adaptation closely associated with the translation of languages behind the cultural phenomena of everyday life. For globalized societies confronted increasingly with the presence of difference in all its forms, translation has become both a metaphor for thoughtful encounter and a touchstone act for what we see, do and say, and who we are. Drawing on examples from across cultural domains (theatre, film, TV and literature) this work illuminates the elusive concept of 'cultural translation'. Focusing on the built environment, current affairs, international relations and online media, this book arrives at a view of translation in its broadest sense. It is a means for decoding how we shape the cultural realm and serves as a vehicle for new ways of seeing and being that question the received ideas that structure the communities in which we live. Written in a clear and engaging style, this is the first book-length study of cultural translation. It builds a powerful case for expanding the remit of translation to cover the experience of living and working in a globalized, multicultural world, and is of interest to all involved in the academic study of representation and contestation in contemporary cultural practice.

Elective Monarchy in Transylvania and Poland-Lithuania, 1569-1587 Felicia Roşu,2017 This book is an examination of why and how the elective principle, already established in Transylvanian and Polish political culture in the late medieval period, was transformed in the early elections of the 1570s. In this period, the two polities adopted constitutional arrangements different in depth and scope but based on the same fundamental principles: elective thrones, state-sanctioned religious pluralism, and constitutional guarantees for the right of disobedience. There were important variations in their regulation and application, but Transylvania and the newly created Polish-Lithuanian Commonwealth had one essential thing in common: they were the only two polities in early modern Europe whose political systems secured the succession of their rulers through large-scale elections in which the dynastic principle, although still important, was not binding.
