Understanding Media Marshall McLuhan, 2016-09-04 When first published, Marshall McLuhan's *Understanding Media* made history with its radical view of the effects of electronic communications upon man and life in the twentieth century.

Media Essentials Richard Campbell, Christopher Martin, Bettina Fabos, Shawn Harmsen, 2019-10-02 A concise and affordable resource for the mass communication course, *Media Essentials* provides a flexible, informative, and relevant breakdown of what the media is, how it works, and how it impacts today's most talked-about subjects. From #metoo to content streaming to social media and politics, students learn how a wide variety of recent developments have impacted the mass-media landscape—and how past innovation and change have informed our current media world. *Media Essentials* is available with LaunchPad, a robust online platform designed to help students fully engage with course content—and with the world of mass media. From our acclaimed LearningCurve adaptive quizzing, which helps students learn and retain concepts, to compelling features like an interactive e-

book and a variety of entertaining and thought-provoking video clips, LaunchPad gets students connected with—and interested in—the information they need to succeed in class.

Media & Culture Richard Campbell, Christopher R. Martin, Bettina Fabos, 2002 Rev. ed. of: Media and culture. 2nd ed. c2000. Includes bibliographical references (p. 575-582) and index.

Housing, Land, and Property Rights in Post-Conflict United Nations and Other Peace Operations Scott Leckie, 2009 This book is about the UN's role in housing, land, and property rights in countries after violent conflict.

Moon-face and Other Stories Jack London, 1906 JACK LONDON (1876-1916), American novelist, born in San Francisco, the son of an itinerant astrologer and a spiritualist mother. He grew up in poverty, scratching a living in various legal and illegal ways -robbing the oyster beds, working in a canning factory and a jute mill, serving aged 17 as a common sailor, and taking part in the Klondike gold rush of 1897. This various experience provided the material for his works, and made him a socialist. *The son of the Wolf* (1900), the first of his collections of tales, is based upon life in the Far

North, as is the book that brought him recognition, *The Call of the Wild* (1903), which tells the story of the dog Buck, who, after his master's death, is lured back to the primitive world to lead a wolf pack. Many other tales of struggle, travel, and adventure followed, including *The Sea-Wolf* (1904), *White Fang* (1906), *South Sea Tales* (1911), and *Jerry of the South Seas* (1917). One of London's most interesting novels is the semi-autobiographical *Martin Eden* (1909). He also wrote socialist treatises, autobiographical essays, and a good deal of journalism.

The U-boat hunters James B. Connolly, 2022-11-21 *The U-boat Hunters* refers the readers to the times of WWI. It was written by a reporter then on assignment for *Collier Magazine* to cover US Naval operations opposing the German U-boat threat. The author managed to create a mixture of narrative description and firsthand tales of life in the merchant marine. It is an interesting and informative insight into the lives of marine soldiers.

Atlas of Echocardiography Scott D. Solomon, 2008-12-15 The second edition of the *Atlas of Echocardiography* is a complete reference for cardiology professionals who rely on echocardiographic

imaging techniques. The Atlas represents the collective effort of over 30 leading authorities in the field of cardiology working together to compile the most up-to-date and pertinent information in the field of echocardiography. All areas of echocardiography are covered, from diagnostic basics to cutting edge techniques, such as three-dimensional imaging, contrast imaging, and tissue Doppler imaging. Each figure is accompanied by an informative legend that fully explains the image and its importance. This striking, four color atlas serves as both a resource and a reference and is an invaluable tool to all readers, including cardiologists, non-cardiologist physicians, and sonographers.

Health Expectations for Older Women Sarah B. Laditka, 2014-06-11 Explore international trends in health and longevity--with a special focus on older women! This essential book examines the latest research on life expectancy and “active life expectancy”--the number of years that women can expect to live free from major disability--in developed and developing countries around the world. It also explores the policy implications of the contributors’ findings. Here you'll find a global study using data from the World Health Organization, a European study using data from OECD countries, and studies

of women in the United Kingdom, Fiji, The Netherlands, Japan, Canada, and the United States. With contributions from demographers, economists, epidemiologists, gerontologists, medical statisticians, policy analysts, physicians, public health directors, and sociologists, *International Perspectives on Health Expectancies for Older Women* compares mortality and morbidity trends in various populations. In addition to reviewing the current literature on active life expectancy, this informative book looks at: the distribution of total, unimpaired, and impaired life for several groups of older women defined by race, education, and marital history gender differences in health profiles in The Netherlands gender differences in life with and without six major diseases, including both morbid and mortal conditions in the United States how mortality and morbidity patterns differ for Canadian women and men 45 years of age and older, focusing on risk factors and chronic conditions such as low income, low education, abnormal body mass index, lack of physical activity, smoking, cancer, diabetes, and arthritis patterns of healthy life expectancy for older women around the globe a comparison of the development and progression of physical disability in Japanese men and women and more!

Notes from the Hyena's Belly Nega Mezlekia,2015-04-07 In this acclaimed memoir, Mezlekia recalls his boyhood in the arid city of Jijiga, Ethiopia, and his journey to manhood during the 1970s and 1980s. He traces his personal evolution from child to soldier--forced at the age of eighteen to join a guerrilla army. And he describes the hardships that consumed Ethiopia after the fall of Emperor Haile Selassie and the rise to power of the communist junta, in whose terror thousands of Ethiopians died. Part autobiography and part social history, Notes from the Hyena's Belly offers an unforgettable portrait of Ethiopia, and of Africa, during the defining and turbulent years of the last century.

The Trees of San Francisco Michael Sullivan,2013-10-21 Trees of San Francisco introduces readers to the rich variety of trees that thrive in San Francisco's unique conditions. San Francisco's cool Mediterranean climate has made it home to interesting and unusual trees from all over the world - trees as colorful and exotic as the city itself. This new guide combines engaging descriptions of sixty-five different trees with color photos that reflect the visual appeal of San Francisco. Each page covers

a different tree, with several paragraphs of interesting text accompanied by one or two photos. Each entry for a tree also lists locations where landmark specimens of the tree can be found. Interspersed throughout the book are sidebar stories of general interest related to San Francisco's trees. Trees of San Francisco also includes a dozen tree tours that will link landmark trees and local attractions in interesting San Francisco neighborhoods such as the Castro, Pacific Heights and the Mission - walks that will appeal to tourists as well as Bay Area natives.

the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life.
