Architecture and Urban Transformation of Historical Markets: Cases from the Middle East and North Africa Neveen Hamza,2022-09-05 This book explores the complex relationship between societies, architecture, and urbanism of market halls, traditional souqs, bazaars, and speciality street markets in the Middle East and North Africa. It addresses how these trading environments influence perceptions of place and play an extended social, political, and religious role while adapting to their local climates. Through Archival research and social science methodologies, this book records and maps markets in urban fabrics, expanding on practices underlying the push towards historical listings and the development of markets as landmarks in the urban fabric. The role of markets in delivering sustainable place-making strategies and influencing the development of cities' socio-economic and historical strength is addressed as key to their survival in the urban fabric and as place-making landmarks for preserving tangible and intangible heritage. Going beyond heritage and conservation studies, this book discusses how positioning and restoring markets challenges urban renewal policies, access to public space planning, environmental sustainability, security of food supply, cultural heritage, and tourism. This is an ideal read for those interested in the history of urban development, architecture and urban planning, and architectural heritage.

Overtourism and Cruise Tourism in Emerging Destinations on the Arabian Peninsula Manuela Gutberlet,2023-07-31 Cruise tourism is one of the fastest growing sectors worldwide. This book is the first of its kind to provide in-depth insights into the emergence of mega-cruise tourism in destinations on the Arabian Peninsula and its impacts on local communities, their spaces, cultures, identities and tourist experiences. It offers a micro-sociological analysis, calling for holistic, participatory, mindful approaches and to rethink current exploitative tourism planning and development. It assumes a high political, social and economic importance within globalization. It draws on a long-term field study in an under-researched region in Asia that developed large-scale tourism recently to diversify the economy. The book provides insights on the destination development from a state of continuous growth to a sudden fall in tourism activities due to a sudden shock, caused by the global health pandemic and its resilience. It explores the sociocultural, economic and

spatial challenges faced in international tourism development and its power relations analysed from different perspectives and within time. It analyses time-space compression, overtourism, urban tourism, nature-based tourism, enclavization, social capital, imaginaries, Cultural Ecosystem Services, slow tourism as well as just tourism. The book provides an innovative contribution to the planning and development of tourism destinations, communities and their spaces in which tourism operates in a fast pace. It will be of interest to academics, undergraduate and postgraduate students in the field of tourism and hospitality management, geography, sociology, anthropology, urban planning and environmental sciences. Moreover, the book will be useful for practitioners and policymakers around the globe, as well as all those interested in the fast emergence and the impacts of mega-cruise tourism.

Cities of the Future Mady Mohamed, Asmaa Ibrahim, Mohamed Fekry, 2023-01-01 This book seeks to address the key challenges and opportunities of future cities embracing novel approaches and grounded technologies in pursuing a vision for smart, inclusive cities. The objective of this book is to discuss multiple areas at the local, national, and international levels and how these challenges can hinder the development objectives planned to be achieved by the cities of the future. Pan-Arab Modernism 1968-2018 Dalal Musaed Alsayer, Ricardo Camacho, Sara Saragoça Soares, 2022-01-19 Using Kuwait as a case study and Pan Arab Modernism as a lens, this book comes to fill two voids in the literature on Middle Eastern architecture: one is in practice and the other is in history. The current practice of architecture in Kuwait, the Gulf and the larger Middle East, is typically a-contextual and lacking any understanding of the local context. The architectural history, on the other hand, ignores the larger context of the Middle East and the influence of Pan Arabism is not configured into many analyses. Thus, this project seeks to tackle both. By providing a [re]contextualizing of the architectural history of Kuwait and bringing forgotten protagonists back into the dialogue, a nuanced reading of Pan Arab Modern architecture emerges. This book It aims to create a “knowledge generation” which can [re]define how a local generation is being influence on the ground. CONTRIBUTORS: Prof. Eve Blau (GSD, Harvard) on the influence of Oil on Urbanism; Prof. Michael Kubo (Univ. of Houston, Texas) on the relationship between The Architects Collaborative (TAC) and the local Kuwaiti firm Pan Arab Consulting Engineers (now PACE); Caecilia L. Pieri (Associate Researcher - Institut Français du Proche-Orient) on the influence of Iraq modernisation in Kuwait; Prof. Iain Jackson (Univ. of Liverpool) on the influence of British Architects on the Middle East (tropical architecture, expertise); Prof. Hyun-Tae Jung (Lehigh University) on the relationship between Skidmore, Owings & Merrill (SOM) and PACE and the photographic work of the artist Antje Hanebeck commission by PACE for this project.
