The Secret Barrister The Secret Barrister, 2018-03-22 An anonymous barrister offers a shocking, darkly comic and very moving journey through the legal system – and explains how it's failing all of us. The Sunday Times number one bestseller. Winner of the Books are My Bag Non-Fiction Award. Shortlisted for Waterstones Book of the Year. Shortlisted for Specsavers Non-Fiction Book of the Year. You may not wish to think about it, but one day you or someone you love will almost certainly appear in a criminal courtroom. You might be a juror, a victim, a witness or – perhaps through no fault of your own – a defendant. Whatever your role, you'd expect a fair trial. I'm a barrister. I work in the criminal justice system, and every day I see how fairness is not guaranteed. Too often the system fails those it is meant to protect. The innocent are wronged and the guilty allowed to walk free. In *The Secret Barrister: Stories of the Law and How It's Broken* I want to share some stories from my daily life to show you how the system is broken, who broke it and why we should start caring before it's too late. A Sunday Times top ten bestseller for twenty-four weeks. 'Eye-opening, funny and horrifying' – Observer 'Everyone who has any interest in public life should read it' – Daily Mail

Punishment Without Trial Carissa Byrne Hessick, 2021-10-12 From a prominent criminal law professor, a provocative and timely exploration of how plea bargaining prevents true criminal justice reform and how we can fix it—now in paperback When Americans think of the criminal justice system, the image that comes to mind is a trial—a standard courtroom scene with a defendant, attorneys, a judge, and most important, a jury. It's a fair assumption. The right to a trial by jury is enshrined in both the body of the Constitution and the Bill of Rights. It's supposed to be the foundation that undergirds our entire justice system. But in *Punishment Without Trial: Why Plea Bargaining Is a Bad Deal*, University of North Carolina law professor Carissa Byrne Hessick shows that the popular conception of a jury trial couldn't be further from reality. That bedrock constitutional right has all but disappeared thanks to the unstoppable march of plea bargaining, which began to take hold during Prohibition and has skyrocketed since 1971, when it was affirmed as constitutional by the Supreme Court. Nearly every aspect of our criminal justice system encourages defendants—whether they're innocent or guilty—to take a plea deal. *Punishment Without Trial* showcases how plea bargaining has undermined justice at every turn and across socioeconomic and racial divides. It forces the hand of lawyers, judges, and defendants, turning our legal system into a ruthlessly efficient mass incarceration machine that is dogging our jails and punishing citizens because it's the path of least resistance. Professor Hessick makes the case against plea bargaining as she illustrates how it has damaged our justice system while presenting an innovative set of reforms for how we can fix it. An impassioned, urgent argument about the future of criminal justice reform, *Punishment Without Trial* will change the way you view the criminal justice system.

Nutrition of the Elderly Hamish Nisbet Munro, Günter Schlierf, 1992 This volume examines the relationship between nutrition and the aging process and offers nutritional guidelines for promoting and sustaining the health and function of elderly people. Leading international investigators shed new light on the role of diet in age-related physiological changes, the significance of nutritional factors in the etiology of geriatric diseases, the specific nutrient requirements of healthy elderly people and geriatric patients, and the pathological and environmental factors leading to malnutrition among the elderly. In addition to formulating recommendations for optimal nutrition during later life, the contributors stress the importance of nutrition during earlier adult life in preventing chronic diseases prevalent among the elderly, such as cardiovascular diseases, osteoporosis, muscular atrophy, disorders of immune function, and Alzheimer's disease. The book begins with overviews of the health

statistics and eating habits of older people. The contributors then describe age-related changes in renal, endocrine, and gastrointestinal function, energy metabolism, taste and odor perception, and immune responses, and relate these physiological changes to nutritional status. Noted experts establish energy, protein, vitamin, and trace element requirements for elderly persons and examine the key issues concerning dietary fat. An extensive section of the book is devoted to the prevention and treatment of osteoporosis Alzheimer's disease. This section includes discussions on hip fracture, femoral bone mineral density, and protein supply in elderly patients, estrogens in the prevention and treatment of osteoporosis, exercise in the prevention of osteoporosis, fluoride therapy for vertebral osteoporosis, and the relationship of brain mineral metabolism to Alzheimer's disease. The concluding section addresses the practical problems involved in nutrition of the elderly in the home and the institutional setting. Nutrition of the Elderly is an essential resource for nutritionists, geriatricians, internists, family practitioners, professionals working in nursing homes, and specialists treating disorders that appear in later life. It offers invaluable guidance on assessing the nutritional status both of elderly people and of younger adults, improving the nutrient intake of the elderly, and designing programs for prevention of the adverse physical and mental changes associated with aging.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc.
