A Hundred and Seventy Chinese Poems Arthur Waley,2023-07-18 This splendid collection of Chinese poetry, accompanied by delightful introductory and descriptive essays, spans more than 1000 years. It brings to life the timeless poetry of many of the well known Chinese poets that have lived throughout the ages. Arthur Waley is the most famous Sinologist who has done most in bringing Chinese poetry to the fore of Western public. Hence, no matter what, Waley's historical importance cannot be overestimated. And he is a competent all-round translator too, as this fine anthology demonstrates, one who has an uncanny ear of transforming Chinese rhythms and rhymes into naturalized English metrics. First published in 1919, this is the book that first alerted the West to the richness and variety of Chinese literature. Arthur Waley (1889-1966), a shy reclusive scholar, was one of the earliest champions of Asian literature in the English-speaking world. A Hundred and Seventy Chinese Poems has often been cited as an outstanding source for those who enjoy Chinese Poetry.

Nā Kua‘āina Davianna Pōmaika‘i McGregor,2007-04-30 The word kua‘āina translates literally as back land or back country. Davianna Pōmaika‘i McGregor grew up hearing it as a reference to an awkward or unsophisticated person from the country. However, in the context of the Native Hawaiian cultural renaissance of the late twentieth century, kua‘āina came to refer to those who actively lived Hawaiian culture and kept the spirit of the land alive. The mo‘olelo (oral traditions) recounted in this book reveal how kua‘āina have enabled Native Hawaiians to endure as a unique and dignified people after more than a century of American subjugation and control. The stories are set in rural communities or cultural kīpuka—oases from which traditional Native Hawaiian culture can be regenerated and revitalized. By focusing in turn on an island (Moloka‘i), moku (the districts of Hana, Maui, and Puna, Hawai‘i), and an ahupua‘a (Waipi‘io, Hawai‘i), McGregor examines kua‘āina life ways within distinct traditional land use regimes. The ‘ōlelo no‘eau (descriptive proverbs and poetical sayings) for which each area is famous are interpreted, offering valuable insights into the place and its overall role in the cultural practices of Native Hawaiians. Discussion of the landscape and its settlement, the deities who dwelt there, and its rulers is followed by a review of the effects of westernization on kua‘āina in the nineteenth century. McGregor then provides an overview of social and economic changes through the end of the twentieth century and of the elements of continuity still evident in the lives of kua‘āina. The final chapter on Kaho‘olawe demonstrates how kua‘āina from the cultural kīpuka under study have been instrumental in restoring the natural and cultural resources of the island.

*How to Not Die Alone* Logan Ury,2021-02-02 A “must-read” (The Washington Post) funny and practical guide to help you find, build, and keep the relationship of your dreams. Have you ever looked around and wondered, “Why has everyone found love except me?” You’re not the only one. Great relationships don’t just appear in our lives—they’re the culmination of a series of decisions, including whom to date, how to end it with the wrong person, and when to commit to the right one. But our brains often get in the way. We make poor decisions, which thwart us on our quest to find lasting love. Drawing from years of research, behavioral scientist turned dating coach Logan Ury reveals the hidden forces that cause those mistakes. But awareness on its own doesn’t lead to results. You have to actually change your behavior. Ury shows you how. This “simple-to-use guide” (Lori Gottlieb, New York Times bestselling author of *Maybe You Should Talk to Someone*) focuses on a different decision in each chapter, incorporating insights from behavioral science, original research, and real-life stories. You’ll learn: -What’s holding you back in dating (and how to break the pattern) -What really matters in a long-term partner (and what really doesn’t) -How to overcome the perils of online dating (and make the apps work for you) -How to meet more people in real life (while doing activities you love) -How to make dates fun again (so they stop feeling like job interviews) -Why “the spark” is a myth (but you’ll find love anyway) This “data-driven” (Time), step-by-step guide to relationships, complete with hands-on exercises, is designed to transform your life. *How to Not Die Alone* will help you find, build, and keep the relationship of your dreams.
