From the Mouths of Sirens Abigail Hair,2022-05-07 A dark reimagining of The Little Mermaid, From the Mouths of Sirens is the first installment in a compelling new YA fantasy series. With a lush fantasy world, a high-stakes competition, and a thrilling love story, From the Mouths of Sirens is The Cruel Prince meets The Hunger Games. Since childhood, Saoirse has trained for the sole purpose of being chosen for the Tournament. The angel-like people of Aurandel have won the Tournament for a century and ruled the continent with an iron grip. If Saoirse survives the three infamous trials, she will win the Crown of Revelore and overthrow the nation responsible for her mother's death. But when Saoirse is denied entry into the Tournament by the Mer king, she makes a forbidden bargain with an imprisoned sea witch: in exchange for entry in the competition, Saoirse agrees to kill the Auran prince. But while fighting for her life in the arena, the last thing Saoirse expects to do is fall for her greatest enemy, the arrogant Prince Rook.

Made to Break Giles Slade,2009-06-30 Made to Break is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support ever-shorter product lives, we may well be shortening the future of our way of life as well.

The Value of Debt Thomas J. Anderson,2013-09-16 A New York Times bestseller and one of the Ten Best Business Books of 2013 by WealthManagement.com, this book brings a new vision of the value of debt in the management of individual and family wealth In this groundbreaking book, author Tom Anderson argues that, despite the reflex aversion most people have to debt—an aversion that is vociferously preached by most personal finance authors—wealthy individuals and families, as well as their financial advisors, have everything to gain and nothing to lose by learning to think holistically about debt. Anderson explains why, if strategically deployed, debt can be of enormous long-term benefit in the management of individual and family wealth. More importantly, he schools you in time-tested strategies for using debt to steadily build wealth, to generate tax-efficient retirement income, to provide a reliable source of funds in times of crisis and financial setback, and more. Takes a strategic debt approach to personal wealth management, emphasizing the need to appreciate the value of indebted strengths and for acquiring the tools needed to take advantage of those strengths Addresses how to determine your optimal debt ratio, or your debt sweet spot A companion website contains a proprietary tool for calculating your own optimal debt ratio, which enables you to develop a personal wealth balance sheet Offering a bold new vision of debt as a strategic asset in the management of individual and family wealth, The Value of Debt is an important resource for financial advisors, wealthy families, family offices, and professional investors.
