Buddy and Earl Maureen Fergus,2015-07-24 “An understated winner of a friendship story. ... simultaneously of-the-moment and timeless.” — Publishers Weekly, STARRED REVIEW What’s in the box that Meredith has carried into the living room? Buddy doesn’t know, but when the small, prickly creature says he is a pirate — and that Buddy is a pirate, too — the mismatched friends are off on a grand adventure. In this first book in the best-selling Buddy and Earl series, a dog who likes to play by the rules meets a hedgehog who knows no limits. Their friendship is tender and loyal, and their adventures are funny and imaginative. Maureen Fergus’s text is witty and understated, and Carey Sookocheff’s art emphasizes both the humor and the warmth of this odd and loveable animal couple. Correlates to the Common Core State Standards in English Language Arts: CCSS.ELA-LITERACY.RL.K.1 With prompting and support, ask and answer questions about key details in a text. CCSS.ELA-LITERACY.RL.1.3 Describe characters, settings, and major events in a story, using key details.

Bud, Not Buddy Christopher Paul Curtis,2001-11-13 Hit the road with Bud in this Newbery Medal and Coretta Scott King Award-winning classic about a boy on a journey to find his father—from Christopher Paul Curtis, author of *The Watsons Go To Birmingham*—1963, a Newbery and Coretta Scott King Honoree. It’s 1936, in Flint Michigan. Times may be hard, and ten-year-old Bud may be a motherless boy on the run, but Bud’s got a few things going for him: 1. He has his own suitcase full of special things. 2. He’s the author of Bud Caldwell’s Rules and Things for Having a Funner Life and Making a Better Liar Out of Yourself. 3. His momma never told him who his father was, but she left a clue: flyers advertising Herman E. Calloway and his famous band, the Dusky Devastators of the Depression!!!!!! Bud’s got an idea that those flyers will lead him to his father. Once he decides to hit the road to find this mystery man, nothing can stop him—not hunger, not fear, not vampires, not even Herman E. Calloway himself. “[A] powerfully felt novel.” —The New York Times

The Buddy Bench Patty Brozo,2019-08-06 Having seen what being left out is like, children become agents of change, convincing their teacher to let them build a buddy bench. A school playground can be a solitary place for a kid without playmates; in one survey, 80 percent of 8- to 10-year-old respondents described being lonely at some point during a school day. Patty Brozo’s cast of kids brings a playground to raucous life, and Mike Deas’s illustrations invest their games with imaginary planes to fly, dragons to tame, and elephants to ride. And these kids match their imaginations with empathy, identifying and swooping up the lonely among them. Buddy benches are appearing in schoolyards around the country. Introduced from Germany in 2014, the concept is simple: When a child sits on the bench, it’s a signal to other kids to ask him or her to play.

Phantom Stallion #12: Rain Dance Terri Farley,2009-03-24 The Phantom Stallion's new foal is ready to be born, and River Bend Ranch's own Dark Sunshine is the mother. Samantha couldn't be more excited, and she's sure she can handle the new baby while everyone is gone on the annual cattle drive.

Multimedia Technologies and Applications for the 21st Century Borko Furht,1997-11-30 Multimedia Technologies and Applications for the 21st Century: Visions of World Experts presents contributions from leading researchers and experts describing their current research and their views of the future trends in the field. The book consists of thirteen chapters in five parts. These chapters tackle a number of critical issues in distributed multimedia systems and applications - from VLSI processors that support multimedia and multimedia servers, through multimedia databases and multimedia networks and communications, to merging multimedia applications. Only a few years ago multimedia seemed like a brand new research field and an emerging new industry. Today, at the edge of the 21st century, multimedia research is coming of age, and the multimedia industry has significantly grown with the total market estimated to be about \$50 billion. Several years ago it was felt that the digital media revolution had just started; however, the seeds had been sown long before. Fundamental technologies, such as interactive laser disks, video games, and electronic encyclopedias were invented in the 1970s and 80s. They represented the seeds for current 'hot' applications, such as digital libraries, video-on-demand, interactive television, and videoconferencing. Another aspect of the digital media revolution is the formation of a new media industry composed of computer, entertainment, communication, and consumer electronics companies. Many industry segments are currently involved in creating new products and services, positioning themselves for the 21st century. They include telephone, cable, and satellite TV companies, communication equipment companies, TV and radio broadcasters, on-line Internet service providers, cable channels, movie studios, record companies, book publishers, CD-ROM title creators, Internet tool vendors, multimedia software tools companies, computer companies, general software tools companies, computer add-on vendors, semiconductor vendors, and consumer electronics vendors. Multimedia Technologies and Applications for the 21st Century: Visions of World Experts should stimulate the curiosity of its readers and inspire new technological breakthroughs in this exciting field. It serves as a valuable reference for system designers, engineers, programmers, and managers who are involved in multimedia systems, the Internet, and their applications. This book can also be used as a textbook for advanced courses on multimedia in engineering curricula.
