The Filipino Migration Experience Mina Roces, 2021-10-15

The Filipino Migration Experience introduces a new dimension to the usual depiction of migrants as disenfranchised workers or marginal ethnic groups. Mina Roces suggests alternative ways of conceptualizing Filipino migrants as critics of the family and cultural constructions of sexuality, as consumers and investors, as philanthropists, as activists, and, as historians. They have been able to transform fundamental social institutions and well-entrenched traditional norms, as well as alter the business, economic and cultural landscapes of both the homeland and the host countries to which they have migrated. Mina Roces tells the story of the Filipino migration experience from the perspective of the migrants themselves, tapping into hitherto underused primary sources from the migrant archives and more than 70 interviews. Bringing the fields of Filipino migration studies and Filipina/o/x American studies together, this book analyzes some of the areas where Filipino migrants have forever changed the status quo.

Designing User Friendly Augmented Work

Environments Saadi Lahlou, 2009-10-08 This book aims at capitalizing and transmitting know-how about the design of Augmented Environments (AE) from some of the most prominent laboratories in the field worldwide. The authors belong to the RUFAE network (Research on User- Friendly Augmented Environments, founded in 2002) who meet in research seminars to share experience; Writing this book was perceived as an opportunity to look back over the last few years to sum up important findings; and formalize their approach and experience, which they never had the time or opportunity to do. Although the authors of this book have very different backgrounds, striking similarities emerge in their approach and design principles: never-endingness, activity-orientedness, continuous design, realism are some of the pillars of this approach; enabling to deal with the complex, heterogeneous, multi-user and multi-purpose constructions which AE designers have to face. The book illustrates how these principles enabled them to construct robust, efficient, and user-friendly Augmented Environments in spite of the many challenges to make these operational. We hope their experience will help the reader. Primary audience: Academics, Students and Professionals involved in the CHI, CSCW, Ubicomp, Cooperative Building communities. Computer Scientists interested by end-users and applications, Social Scientists operating in the IT domain, IT & Organization Consultants. Secondary audience: Developers of office and conferencing applications or middleware, Architects of office buildings, Space Planners, Designers; Facility Managers; IT, furniture & building Business Communities.

History, Historians and the Immigration Debate Eureka Henrich, Julian M. Simpson, 2018-10-13 This book is a response to the binary thinking and misuse of history that characterize contemporary immigration debates. Subverting the traditional injunction directed at migrants to 'go back to where they came from', it highlights the importance of the past to contemporary discussions around migration. It argues that historians have a significant contribution to make in this respect and shows how this can be done with chapters from scholars in, Asia, Europe,

Australasia and North America. Through their work on global, transnational and national histories of migration, an alternative view emerges – one that complicates our understanding of 21st-century migration and reasserts movement as a central dimension of the human condition. *History, Historians and the Immigration Debate* makes the case for historians to assert themselves more confidently as expert commentators, offering a reflection on how we write migration history today and the forms it might take in the future.

Kisah Anak Muda Biasa Perintis Bisnis Luar Biasa Aristo Surya Gunawan, Ati Cahayani, 2020-01-14 Wirausahawan adalah pihak yang dapat membuka lapangan kerja dan menggerakkan serta meningkatkan perekonomian negara. Walaupun usaha yang dimiliki oleh para wirausahawan itu merupakan usaha mikro, kecil, dan menengah sekali pun, usaha tersebut tetap dapat berguna bagi rakyat banyak dan bahkan sebagai penyelamat ekonomi negara saat krisis ekonomi besar melanda Indonesia. Banyak pula yang menyakini bahwa berwirausaha merupakan solusi atas gelombang PHK yang melanda di kala krisis ekonomi terjadi. Saat ini, institusi pendidikan, baik pendidikan dasar, menengah, maupun tinggi, banyak yang telah mengintegrasikan penanaman nilai-nilai kewirausahaan dalam materi pelajaran bagi peserta didik. Selain itu, banyak pula lembaga pendidikan yang melakukan kegiatan yang terkait dengan praktik kewirausahaan, seperti *business day* di mana para siswa diminta menjual hasil karya mereka di bazaar sekolah. Program Studi Administrasi Bisnis, Universitas Katolik Indonesia Atma Jaya, merupakan salah satu

unit dalam lembaga pendidikan tinggi yang berusaha menanamkan sejak semester awal jiwa kewirausahaan melalui mata kuliah kewirausahaan yang wajib diambil oleh para mahasiswa. Selain itu, program studi ini juga memiliki peminatan kewirausahaan. Buku ini ingin menampilkan kisah perjalanan usaha para alumni Prodi Administrasi Bisnis yang bergerak dalam bidang non-kuliner. Ada sepuluh kisah perjalanan usaha non-kuliner alumni yang diangkat dalam buku ini. Penulis berusaha mengangkat kisah perjalanan bisnis dari para wirausahawan muda, dilihat dari berbagai aspek yang terkait dengan karakteristik yang dibutuhkan oleh seorang wirausahawan, antara lain ketekunan, kreativitas, keuletan, dan jejaring kerja (network). Selain itu, ditampilkan pula bagaimana kecintaan pada suatu hal bisa berubah menjadi bisnis, dan disajikan pula suka duka yang mereka alami selama berbisnis.
