I'm Everywhere and Nowhere. and I Own Nothing and Everything Yann Girard,2016-09-27 Over the past seven years I've lived in more places than I can remember. I lived and worked in Shanghai, New York, Berlin, Bangkok, Munich and a few more places, not including the dozens of places I've stayed at for just a few days or weeks.While writing these lines I'm in a small town in Malaysia.I've basically lived out of a backpack for the past seven years. And the longer I'm doing this, the less stuff I need. Right now I carry less than 10 items around with me in a carry on backpack that weighs less than 10kg. I go wherever I want to go. I currently spend less than \$800 a month. Including everything. My most precious possession is a \$300 Acer laptop.I've started a clothing company in China, for the Chinese market, which failed miserably. I've launched more than 10 websites, some of them made some money, some of them didn't. I shut down all of them. I've written seven books (this is my eighth). None of them was a bestseller. I write a blog where I published more than 500 articles so far. I've more than 100,000 monthly readers spread across multiple platforms.I'm by no means successful. Or rich. But I have more than enough, by all means. I have access to everything I need. And I can buy and afford everything I need.I'm not a minimalist. Or a digital nomad. Or an entrepreneur. Or a blogger. Or an author.I'm mostly trying to just be myself. I'm trying to be myself in a world where it gets harder and harder every single day to just be yourself.It's not always been easy. As a matter of fact it's probably been hard more often than it's been easy. But every day of struggle and doubt has been worth it. Being yourself and creating your own life instead of just living a life is always worth the struggle.This right here is my story. This is what I've learned about life, myself and the world around me.I'm everywhere and nowhere. And I own nothing and everything...

Dog Food Logic Linda P. Case, M.S.,2014-02-12 **Choosing the right dog food in a world with too many choices**

Walking down the dog food aisle in a pet supply superstore can present you with an overwhelming number of choices. Reading about dog food on the internet can make your head spin with so many opinions and stories. And judging the content that you find on dog food packaging can be confusing and misleading. How can the average dog owner make an informed choice in accordance with her dog’s age, size and condition? In her latest book, author Linda Case describes how to make logical, evidence-based decisions for what to feed your dog amid all the options available.

You will learn

- How pet food marketers appeal to your emotions to persuade you to buy a particular type of dog food.
- To distinguish between scientific, evidence-based information and the anecdotal evidence which is so pervasive—and often misleading—in the dog food arena.
- Is there a scientific basis for dog foods designed specifically for puppies, senior dogs, canine athletes—even various breeds of dogs?
- How to read and evaluate all of the material included on a typical package of dog food from the ingredients and label claims (“Natural,” “Anti-Oxidant,” “Low Fat”),to the Nutrient Analysis and Nutritional Adequacy statements.
- How to avoid choice paralysis and the cognitive traps that can interfere with clear decision making.

What experts are saying about *Dog Food Logic*

Pet food is like a religion for many—but now those strong emotional ties can be backed up with fact. Linda Case separates fact from fiction, explains the complex terms and offers a guide to pet nutrition in simple to comprehend language. Unlike other books on this topic, there is no agenda here—except to present facts and then allow pet owners to make their own logical conclusions, letting the kibble drop where it may. **Steve Dale**, CABC, columnist Tribune Content Agency; radio host Black Dog Radio Productions and WGN Radio (Chicago); contributing editor USA Weekend; special correspondent Cat Fancy; author Good Cat!

Dog Food Logic is the indispensable guide to the science behind canine nutrition that will help us to make wise, well-informed choices about how and what we feed our dogs. It takes the fear out of trying to understand proper nutrition and will empower us to determine what is best for the health of our dogs.

Claudia Kawczynska, Founder and Editor-in-chief of The Bark

Don't read this book if you want someone to tell you what to feed your dog. This is a book for people who want to learn, in a reasoned and thoughtful way, how to figure it out for themselves. *Dog Food Logic* goes way beyond the usual textbook list of nutritional requirements to cover the pet food industry in all its glory: the history, the business, the marketing, and best of all, the science. Case deftly navigates the most controversial topics in pet food and presents the big picture without interjecting judgment about what approach is best. There's something here for everyone: pet care professionals and dog lovers alike will learn something new from this informative, easy to read, and well researched book.

A Supposedly Fun Thing I'll Never Do Again David Foster Wallace,2009-11-23 These widely acclaimed essays from the author of Infinite Jest -- on television, tennis, cruise ships, and more -- established David Foster Wallace as one of the preeminent essayists of his generation. In this exuberantly praised book -- a collection of seven pieces on subjects ranging from television to tennis, from the Illinois State Fair to the films of David Lynch, from postmodern literary theory to the supposed fun of traveling aboard a Caribbean luxury cruiseliner -- David Foster Wallace brings to nonfiction the same curiosity, hilarity, and exhilarating verbal facility that has delighted readers of his fiction, including the bestselling Infinite Jest.

Mindset Carol S. Dweck,2007-12-26 From the renowned psychologist who introduced the world to “growth mindset” comes this updated edition of the million-copy bestseller—featuring transformative insights into redefining success, building lifelong resilience, and supercharging self-improvement. “Through clever research studies and engaging writing, Dweck illuminates how our beliefs about our capabilities exert tremendous influence on how we learn and which paths we take in life.”—Bill Gates, GatesNotes “It’s not always the people who start out the smartest who end up the smartest.” After decades of research, world-renowned Stanford University psychologist Carol S. Dweck, Ph.D., discovered a simple but groundbreaking idea: the power of mindset. In this brilliant book, she shows how success in school, work, sports, the arts, and almost every area of human endeavor can be dramatically influenced by how we think about our talents and abilities. People with a fixed mindset—those who believe that abilities are fixed—are less likely to flourish than those with a growth mindset—those who believe that abilities can be developed. Mindset reveals how great parents, teachers, managers, and athletes can put this idea to use to foster outstanding accomplishment. In this edition, Dweck offers new insights into her now famous and broadly embraced concept. She introduces a phenomenon she calls false growth mindset and guides people toward adopting a deeper, truer growth mindset. She also expands the mindset concept beyond the individual, applying it to the cultures of groups and organizations. With the right mindset, you can motivate those you lead, teach, and love—to transform their lives and your own.
