*A software engineer organizer – new special solution* □.

□□□□□,□. □□□□□,2022-01-27 Issues which make engineers choose and use work time organizing systems are reviewed in this article. In addition, an overview of modern applications from this segment is provided and a notes system is proposed as a simple and effective tool to increase workflow effectiveness.And finally, requirements, model and development principles for an application to solve all these issues are described. The application was developed on the basis of the Spring Boot framework with partial use of the Domain Driven Development ideas. It has a good level of code coverage by autotests due to using the Test Driven Development. For posting of source codes in the Internet, the

GitHub repository and the free open source software GPL v3 license have been chosen. The developed organizer helps to avoid waste of time for searching old data in case of work resumption under tickets suspended some time ago due to systematization of all required information, files and sub tasks. Regular using of the organizer makes it possible to increase efficiency of a software engineer's and the whole development team's work through minimization of time taken by routine operations connected with search for and use of project related information.

**Lifetime Medical Organizer** Sandra J. Yorong with Richard Schuttler, Ph.D., 2008-05-08 Sandi created the Lifetime Medical Organizer for the love of her family during a medical crisis with her father. As she created organizers for others, she realized the value it provided beyond her family's needs. This value is what Sandi emphasizes in the Lifetime Medical Organizer as she shares her story of how the organizer came to life and her step-by-step guide with helping others to establish their own organizer. Creating an organizer without instructions is like baking a cake without directions. It is difficult to record and organize important information, in the same way it is to mix ingredients, if you do not know how to begin. The Lifetime Medical Organizer includes narrative pages for every form included in the book to walk you through the steps that are easy to follow and simple to understand. While writing this book, Sandi focused on how she could help you and those closest to you, to better manage the process that many are unprepared to deal with until it is too late. Whether you create an organizer for yourself, or a loved one, it will provide you with

greater peace of mind in knowing that you are better prepared to help those you love. In helping others, we shall help ourselves, for whatever good we give out completes the circle and comes back to us. –Flora Edwards
