Politics in the Republic of Ireland John Coakley,Michael Gallagher,Eoin O'Malley,Theresa Reidy,2023-08-31 Building on the success of previous editions, *Politics in the Republic of Ireland* continues to provide an authoritative introduction to all aspects of government and politics in this seventh edition. Written by some of the foremost experts on Irish politics, it explains, analyses and interprets the background to Irish government and contemporary political processes. It devotes chapters to every aspect of contemporary Irish government and politics, including the political parties and elections, the constitution, deliberative democracy, referendums, the Taoiseach and the governmental system, women and politics, the position of the Dáil, and Ireland's place within the European Union. Bringing readers up to date with the very latest developments, especially with the upheaval in the Irish party system and the implications of recent liberalising referendums, the seventh edition combines substance with a highly readable style, providing an accessible book that meets the needs of all those who are interested in knowing how politics and government operate in Ireland.

Irish Media John Horgan,2001 Covering all principal media forms, print and electronic, on both sides of the border, Horgan shows how Irish history and politics have shaped the media of Ireland and, in turn, been shaped by them.

De Valera, Fianna Fáil and the Irish Press Mark O'Brien,2001 The relationship between the Fianna Fáil party and the Irish Press, both founded by Eamon de Valera in an era of political revolution, has been much misunderstood. Blamed for causing the bitter civil war and isolated in its aftermath by the political establishment, de Valera took what seemed the only course of action and founded his own political party and newspaper. In the aftermath of independence, nation building began with both Fianna Fáil and Fine Gael competing to influence the process as much as possible. The Irish Press gave voice to de Valera's vision for Ireland and Irishness, and defended it from its detractors, namely the Fine Gael party, providing him with a means to counter hostility in the media, orchestrated particularly by the Irish Independent and the Irish Times. The author gives a fascinating view of the war of words between the two papers, their fight for rural readership and the role of Irish Press in bringing Fianna Fáil to power. He explores the possibility of the Irish Press being de Valera, rather than, party-dominated and analyses the gradual disintegration of the relationship between the party and the paper as the de Valera family found itself gradually alienated from the paper's readers, a modernising Ireland and a changing Fianna Fáil party.

Modernists and the Theatre James Moran,2021-12-16 *Modernists and the Theatre* examines how six key modernists, who are best known as poets and novelists, engaged with the realm of theatre and performance. Drawing on a wealth of unfamiliar archival material and fresh readings of neglected documents, James Moran demonstrates how these literary figures interacted with the playhouse, exploring W.B. Yeats's earliest playwriting, Ezra Pound's onstage acting, the links between James Joyce's and D.H. Lawrence's sense of drama, T.S. Eliot's thinking about theatrical popularity, and the feminist politics of Virginia Woolf's small-scale theatrical experimentation. While these modernists often made hostile comments about drama, this volume highlights how the writers were all repeatedly drawn to the form. While Yeats and Pound were fascinated by the controlling aspect of theatre, other authors felt inspired by theatre as a democratic forum in which dissenting voices could be heard. Some of these modernists used theatre to express and explore identities that had previously been sidelined in the public forum, including the working-class mining communities of Lawrence's plays, the sexually unconventional and non-binary gender expressions of Joyce's fiction, and the female experience that Woolf sought to represent and discuss in terms of theatrical performance. These writers may be known primarily for creating non-dramatic texts, but this book demonstrates the importance of the theatre to the activities of these authors, and shows how a sense of the theatrical repeatedly motivated the wider thinking and writing of six major figures in literary history.

Independent Newspapers Mark O'Brien,Kevin Rafter,2012 For over a century, Independent Newspapers has been the most successful media organisation in Ireland. In this revealing volume, 14 leading scholars examine the interaction between proprietors and the newspapers, the company's journalists and journalism, and the relationship between the newspapers and Irish society.

New Perspectives on Association Football in Irish History Conor Curran,David Toms,2019-10-23 This book assesses association football's history and development in Ireland from the late 1870s until the early twenty-first century. It focuses on four key themes—soccer's early development before and after partition, the post-Emergency years, coaching and developing the game, and supporters and governance. In particular, it examines key topics such as the Troubles, Anglo-Irish football relations, the failure of a professional structure in the Republic and Northern Ireland, national and regional identity, relationships with other sports, class, economics and gender. It features contributions from some of today's leading academic writers on the history of Irish soccer while the views of a number of pre-eminent sociologists and economists specialising in the game's development are also offered. It identifies some of the difficulties faced by soccer's players and administrators in Ireland and challenges the notion that it was a 'garrison game' spread mainly by the military and generally only played by those who were not fully committed to the nationalist cause. This is the first edited collection to focus solely on the progress of soccer in Ireland since its introduction and adds to the growing academic historiography of Irish sport and its relationship with politics, culture and society. The chapters in this book were originally published in a special issue in *Soccer & Society*.

Ireland and the New Journalism K. Steele,M. de Nie,Michael de Nie,2014-07-10 This volume explores the ways in which the complicated revolution in British newspapers, the New Journalism, influenced Irish politics, culture, and newspaper practices. The essays here further illuminate the central role of the press in the evolution of Irish nationalism and modernism in the late nineteenth and early twentieth centuries.

Irish Civilization Arthur Aughey,John Oakland,2013-12-17 *Irish Civilization* provides the perfect background and introduction to both the history of Ireland until 1921 and the development of Ireland and Northern Ireland since 1921. This book illustrates how these societies have developed in common but also those elements where there have been, and continue to be, substantial differences. It includes a focus on certain central structural aspects, such as: the physical geography, the people, political and governmental structures, cultural contexts, economic and social institutions, and education and the media. *Irish Civilization* is a vital introduction to the complex history of Ireland and concludes with a discussion of the present state of the relationship between them. It is an essential resource for students of Irish Studies and general readers alike.

A Dictionary of Journalism Tony Harcup,2014-05-08 *A Dictionary of Journalism* is an accessible and authoritative quick reference dictionary. It covers over 1,400 wide-ranging entries on the terms that are likely to be

encountered by students of the subject, and aims to offer a broad, accessible point of reference on an ever-topical and constantly-changing field that affects everyone's knowledge and perception of the world. Assuming little or no prior knowledge of the subject, it covers terminology relating to the practice, business, and technology of journalism, as well as its concepts and theories, organizations and institutions, publications, and key events. Related topic areas are covered where they impact on or offer explanations of journalism: for example in law, where legislation affects journalistic activity; and where sociological studies seek to aid the understanding of journalism. Appendices include a timeline of journalistic developments, contextualising the ever-evolving nature of journalism, as well as an index of significant individuals in the field. It is an essential companion to all students taking courses in Journalism and Journalism Studies, as well as related subjects such as Communications Studies, Media Studies, and Television and Radio Production.

The Cambridge History of Ireland: Volume 3, 1730–1880 James Kelly, 2018-02-28 The eighteenth and nineteenth centuries was an era of continuity as well as change. Though properly portrayed as the era of 'Protestant Ascendancy' it embraces two phases - the eighteenth century when that ascendancy was at its peak; and the nineteenth century when the Protestant elite sustained a determined rear-guard defence in the face of the emergence of modern Catholic nationalism. Employing a chronology that is not bound by traditional datelines, this volume moves beyond the familiar political narrative to engage with the economy, society, population, emigration, religion, language, state formation, culture, art and architecture, and the Irish abroad. It provides new and original interpretations of a critical phase in the emergence of a modern Ireland that, while focused firmly on the island and its traditions, moves beyond the nationalist narrative of the twentieth century to provide a history of late early modern Ireland for the twenty-first century.

Research in the Social Scientific Study of Religion, Volume 30 Ralph W. Hood, Sariya Cheruvallil-Contractor, 2019-12-16 The 30th volume of Research in the Social Scientific Study of Religion consists of two special sections, as well as two separate empirical studies on attachment and daily spiritual practices. The first special section deals with the social scientific study of religion in Indonesia. Indonesia is a predominantly Muslim country whose history and contemporary involvement in the study of religion is explored from both sociological and psychological perspectives. The second special section is on the Pope Francis effect: the challenges of modernization in the Catholic church and the global impact of Pope Francis. While its focus is mainly on the Catholic religion, the internal dynamics and geopolitics explored apply more broadly.

The Politics of Compulsive Education Karl Kitching, 2014-12-05 The marketised and securitised shaping of formal education sites in terms of risk prevention strategies have transformed what it means to be a learner and a citizen. In this book, Karl Kitching explores racialised dimensions to suggest how individuals and collectives are increasingly made responsible for their own welfare as 'good' or 'bad' students, at the expense of the protection of their rights as learner-citizens. Focusing on Ireland as a post-colonial Atlantic state, the book demonstrates how liberal governance, racisms, migration and mass education are interconnected and struggled over at local, national, European and global levels. Using a variety of qualitative studies and analytic approaches, The Politics of Compulsive Education details the significance of mass education(s) to the ongoing racialisation of national sovereignty. It draws on in-depth historical, policy, media and school-based research, moving from the 19th century to the present day. Chapters explore diverse themes such as student deportation, austerity and the politics of community 'integration', the depoliticisation of third level education via international student and 'quality' teacher regimes, the racialised distribution of learner 'ability', and school-based bullying and harassment. Combined, these studies demonstrate the possibilities and constraints that exist for educational anti-racisms both in terms of social movements and everyday classroom situations. The Politics of Compulsive Education asks key questions about anti-racist responsibility across multiple education sites and explores how racisms are both shaped, and can be interrupted, by the interaction of the global and the local, as seen in terms of migration, the distribution of capital, media, education policy discourse, and teacher and learner identifications. It will be of interest to researchers, academics and postgraduate students of sociology, education, cultural studies, political theory, philosophy and postcolonial studies.
