Law and Judicial Dialogue on the Return of Irregular Migrants from the European Union Madalina Moraru,Galina Cornelisse,Philippe De Bruycker,2020-08-06 This volume examines the implementation of the Return Directive from the perspective of judicial dialogue. While the role of judges has been widely addressed in European asylum law and EU law more generally, their role in EU return policy has hitherto remained under explored. This volume addresses the interaction and dialogue between domestic judiciaries and European courts in the implementation of European return policy. The book brings together leading authors from various backgrounds, including legal scholars, judges and practitioners. This allows the collection to offer theoretical and practical perspectives on important questions regarding the regulation of irregular migration in Europe, such as: what constitutes inadequate implementation of the Directive and

under which conditions can judicial dialogue solve it? How can judges ensure that the right balance is struck between effective return procedures and fundamental rights? Why do we see different patterns of judicial dialogue in the Member States when it comes to particular questions of return policy, for example regarding the use of detention? These questions are more timely than ever given the shifting public discourse on immigration and the growing political backlash against immigration courts. This book will be essential reading for all scholars and practitioners in the fields of immigration law and policy, EU law and public law.

Neural Information Processing Biao Luo,Long Cheng,Zheng-Guang Wu,Hongyi Li,Chaojie Li,2023-11-25 The nine-volume set constitutes the refereed proceedings of the 30th International Conference on Neural Information Processing, ICONIP 2023, held in Changsha, China, in November 2023. The 1274 papers presented in the proceedings set were carefully reviewed and selected from 652 submissions. The ICONIP conference aims to provide a leading international forum for researchers, scientists, and industry professionals who are working in neuroscience, neural networks, deep learning, and related fields to share their new ideas, progress, and achievements.

Special Edition Using Mac OS X, V10.3 Panther Brad Miser,2004 The Panther release of Mac OS X continues the development of the Macintosh operating system. Mac OS X has become the dominant OS on the Macintosh platform and is currently the default OS on all new Macintosh computers. Mac OS X is a complex and powerful operating system for which no documentation is provided by Apple outside of the Apple Help system, which contains very limited information. Special Edition Using Mac OS X Panther

provides the in-depth, wide ranging coverage that enables Mac users to get the most out of the operating system and included tools. This book explains how to get the most out of the core OS, including the Finder, desktop, and system customization. The book also shows readers how to use OS X's Internet applications for email, Web surfing, and .mac for publishing content on the Net. One of the book's major strengths is the extensive coverage of iTunes, iPhoto, iDVD, and iMovie. QuickTime and QuickTime Pro are also covered. The book helps readers understand and configure the technologies to expand their systems.

Call Center Optimization Ger Koole,2013 This book gives an accessible overview of the role and potential of mathematical optimization in call centers. It deals extensively with all aspects of workforce management, but also with topics such as call routing and the scheduling of multiple channels. It does so without going into the mathematics, but by focusing on understanding its consequences. This way the reader will get familiar with workload forecasting, the Erlang formulas, simulation, and so forth, and learn how to improve call center performance using it. The book is primarily meant for call center professionals involved in planning and business analytics, but also call center managers and researchers will find it useful. There is an accompanying website which contains several online calculators.

Proceedings of the Future Technologies Conference (FTC) 2018 Kohei Arai,Rahul Bhatia,Supriya Kapoor,2018-10-19 The book, presenting the proceedings of the 2018 Future Technologies Conference (FTC

2018), is a remarkable collection of chapters covering a wide range of topics, including, but not limited to computing, electronics, artificial intelligence, robotics, security and communications and their real-world applications. The conference attracted a total of 503 submissions from pioneering researchers, scientists, industrial engineers, and students from all over the world. After a double-blind peer review process, 173 submissions (including 6 poster papers) have been selected to be included in these proceedings. FTC 2018 successfully brought together technology geniuses in one venue to not only present breakthrough research in future technologies but to also promote practicality and applications and an intra- and inter-field exchange of ideas. In the future, computing technologies will play a very important role in the convergence of computing, communication, and all other computational sciences and applications. And as a result it will also influence the future of science, engineering, industry, business, law, politics, culture, and medicine. Providing state-of-the-art intelligent methods and techniques for solving real-world problems, as well as a vision of the future research, this book is a valuable resource for all those interested in this area.
