A Cultural History of Fashion in the 20th and 21st Centuries Bonnie English,2013-08-01 This new edition of a bestselling textbook is designed for students, scholars, and anyone interested in 20th century fashion history. Accessibly written and well illustrated, the book outlines the social and cultural history of fashion thematically, and contains a wide range of global case studies on key designers, styles, movements and events. The new edition has been revised and expanded: there are new sections on eco-fashion, fashion and the museum, major changes in the fashion market in the 21st century (including the impact of new media and retailing networks), new technologies, fashion weeks, the rise of asian fashion centers and more. There are twice as many illustrations. In its second edition, *A Cultural History of Fashion in the 20th and 21st Centuries* is the ideal introductory text for all students of fashion.

Thailand's Buddhist Kingship in the 20th and 21st Centuries Marie-Sybille de Vienne,2022-03-31 Based on two decades of fieldwork, including over a hundred interviews with various political and economic actors at different social levels, as well as documentary and media analysis, this volume presents an account of the Buddhist monarchy in Thailand, offering a sociology of elites, an analysis of the economic influence of the Crown and an examination of the magic and ritual dimension of kingship. An exploration of the role and status of the Palace over the last century, whether as a guarantor of democracy, a symbol of stability, a source of power or an object of popular discontent, *Thailand's Buddhist Kingship in the 20th and 21st Centuries* will appeal to scholars of sociology and anthropology with interests in material religion, politics and Southeast Asian studies.

Japanese Firms in Contemporary Singapore Hiroshi Shimizu,2008 This pioneering work discusses the role of Japan in the economic development of Singapore since 1965 by looking at the nature and extent of the value-added activities of Japanese multinational corporations (MNCs) in the manufacturing, construction, and retailing sectors. Japan's economic presence and influence were very strong in Singapore during this period. The city-state was a major recipient of Japanese foreign direct investment in Asia, and was also an important overseas customer for Japanese manufacturing and construction firms. In this book, Hiroshi Shimizu examines the value-added activities of Japanese multinational corporations in Singapore, drawing on case studies of leading companies such as Minebea, Pokka Corporation, Kikkoman, Bridgestone, and Isetan. He uses this information to analyse Japanese foreign direct investment in Singapore as part of an Asian or global strategy, explaining competition and co-operation between Japanese MNCs and local firms, and evaluating various factors that led to a decline of Japan and the rise in the importance of China in Singapore, particularly since the late 1990s.

Celebrating the Past and Future of Marketing and Discovery with Social Impact Juliann Allen,Bruna Jochims,Shuang Wu,2022-06-29 For the 50th Anniversary of the Academy of Marketing Science, the 2021 AMS Annual Conference and Marketing World Congress celebrates the history of marketing while also exploring its future. This includes research on possible new theory discoveries and findings that could lead to more efficient and impactful responses by marketers to the current multi-faceted global challenge array. The volume proposes that marketers strive to continue to offer value in a socially responsible way to the consumers within. Articles in this volume explore the influence of marketing innovations leveraged by the rising influence of artificial intelligence, virtual reality, mechanamorphics, a proliferation of data, changing economic power concentration, and a myriad of other factors. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses, and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a

comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complementing the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

Asia Pacific Derivative Markets Erik Banks, 1996-03-29 Erik Banks, responsible for global risk management at Merrill Lynch in Hong Kong, has written another text on the derivatives field covering innovation in these instruments in Asia Pacific. The text acts as a detailed reference on the nature of these markets and the prospects for the Asian derivative markets, both listed and OTC. He also includes an analysis of the Australian, New Zealand and Japanese markets to fit the emerging markets into context.

Micro-Performance During Postwar Japan's High-Growth Era Haruhito Takeda, 2016-06-22 The aim of this book is to analyze Japan's high-growth economy, in particular to clarify the kinds of changes in people's lives that were generated by high growth. The present volume focuses not on the macro-economic mechanisms that expanded the scale of the economy, but on the micro-economic changes that were effected in everyday life. The emergence of a mass consumption society as a result of economic growth suggests that people's lifestyles and consumer behavior changed in various ways. The first chapter focuses on the apparel industry's expanding market as it corresponded to changes in consumer behavior. Even as consumer life became more comfortable and abundant, consumers were becoming uneasy about the environmental deterioration associated with high growth. The second chapter examines how the Japanese government addressed emissions regulations while drawing on the lessons of America's experience with the same issue. The change in industrial structure brought about by economic growth inevitably resulted in the decline of other industries. Chief among these was the coal-mining industry, which, with the onset of a full-scale energy revolution, lost its role as energy supplier owing to the import of cheap crude oil. The third chapter discusses the government's industrial policies as they addressed the coal industry's adjustment in the high-growth era, concluding that they reduced such problems as stagnation, unemployment, and local industrial decline. The adjustments in employment practices contributed positively to the gradual shift of labor from declining industries to growth industries. The fourth chapter investigates changes in labor management in the steel industry, which was one of the high-growth era's leading industries. This publication will serve as a valuable resource for those who are interested not only in the post-war history in Japan but also in high growth economies in recent East Asia.

Corporate Governance Robert A. G. Monks, Nell Minow, 2011-12-12 In the wake of the recent global financial collapse the timely new edition of this successful text provides students and business professionals with a welcome update of the key issues facing managers, boards of directors, investors, and shareholders. In addition to its authoritative overview of the history, the myth and the reality of corporate governance, this new edition has been updated to include: analysis of the financial crisis; the reasons for the global scale of the recession the failure of international risk management An overview of corporate governance guidelines and codes of practice; new cases. Once again in the new edition of their textbook, Robert A. G. Monks and Nell Minow show clearly the role of corporate governance in making sure the right questions are asked and the necessary checks and balances in place to protect the long-term, sustainable value of the enterprise. Features 18 case studies of institutions and corporations in crisis, and analyses the reasons for their fall (Cases include Lehman Brothers, General Motors, American Express, Time Warner, IBM and Premier Oil.)

Overcoming Crisis: Case Studies Of Asian Multinational Corporations Parissa Haghirian, 2022-12-21 Crisis management is not a new topic in management research and teaching. Every company meets challenges and crisis at some point and being able to deal with them decides whether a business

survives. Despite this, crisis management has not yet been a prominent part of the modern business school curriculum. The pandemic has changed that, and how to deal with crisis has become the major question, not only for entrepreneurs and managers, but also for business educators. This book presents 22 case studies of Asian multinational corporations overcoming crisis. The topics do not only deal with the pandemic, but all kind of challenges of modern business and show how companies did overcome or which strategies they have developed to do so. The companies are divided into different industries such as the automotive industry, entertainment or aviation industries. The cases can be used in business and international management classes, but can also be read to learn about modern crisis management strategies.

Relating Events in Narrative, Volume 2 Ludo Verhoeven, Sven Strömquist, 2004-02-13 *Relating Events in Narrative, Volume 2: Typological and Contextual Perspectives* edited by Sven Strömquist and Ludo Verhoeven, is the much anticipated follow-up volume to Ruth Berman and Dan Slobin's successful frog-story studies book, *Relating Events in Narrative: A Crosslinguistic Developmental Study* (1994). Working closely with Ruth Berman and Dan Slobin, the new editors have brought together a wide range of scholars who, inspired by the 1994 book, have all used Mercer Mayer's *Frog, Where Are You?* as a basis for their research. The new book, which is divided into two parts, features a broad linguistic and cultural diversity. Contributions focusing on crosslinguistic perspectives make up the first part of the book. This part is concluded by Dan Slobin with an analysis and overview discussion of factors of linguistic typology in frog-story research. The second part offers a variety of theoretical and methodological perspectives, all dealing with contextual variation of narrative construction in a wide sense: variation across medium/modality (speech, writing, signing), genre variation (the specific frog story narrative compared to other genres), frog story narrations from the perspective of theory of mind, and from the perspective of bilingualism and second language acquisition. Several of the contributions to the new book manuscript also deal with developmental perspectives, but, in distinction to the 1994 book, that is not the only focused issue. The second part is initiated by Ruth Berman with an analysis of the role of context in developing narrative abilities. The new book represents a rich overview and illustration of recent advances in theoretical and methodological approaches to the crosslinguistic study of narrative discourse. A red thread throughout the book is that crosslinguistic variation is not merely a matter of variation in form, but also in content and aspects of cognition. A recurrent perspective on language and thought is that of Dan Slobin's theory of thinking for speaking, an approach to cognitive consequences of linguistic diversity. The book ends with an epilogue by Herbert Clark, *Variations on a Ranarian Theme*.

EASYUNI Ultimate University Guide 2015 EasyUni Sdn Bhd,2015-07-24 As I write this, I reflect on my life - the hits (& misses), the bold and triumphant moments, the mistakes, joys and life lessons - I'm thrown back to a particularly quiet night picking up calls during a graveyard shift at my first job, where I spent most of my time robotically going through verbal scripts to handle customer complaints - not very fun, mind you. "Isn't it nice that our jobs are so easy and we don't have to think or do much?" asked my colleague, Vee, as he played some online games while handling a customer call. "Nice?" I asked. "This can't be what work should be - mind-numbingly, routine tasks requiring almost zero thought. Work must have passion, challenges and purpose - which this place definitely offer. Without these, what's the point?" "You know," Vee continued, "you should do your own business or write a book. All you ever do is write, plus you always have a ton of great ideas." The air around me seemed easier to breathe, as if immersed with opportunity. Now, I recognize why: This was my defining moment. Even though I'd spent much of my time writing, thinking and talking with people my thoughts and ideas - I didn't consider a career or business where I can apply what came naturally to me - my love for writing, ideation and application. Over the next few weeks, I left my job and got myself into a PR & Advertising agency to start learning and applying my craft. You see, our lives are full of defining moments. Some we invite; others we don't. Then, there are those we ignore - moments that would've, could've or should've become defining moments if we only dared to turn left or right, instead of continuing straight on. I've been there; I'm sure you have as well. Having regrets is a horrible thing to feel, let alone dwell on. These defining moments have the power to fundamentally change the course of our lives. As we fast approach the first half of 2015, it's a good time to reflect on how far we've come (or maybe, where we've fell short), and think about what you're doing (or, not doing) to live the life you want. That's why for this issue of the easyuni University Guidebook, we've re-done how we create our #courses&careers section with the hope that it'll not only educate but inspire you. We also added new sections like #beinspired, #featuredmentor and #featuredstudent that showcases people who dared to chase their dreams. We hope it will help you recognize and react to your defining moments when they come. And trust me, they will come. I always tell my children, "Always step forward when you see an open door, even if you don't know where it will lead you." I've try to live off this mantra. But, doors can be scary when you can't see what's on the other side. My advice to you: Stop. Look around. Spot the open doors. Then choose: Stay put or step forward. You know the right choice. Trust it. The question is, do you dare? Be awesome & enjoy the read,
