The Sports Playbook Joshua A. Gordon, Gary T. Furlong, Ken Pendleton, 2018-03-15 Why do so many sports teams have losing records, year after year? Why do others win big, but only every 20 or 30 years? And why is it that so few teams enjoy sustained, continual success? This book gives the answer. Providing a blueprint or playbook for success in sports at every level, it lays out a clear step-by-step plan for building a team culture that will lead to winning consistently. With each step, the book introduces real-world tools that can be easily implemented by every sports organization and coach to achieve success, including team charters, individual athlete plans, player accountability systems, and team communication strategies. It offers expert advice and practical guidance on key areas, such as aligning individuals with a clear team plan, resolving conflicts proactively, and learning from every game and every season to develop a smarter and more consistent culture of success. The Sports Playbook: Building Teams that Outperform, Year after Year will help every team fulfil its true potential through leadership, focus, and performance. It is essential reading for coaches, sport management professionals, and leaders of every kind of team, inside and outside of sports. The Leadership Playbook Nathan Jamail, 2014-07-31 The successful self-published author of *The Sales Leaders Playbook* writes his first mainstream leadership book *There are enormous differences between managing and coaching*. Yet many companies and organizations encourage their leaders to coach teams without ever teaching them how and without creating a culture that supports coaching. Nathan Jamail—a leading consultant, professional speaker, and the president of his own group of businesses—trains coaches at several Fortune 500 companies and learned that it takes not only different skills to achieve success, but a truly effective coach needs an organizational culture

that creates and multiplies the success of every motivated team member. The Leadership Playbook shows leaders the skills necessary to be an effective coach and to build effective teams by: Fostering employees' belief in the culture of a company Resolving issues proactively rather than reactively and creating an involvement that constantly pushes employees to be their best Focusing on the more humane principles of leadership—gratitude, positivity, and recognition—that keep morale high Holding teams and individuals accountable Constantly recruiting talent (building the bench) rather than filling positions only when they are empty Combining research, interviews, and inspiring stories with the lessons that have earned Jamail the respect of the world's foremost corporations including CISCO, FedEx, Sprint, the U.S. Army, and State Farm; The Leadership Playbook will dominate the category for years to come.
