Descendants of William Cromartie and Ruhamah Doane Amanda Cook Gilbert, 2013-10-18 This ambitious work chronicles 250 years of the Cromartie Family genealogical history. Included in the index of nearly 50,000 names are the current generations, and all of those preceding, which trace ancestry to our family patriarch, William Cromartie who was born in 1731 in Orkney, Scotland and his second wife, Ruhamah Doane who was born in 1745. Arriving in America in 1758, William Cromartie settled and developed a plantation on South River, a tributary of the Cape Fear near Wilmington, North Carolina. On April 2, 1766, William married Ruhamah Doane, a fifth generation descendant of a Mayflower passenger to Plymouth, Stephen Hopkins. If Cromartie is your last name, or that of one of your blood relatives, it is almost certain that you can trace your ancestry to one of the thirteen children of William Cromartie, his first wife, and Ruhamah Doane, who became the founding ancestors of our Cromartie Family in America: William Jr, James, Thankful, Elizabeth, Hannah Ruhamah, Alexander, John, Margaret Nancy, Mary, Catherine, Jean, Peter Patrick, and Ann E. Cromartie. These four volumes hold an account of the descent of each of these first-generation Cromarties in America, including personal antidotes, photographs, copies of family Bibles, wills and other historical documents. Their pages hold a personal record of our ancestors and where you belong in the Cromartie Family Tree.

The Canary Islanders of Louisiana Gilbert C. Din, 1999-08-01 The Canary Islanders, or Isleños, of Louisiana, like some of the state's other ethnic groups, have received little scholarly attention. Although they are a people who have remained largely unknown both inside and outside of Louisiana, the Isleños constitute a sizable portion of the state's present Spanish-surname population. Utilizing a wide range of source materials, from Spanish colonial documents to oral interviews, Gilbert C. Din's *The Canary Islanders of Louisiana* provides the first book-length study of the Isleños and a definitive history of their presence in the state. The few thousand Canary Islanders brought to Louisiana by Spanish governors in the eighteenth century came from a group of islands that, although ostensibly Spanish, had evolved its own distinctive culture and folkways. Settled in frontier areas considered strategic for the defense of the Louisiana colony, the Isleños suffered deprivation, neglect, and eventually abandonment. Living for the most part in remote back-country and delta communities, the Isleños remained isolated from their French and American neighbors. In the twentieth century, pressures to assimilate with the mainstream of Louisiana society have threatened their culture with extinction, though a few Canarians still retain much of their Isleño heritage. Gilbert C. Din's study of the Isleños covers the entire range of their association with Louisiana. He begins with a brief survey of Canarian history and folkways and concludes with a discussion of the likely ethnic future of the increasingly assimilated Isleño descendants. Din provides a detailed history of the Isleño migration and colonial settlement; post-colonial community development; economic, social, educational, and political patterns; and the course of Isleño assimilation with the general Louisiana population. Offering his own skillfully argued answers to long-standing debates about early Isleño settlements, Din also corrects a number of factual errors on the part of previous historians who did not have access to the same range of archival sources. *The Canary Islanders of Louisiana* is a strong piece of historical scholarship. It makes an original and much-needed contribution to the history of a people, of Louisiana, and of the American South.

Richard Hull (1599-1662), not a relative, immigrated before 1636 to Massachusetts, moving to New Haven, Connecticut in 1639. Descendants of these three immigrants lived mainly in New York, New Jersey, Connecticut, Rhode Island, New Hampshire, Tennessee and California.
