Advance Gary Burnison,2019-11-05 The how-to guide for your career In his previous book, Lose the Resume, Land the Job, author Gary Burnison exposed the myths and the ineffective thinking around how to land the job you really want. Now, in Advance, he takes readers through the next stage—advancing in their careers. Advance is extremely timely and topical in today's do-it-yourself career development world. Average job tenure has fallen to about four years on average and often only one or two years for younger professionals. These career nomads simply aren't around long enough to access career development from their employers. On the other end of the workplace spectrum, many employees find themselves stuck in one job without a promotion, without any raise to speak of, and with no opportunities to learn and grow. In Advance, Burnison lays out a mosaic of how-to advice that applies every day and at every level—the skills and behaviors that help people navigate their careers and stand out among the crowd. He takes on a Top 20 of career must-haves: managing for the first time, engaging in the money conversation with your boss, dealing with difficult bosses (without quitting), coping with coworkers (without losing your mind), making presentations (that don't put people to sleep), mastering digital communication (and avoiding emails that will get you fired), thinking globally (without leaving your office), taking an overseas assignment, meeting senior leaders for the first time (without putting your foot in your mouth), navigating political waters (without sinking your career), reading and fitting in with the culture, and more. • Wisdom on taking your career to the next level • Career development tips • Guidance on being seen and heard • Written by the CEO of one of the world’s largest management consulting firms Whether you’re just starting your career, high up on the ladder, or “stuck” anywhere in between, Advance gives you the know-how to get on a path to where you want to go.

Advance in Life Jesse Duplantis,2018-07-17 Everything God is and everything God does in the lives of His children moves forward. Advancing in life is just what God created you to do! By divine design, you aren't meant to back up. You aren't meant to give up. You've always been meant to ADVANCE-spiritually, physically, financially, and in your relationships, too. In this book, Dr. Jesse Duplantis shares how you can advance in life by manifesting your personal dreams and desires, and move Christianity forward in the process. You'll learn how to create a mindset that works with God, instead of against God. And you'll be inspired to let go of limitation so that you can reach forward, press toward the mark, and see God's best manifested in your life. You will discover: Why creating your inner world is the beginning of manifestation-everything begins inside firstGod's plan for the world includes His plan for your life-personal dreams, goals, and desires matterQuestions to help you clarify what you want and why you want itTo advance in life, you must let go of the past-learn how to enjoy the present while believing for the futureIf you want to move forward, you can't identify with what holds you back-know how to identify with the answerHow to catch defeating thoughts before they seed and stop manifesting what you don't wantWhat a lack mentality really is and some common reasons why some believers avoid financial advancementHow to deal with naysayers, keep your focus, and succeed God's wayWhy frustrating the grace of God isn't the way to advance in lifeWhy Sunday matters and how we can help our nation to advance, too Faith is a journey-joy, peace of mind, and adventures await those who hve the audacity to believe and move from revelation to inspiration to manifestation. There is no better time than now to live with passion and faith. There is no better time than now to Advance In Life! For more information, please visit www.jdm.org.

MFA vs NYC Chad Harbach, 2014-02-25 Writers write—but what do they do for money? In a widely read essay entitled MFA vs NYC, bestselling novelist Chad Harbach (The Art of Fielding) argued that the American literary scene has split into two cultures: New York publishing versus university MFA programs. This book brings together established writers, MFA professors and students, and New York editors, publicists, and agents to talk about these overlapping worlds, and the ways writers make (or fail to make) a living within them. Should you seek an advanced degree, or will workshops smother your style? Do you need to move to New York, or will the high cost of living undo you? What's worse—having a day job or not having health insurance? How do agents decide what to represent? Will Big Publishing survive? How has the rise of MFA programs affected American fiction? The expert contributors, including George Saunders, Elif Batuman, and Fredric Jameson, consider all these questions and more, with humor and rigor. MFA vs NYC is a must-read for aspiring writers, and for anyone interested in the present and future of American letters.
