Egypt After Mubarak Bruce K. Rutherford,2008-12-14 Egypt's autocratic regime is being weakened by economic crises, growing political opposition, and the pressures of globalization. Observers now wonder which way Egypt will go when the country's aging president, Husni Mubarak, passes from the scene: will it embrace Western-style liberalism and democracy? Or will it become an Islamic theocracy similar to Iran? Egypt after Mubarak demonstrates that both secular and Islamist opponents of the regime are navigating a middle path that may result in a uniquely Islamic form of liberalism and, perhaps, democracy. Bruce Rutherford examines the political and ideological battles that drive Egyptian politics and shape the prospects for democracy throughout the region. He argues that secularists and Islamists are converging around a reform agenda that supports key elements of liberalism, including constraints on state power, the rule of law, and protection of some civil and political rights. But will this deepening liberalism lead to democracy? And what can the United States do to see that it does? In answering these questions, Rutherford shows that Egypt's reformers are reluctant to expand the public's role in politics. This suggests that, while liberalism is likely to progress steadily in the future, democracy's advance will be slow and uneven. Essential reading on a subject of global importance, Egypt after Mubarak draws upon in-depth interviews with Egyptian judges, lawyers, Islamic activists, politicians, and businesspeople. It also utilizes major court rulings, political documents of the Muslim Brotherhood, and the writings of Egypt's leading contemporary Islamic thinkers.

Echo of Islam ,1991

A Strife-Free Dialogue (a Step Towards Understanding) Isam Al-imad,2015-11-16 This book is one of the many Islamic publications distributed by Ahlulbayt Organization throughout the world in different languages with the aim of conveying the message of Islam to the people of the world. Ahlulbayt Organization (www.shia.es) is a registered Organization that operates and is sustained through collaborative efforts of volunteers in many countries around the world, and it welcomes your involvement and support. Its objectives are numerous, yet its main goal is to spread the truth about the Islamic faith in general and the Shi'a School of Thought in particular due to the latter being misrepresented, misunderstood and its tenets often assaulted by many ignorant folks, Muslims and non-Muslims. Organization's purpose is to facilitate the dissemination of knowledge through a global medium, the Internet, to locations where such resources are not commonly or easily accessible or are resented, resisted and fought! In addition, For a complete list of our published books please refer to our website (www.shia.es) or send us an email to info@shia.es

Belief and Islam Mawlana Khalid Baghdadi,2016-02-23 I'tiqaad- nama written by Mawlana Diya ad-din Khalid al-Baghdadi al-'Uthmani 'quddisa sirruh', who was a distinguished scholar of Islam. I'tiqa'd-na'ma was formerly translated into Turkish by the late Haji Faizullah Efendi of Kemah, Erzincan, with the title Fara'id al-fawa'id and was printed in Egypt in 1312 A.H. This translation is simplified under the title Belief and Islam. Its first edition was accomplished in 1966. Our own explanations are given within square brackets. We thank Allahu ta'a'la for vouchsafing the lot of publishing this book for the twenty-eighth time in English. The original version of this book, I'tiqad-nama, is in Persian and exists in the Istanbul University Library (Ibnul Emin Mahmud Kemal Dept. F. 2639).

Slavery, Resistance, and Identity in Early Modern West Africa Makhroufi Ousmane Traoré,2023-11-30 Examines the resistance to the slave trades in seventeenth and eighteenth-century West Africa, and the impact this had on local identities.

Goat Meat Production and Quality Osman Mahgoub,Isam T. Kadim,Edward Cottington Webb,2012 Written by some of the world's leading goat meat scientists, and drawing from the most recent publications in the field, this book comprehensively covers the most important areas of goat meat production. Chapters discuss the role of genetics, breeding, reproduction, and nutrition in producing good quality, profitable goat meat. The mineral, amino acid and fatty acid composition of goat meat is also addressed, along with a discussion of its nutritive value, aimed at highlighting its health benefits over other red meats.

Militant Islam Stephen Vertigans,2008-10-30 Militant Islam provides a sociological framework for understanding the rise and character of recent Islamic militancy. It takes a systematic approach to the phenomenon and includes analysis of cases from around the world, comparisons with militancy in other religions, and their causes and consequences. The sociological concepts and theories examined in the book include those associated with social closure, social movements, nationalism, risk, fear and 'de-civilising'. These are applied within three main themes; characteristics of militant Islam, multi-layered causes and the consequences of militancy, in particular Western reactions within the 'war on terror'. Interrelationships between religious and secular behaviour, 'terrorism' and 'counter-terrorism', popular support and opposition are explored. Through the examination of examples from across Muslim societies and communities, the analysis challenges the popular tendency to concentrate upon 'al-Qa'ida' and the Middle East. This book will be of interest to students of Sociology, Political Science and International Relations, in particular those taking courses on Islam, religion, terrorism, political violence and related regional studies.

Linhas de montagem Antonio Luigi Negro,2004 Analisa a experiência do povo brasileiro na construção de uma nação industrial. Situando-se entre o pós-guerra e as greves de 1978, estuda a instalação do setor automobilístico no ABC paulista e a interação das estratégias de industriais, políticos e partidos com o movimento operário.

The Reconstruction of Religious Thought in Islam M. Iqbal,2022-04-29

Said Nursi and Science in Islam Necati Aydin,2019-05-20 This book examines how the prominent Muslim scholar Said Nursi developed an integrative approach to faith and science known as the other indicative (mana-i harfi) and explores how his aim to reconcile two academic disciplines, often at odds with one another, could be useful in an educational context. The book opens by examining Nursi's evolving thought with regards to secular ideology and modern science. It then utilizes the mana-i harfi approach to address a number of issues, including truth and certainty, the relationship between knowledge and worldview formation, and the meaning of beings and life. Finally, it offers a seven-dimensional knowledge approach to derive meaning and build good character through understanding scientific knowledge in the mana-i harfi perspective. This book offers a unique perspective on one of recent Islam's most influential figures, and also offers suggestions for teaching religion and science in a more nuanced way. It is, therefore, a great resource for scholars of Islam, religion and science, Middle East studies, and educational studies.

Introduction to the Theory of Computation Michael Sipser,2006 Intended as an upper-level undergraduate or introductory graduate text in computer science theory, this book lucidly covers the key concepts and theorems of the theory of computation. The presentation is remarkably clear; for example, the proof idea, which offers the reader an intuitive feel for how the proof was constructed, accompanies many of the theorems and a proof. Introduction to the Theory of Computation covers the usual topics for this type of text plus it features a solid section on complexity theory--including an entire chapter on space complexity. The final chapter introduces more advanced topics, such as the discussion of complexity classes associated with probabilistic algorithms.
