**Documentary's Awkward Turn** Jason Middleton, 2013-12-04 Despite the prominence of awkwardness as cultural buzzword and descriptor of a sub-genre of contemporary film and television comedy, it has yet to be adequately theorized in academic film and media studies. *Documentary's Awkward Turn* contributes a new critical paradigm to the field by presenting an analysis of awkward moments in documentary film and other reality-based media formats. It examines difficult and disrupted encounters between social actors on the screen, between filmmaker and subject, and between film and spectator. These encounters are, of course, often inter-connected. Awkward moments occur when an established mode of representation or reception is unexpectedly challenged, stalled, or altered: when an interviewee suddenly confronts the interviewer, when a subject who had been comfortable on camera begins to feel trapped in the frame, when a film perceived as a documentary turns out to be a parodic mockumentary. This book makes visible the ways in which awkwardness connects and subtends a range of transformative textual strategies, political and ethical problematics, and modalities of spectatorship in documentary film and media from the 1970s to the present.

*Introspections - What the Hell Is Going On?!* Gabriel Spataru, 2020-04-25 A simple and honest analysis of some of the factors that influence most young adults in today's society. Just taking a sneak peek into your own past you will be able to see and understand the factors that influence you in your everyday life and how to have the power to change them. You don't need to have some sort of special power or training, you don't need a PhD, you just have to be honest with you. Written over the course of a few months during long nights, it is a light read that hopefully will manage to put a smile on your face,

but from time to time pause and ask yourself a few honest questions. Written in plain language, it doesn't waste time bumbling about and gets straight to the point with a few easy to understand examples and scenarios.

The Palgrave Handbook of Violence in Film and Media Steve Choe, 2022-11-09  
The chapters contained in this handbook address key issues concerning the aesthetics, ethics, and politics of violence in film and media. In addition to providing analyses of representations of violence, they also critically discuss the phenomenology of the spectator, images of atrocity in international cinema, affect and documentary, violent video games, digital infrastructures, cruelty in art cinema, and media and state violence, among many other relevant topics. The Palgrave Handbook of Violence in Film and Media updates existing studies dealing with media and violence while vastly expanding the scope of the field. Representations of violence in film and

media are ubiquitous but remain relatively understudied. Too often they are relegated to questions of morality, taste, or aesthetics while judgments about violence can themselves be subjected to moral judgment. Some may question whether objectionable images are worthy of serious scholarly attention at all. While investigating key examples, the chapters in this handbook consider both popular and academic discourses to understand how representations of violence are interpreted and discussed. They propose new approaches and raise novel questions for how we might critically think about this urgent issue within contemporary culture.

**THE VOICE** ABINA MARY S, Poetry

**We Are Anonymous** Parmy Olson, 2012-06-05 A thrilling, exclusive expose of the hacker collectives Anonymous and LulzSec. WE ARE ANONYMOUS is the first full account of how a loosely assembled group of hackers scattered across the globe formed a new kind of insurgency, seized headlines, and tortured the feds—and the ultimate betrayal that would eventually bring them down. Parmy Olson goes behind the headlines and into the world of Anonymous and LulzSec with unprecedented access, drawing upon hundreds of conversations with the hackers themselves, including exclusive interviews with all six core members of LulzSec. In late 2010, thousands of hacktivists joined a mass digital assault on the websites of VISA, MasterCard, and PayPal to protest their treatment of WikiLeaks. Other targets were wide ranging—the websites of corporations from Sony Entertainment and Fox to the Vatican and the Church of Scientology were hacked, defaced, and embarrassed—and the message was that no one was safe. Thousands of user accounts from pornography websites were released, exposing government employees and military personnel. Although some

attacks were perpetrated by masses of users who were rallied on the message boards of 4Chan, many others were masterminded by a small, tight-knit group of hackers who formed a splinter group of Anonymous called LulzSec. The legend of Anonymous and LulzSec grew in the wake of each ambitious hack. But how were they penetrating intricate corporate security systems? Were they anarchists or activists? Teams or lone wolves? A cabal of skilled hackers or a disorganized bunch of kids? WE ARE ANONYMOUS delves deep into the internet's underbelly to tell the incredible full story of the global cyber insurgency movement, and its implications for the future of computer security.

**Kids on YouTube** Patricia G Lange, 2016-09-17 The mall is so old school—these days kids are hanging out on YouTube, and depending on whom you ask, they're either forging the digital frontier or frittering away their childhoods in anti-intellectual solipsism. Kids on YouTube cuts through the hype, going behind the scenes to understand kids' everyday engagement with new media. Debunking the stereotype of the self-taught computer whiz, new media scholar and filmmaker Patricia G. Lange describes the collaborative social networks kids use to negotiate identity and develop digital literacy on the 'Tube. Her long-term ethnographic studies also cover peer-based and family-driven video-making dynamics, girl geeks, civic engagement, and representational ethics. This book makes key contributions to new media studies, communication, science and technology studies, digital anthropology, and informal education.

**Linked** Gordon Korman, 2021-07-20 An unforgettable novel from the New York Times bestseller Gordon Korman Link, Michael, and Dana live in a quiet town. But it's woken up very quickly when someone sneaks into school and vandalizes it with a swastika. Nobody can believe it. How could such a symbol of hate end up in the middle of their school? Who would do such a thing? Because Michael was the first person to see it, he's the first suspect. Because Link is one of the most popular guys in school, everyone's looking to him to figure it out. And because Dana's the only Jewish girl in the whole town, everyone's treating her more like an outsider than ever. The mystery deepens as more swastikas begin to appear. Some students decide to fight back and start a project to bring people together instead of dividing them further. The closer Link, Michael, and Dana get to the truth, the more there is to face-not just the crimes of the present, but the crimes of the past. With *Linked*, Gordon Korman, the author of the acclaimed novel *Restart*, poses a mystery for all readers where the who did it? isn't nearly as important as the why?

Word-of-Mouth in Contemporary Hollywood Simon Hewitt, 2023-07-26 *Word-of-Mouth in Contemporary Hollywood* provides a unique insight into the potential for online communication to enable audiences to exert a greater impact on film industrial practices than ever before. In an overarching analysis of contemporary Hollywood film financing, marketing, distribution, and

exhibition practices, Simon Hewitt recontextualises word-of-mouth in light of social media and examines the growing impact of audience participation. Using a 'Bourdieuconomic' approach, he applies qualitative research methods to better understand the contemporary Hollywood film audience, the contemporary Hollywood film industry, and the mechanisms that connect the two. The book explores new film financing mechanisms that incorporate fans into the packages used to secure production funds. It assesses the role of 'Grassroots Intermediaries' in contemporary film marketing campaigns. It critiques 'democratic' crowdsourced methods of film distribution, and finally, it considers the possible future of Hollywood film exhibition. By helping to bridge the gap between the gift economy and commodity culture, this book will appeal to students and scholars of media industry studies, media finance and economics, fan and audience studies, film studies, film history, and media marketing.
