Grow Fruit Alan Buckingham, 2010-03-01 Grow Fruit shows just how easy it is to - you guessed it! - grow your own fruit. You don't need a huge garden or a dedicated orchard. It's possible to get a perfectly good harvest from plants grown in containers on balconies or patios and from even the smallest of town gardens. Pick the right varieties for the conditions you've got, invest in a bit of planning and preparation, follow the instructions contained in these pages, and you can be harvesting and eating your own strawberries, plums, pears, apricots, blackberries, redcurrants, melons, and figs.

Language, Race, and Power in Schools Pierre W. Orelus,2016-12-08 In this edited

collection, authors from various academic, cultural, racial, linguistic, and personal backgrounds use critical discourse analysis as a conceptual framework and method to examine social inequities, identity issues, and linguistic discrimination faced by historically oppressed groups in schools and society. *Language, Race, and Power in Schools* unravels the ways and degrees to which these groups have faced and resisted oppression, and draws on critical discourse analysis to examine how multiple forms of oppression intersect. This volume interrogates areas of discrimination and injustice and discusses possibilities of developing coalitions and concerted efforts across the lines of diversity.
