Italian Familiarization and Short Term Training Foreign Service Institute
Department of State,2019-09-16 The Italian Familiarization and Short-term Training Course (FAST) consistsof thirty lessons that have been prepared with accompanying tape recordings.Designed for use with an Italian instructor, the course has as its main objective toenable students to develop language skills considered basic and useful in Italy.Instead of a structured, grammatically-sequenced set of lessons, the course stressescommunication in everyday practical situations of a social, logistical and workplacenature. Students are urged to use whatever language they have at their disposalwithout being unduly preoccupied with grammatical accuracy. They shouldmake this effort even in situations in which they are exposed to practical languageconsiderably above their level. They should remember that they must learn to copewith such language but not reproduce it. This is the second volume in the Italian Familiarization and Short Term Training.

Deutsch Ohne Mühe Heute Hilde Schneider, 1987 This book aims to take users from scratch to having a solid base in German within six months, and to feel comfortable with the language in as little as three months. In only half an hour a day users will move ahead naturally until they are at ease with all the basic structures needed for communication and become familiar with the basic words and grammar of German. The method comprises two phases: the passive phase, in which users simply repeat what they hear and read, and the active phase, in which users begin to create sentences and imagine themselves in a variety of everyday situations.
