**Smartphone-Based Indoor Map Construction** Ruipeng Gao, Fan Ye, Guojie Luo, Jason Cong, 2018-03-27 This book focuses on ubiquitous indoor localization services, specifically addressing the issue of floor plans. It combines computer vision algorithms and mobile techniques to reconstruct complete and accurate floor plans to provide better location-based services for both humans and vehicles via commodity smartphones in indoor environments (e.g., a multi-layer shopping mall with underground parking structures). After a comprehensive review of scene reconstruction methods, it offers accurate geometric information for each landmark from images and acoustics, and derives the spatial relationships of the landmarks and rough sketches of accessible areas with inertial and WiFi data to reduce computing overheads. It then presents the authors' recent findings in detail, including the optimization and probabilistic formulations for more solid foundations and better robustness to combat errors, several new approaches to promote the current sporadic availability of indoor location-based services, and a holistic solution for floor plan reconstruction, indoor localization, tracking, and navigation. The novel approaches presented are designed for different types of indoor environments (e.g., shopping malls, office

buildings and labs) and different users. A valuable resource for researchers and those in start-ups working in the field, it also provides supplementary material for students with mobile computing and networking backgrounds.

**Journeys North** Barney Scout Mann, 2020-08-01 2020 Banff Mountain Book Competition Finalist in Adventure Travel In Journeys North, legendary trail angel, thru hiker, and former PCTA board member Barney Scout Mann spins a compelling tale of six hikers on the Pacific Crest Trail in 2007 as they walk from Mexico to Canada. This ensemble story unfolds as these half-dozen hikers--including Barney and his wife, Sandy--trode north, slowly forming relationships and revealing their deepest secrets and aspirations. They face a once-in-a-generation drought and early severe winter storms that test their will in this bare-knuckled adventure. In fact, only a third of all the hikers

who set out on the trail that year would finish. As the group approaches Canada, a storm rages. How will these very different hikers, ranging in age, gender, and background, respond to the hardship and suffering ahead of them? Can they all make the final 60-mile push through freezing temperatures, sleet, and snow, or will some reach their breaking point? Journeys North is a story of grit, compassion, and the relationships people forge when they strive toward a common goal.
