Trade in Services International Trade Centre,2001-12-31 Services have
played an important role in world trade for centuries. However, in the past
40 years, the focus of the services trade has shifted away from facilitating
the trade in goods to trading in the services themselves. Dramatic changes in
communications and transportation technologies have made this possible. While
exporters of goods and services face similar challenges, services exporters
have to deal with unique issues, many related to their intangible nature.
This guide addresses these issues and offers practical and relevant advice to
small and medium-sized enterprises to help them improve their export

performance or enter new markets.
