Migrating Applications to IPv6 Dan York, 2011-06-10 If IPv6 is to be adopted on a large scale, the applications running on desktop systems, laptops, and even mobile devices need to work just as well with this protocol as they do with IPv4. This concise book takes you beyond the network layer and helps you explore the issues you need to address if you are to successfully migrate your apps to IPv6. It's ideal for application developers, system/network architects, product managers, and others involved in moving your network to IPv6. Explore changes you need to make in your application's user interface Make sure your application is retrieving correct information from DNS Evaluate your app's ability to store and process both IPv6 and IPv4 addresses Determine if your app exposes or consumes APIs where there are IP address format dependencies Work with the network layer to ensure the transport of messages to and from your app Incorporate IPv6 testing into your plans, and

use the correct IPv6 addresses in your documentation

Interactive Systems. Design, Specification, and Verification DSV-IS 2003, Joaquim Jorge, Nuno Jardim Nunes, Joao Falcao e Cunha, 2003-10-09 This book constitutes the thoroughly refereed post-proceedings of the 10th International Workshop on Design, Specification, and Verification of Interactive Systems, DSV-IS 2003, held in Funchal, Madeira Island, Portugal, in June 2003. The 26 revised full papers and 5 revised short papers presented together with an invited paper have passed through two rounds of reviewing, selection, and improvement. The papers are organized in topical sections on test and evaluation, Web and groupware, tools and technologies, task modeling, model-based design, mobile and multiple devices, UML, and specification languages.

Convergence Culture Henry Jenkins, 2008-09 "What the future fortunes of [Gramsci's] writings will be, we cannot know. However, his permanence is already sufficiently sure, and justifies the historical study of his international reception. The present collection of studies is an indispensable foundation for this." —Eric Hobsbawm, from the preface Antonio Gramsci is a giant of Marxian thought and one of the world's greatest cultural critics. Antonio A. Santucci is perhaps the world's preeminent

Gramsci scholar. Monthly Review Press is proud to publish, for the first time in English, Santucci's masterful intellectual biography of the great Sardinian scholar and revolutionary. Gramscian terms such as "civil society" and "hegemony" are much used in everyday political discourse. Santucci warns us, however, that these words have been appropriated by both radicals and conservatives for contemporary and often self-serving ends that often have nothing to do with Gramsci's purposes in developing them. Rather what we must do, and what Santucci illustrates time and again in his dissection of Gramsci's writings, is absorb Gramsci's methods. These can be summed up as the suspicion of "grand explanatory schemes," the unity of theory and practice, and a focus on the details of everyday life. With respect to the last of these, Joseph Buttigieg says in his Nota: "Gramsci did not set out to explain historical reality armed with some full-fledged concept, such as hegemony; rather, he examined the minutiae of concrete social, economic, cultural, and political relations as they are lived in by individuals in their specific historical circumstances and, gradually, he acquired an increasingly complex understanding of how hegemony operates in many diverse ways and under many aspects within the capillaries of society." The rigor of Santucci's examination of Gramsci's life and work matches that of the seminal thought of the master himself. Readers will be enlightened and inspired by every page.

Seeing Race Again Kimberlé Williams Crenshaw, 2019-02-05 Every academic

discipline has an origin story complicit with white supremacy. Racial hierarchy and colonialism structured the very foundations of most disciplines' research and teaching paradigms. In the early twentieth century, the academy faced rising opposition and correction, evident in the intervention of scholars including W. E. B. Du Bois, Zora Neale Hurston, Carter G. Woodson, and others. By the mid-twentieth century, education itself became a center in the struggle for social justice. Scholars mounted insurgent efforts to discredit some of the most odious intellectual defenses of white supremacy in academia, but the disciplines and their keepers remained unwilling to interrogate many of the racist foundations of their fields, instead embracing a framework of racial colorblindness as their default position. This book challenges scholars and students to see race again. Examining the racial histories and colorblindness in fields as diverse as social psychology, the law, musicology, literary studies, sociology, and gender studies, *Seeing Race Again* documents the profoundly contradictory role of the academy in constructing, naturalizing, and reproducing racial hierarchy. It shows how colorblindness compromises the capacity of disciplines to effectively respond to the wide set of contemporary political, economic, and social crises marking public life today.

100 Words To Make You Sound Smart American Heritage Dictionaries,2006-10-04

Find the right words to make a point, seal the deal, or just keep folks listening! Chosen by the editors of the American Heritage Dictionaries, these words can help anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an enjoyable way to communicate more effectively, distinctively, and articulately.

Passionate and Pious Monique Moultrie,2017-12-15 In *Passionate and Pious* Monique Moultrie explores the impact of faith-based sexual ministries on black women's sexual agency to trace how these women navigate sexuality, religious authority, and their spiritual walk with God. Providing churchwomen a space to candidly discuss these issues, these popular ministries exist largely beyond the traditional church, with dialogues about sex taking place in chat rooms and through text messages, social media, email, and other

media. Moultrie foregrounds televangelist Juanita Bynum's construction of the black Christian sexual identity these ministries promote while emphasizing how churchwomen reconcile these prescriptive identities with their individual experiences. What does it mean for senior women to exercise sexual agency when their church standing could be questioned? What does celibacy mean for women who experience same-sex desire while believing that such desire goes against God's will? Advancing a womanist sexual ethics, Moultrie reframes biblical interpretations and conceptions of what constitutes a healthy relationship to provide a basis for sexual decision making that does not privilege monogamy or deny female pleasure, thereby calling on black churchwomen to experience responsible and life-enhancing sex.

Loving the Body D. Hopkins, 2004-12-09 In this book, contributors argue that the Black Church must begin to address the significance of sexuality if it is to actually present liberation as a mode of existence that fully appreciates the body. The contributors argue that we not only have to look at the Black Church in this discussion, but also explore black Christianity in general.

When Momma Speaks Stephanie Buckhanon Crowder, 2016-09-01 Stephanie Buckhanon Crowder provides an engaging womanist reading of mother characters in the Old and New Testaments. After providing a brief history of womanist biblical interpretation, she shows how the stories of several biblical mothers—Hagar, Rizpah, Bathsheba, Mary, the Canaanite woman, and Zebedee's wife—can be powerful sources for critical reflection, identification, and

empowerment. Crowder also explores historical understandings of motherhood in the African American community and how these help to inform present-day perspectives. She includes questions for discussion with each chapter.

Gender and the Musical Canon Marcia J. Citron, 2024-04-22 A classic in gender studies in music Marcia J. Citron's comprehensive, balanced work lays a broad foundation for the study of women composers and their music. Drawing on a diverse body of feminist and interdisciplinary theory, Citron shows how the western art canon is not intellectually pure but the result of a complex mixture of attitudes, practices, and interests that often go unacknowledged and unchallenged. Winner of the Pauline Alderman Prize from the International Alliance of Women in Music, *Gender and the Musical Canon* explores important elements of canon formation, such as notions of creativity, professionalism, and reception. Citron surveys the institutions of power, from performing organizations and the academy to critics and the publishing and recording industries, that affect what goes into the canon and what is kept out. She also documents the nurturing role played by women, including mothers, in cultivating female composers. In a new introduction, she assesses the book's reception by composers and critics, especially the reactions to her controversial reading of Cécile Chaminade's sonata for piano. A key volume in establishing how the concepts and assumptions that form the western art music canon affect female composers and their music, *Gender and the Musical Canon* also reveals how these dynamics underpin many of the major issues that affect

musicology as a discipline.

The Art of Critical Pedagogy Jeffrey Michael Reyes Duncan-Andrade, Ernest Morrell, 2008 This book furthers the discussion concerning critical pedagogy and its practical applications for urban contexts. It addresses two looming, yet under-explored questions that have emerged with the ascendancy of critical pedagogy in the educational discourse: (1) What does critical pedagogy look like in work with urban youth? and (2) How can a systematic investigation of critical work enacted in urban contexts simultaneously draw upon and push the core tenets of critical pedagogy? Addressing the tensions inherent in enacting critical pedagogy - between working to disrupt and to successfully navigate oppressive institutionalized structures, and between the practice of critical pedagogy and the current standards-driven climate - The Art of Critical Pedagogy seeks to generate authentic internal and external dialogues among educators in search of texts that offer guidance for teaching for a more socially just world.

Utopia, Limited Anahid Nersessian, 2015-03-09 What is utopia if not a

perfect impossible world? Anahid Nersessian reveals the basic misunderstanding of that ideal. Applying the lessons of art to the rigors of life on an imperiled planet, she enlists the Romantics to redefine utopia as an investment in limitation—not a perfect world but one where we get less than we hoped but more than we had.
