The Left Behinds: The iPhone that Saved George Washington
David Potter, 2016-01-12 Percy Jackson fans will embrace this humorous time travel adventure, the first in a series, about an iPhone malfunction that sends three kids back to 1776 in time to rescue George Washington. On Christmas Day, Mel finds General George Washington lying dead as a doornail in a stable. But Mel knows that George Washington must cross the Delaware River, or the course of American history will be changed forever. Could Mel's iPhone have sent him back in time to 1776? And can Mel and his schoolmates, know-it-all Bev and laid-back Brandon, come to the rescue? Perhaps, with a little help from two colonial kids and Benjamin Franklin himself. Debut novelist David Potter cleverly combines time travel, humor, and American history in this fast-paced adventure. For American Revolution enthusiasts, there's information about historical reenactments, additional reading, and websites. Praise for **THE LEFT BEHINDS: THE IPHONE THAT SAVED GEORGE WASHINGTON** "Sequel, anyone? Let's hope so, because the concept of bringing an iPhone into the past is just too cool to stop at one episode... This is Magic Tree House all grown up, and kids who once loved that time travel conceit will be delighted all over again." -The Bulletin of the Center for Children's Books "A skillful blend of humor, history, mystery, and adventure makes for a fun, fast-paced tale that will leave readers a little wiser." -School Library Journal "History and humor collide." -Booklist "A new twist on time travel." -Kirkus Reviews

The Left Behinds: Abe Lincoln and the Selfie that Saved the Union David Potter, 2016-01-12 Percy Jackson fans will embrace this humorous time-travel adventure that sends Mel and his friends right into the Civil War's Battle of Gettysburg. Mel, Bev, and Brandon—the Left Behinds—are at it again. When the iTime app on their phones sends them to Washington, D.C., in 1863, they find themselves smack dab in the middle of the Civil War. They sit in on a séance with First Lady Mary Todd Lincoln and are

shown every inch of the White House by Tad, the youngest Lincoln. But when they meet President Abe Lincoln himself, he is preoccupied with the fateful battle at Gettysburg, which is just under way. The kids receive their marching orders—they must somehow travel to Gettysburg, make sure what's supposed to happen does happen, save the Union, and be home in time for dinner. No biggie. After all, it's only the entire future of the country at stake. Includes an author's note and information on Civil War reenactments and living history sites around the nation. Praise for the Left Behinds series: "The narrative is pure fun. . . . History made silly for readers who can't get into it straight." —Kirkus Reviews "This is Magic Tree House all grown up, and kids who once loved that time travel conceit will be delighted all over again." —The Bulletin of the Center for Children's Books "Readers will charge through these super-short chapters like a Revolutionary soldier on the run." —BookPage

Mobile Search Behaviors Dan Wu, Shaobo Liang, 2018-03-19
With the rapid development of mobile Internet and smart personal devices in recent years, mobile search has gradually emerged as a key method with which users seek online information. In addition, cross-device search also has been regarded recently as an important research topic. As more mobile applications (APPs) integrate search functions, a user's mobile search behavior on different APPs becomes more significant. This book provides a systematic review of current mobile search analysis and studies user mobile search behavior from several perspectives, including mobile search context, APP usage, and different devices. Two different user experiments to collect user behavior data were conducted. Then, through the data from user mobile phone usage logs in natural settings, we analyze the mobile search strategies employed and offer a context-based mobile search task collection, which then can be used to evaluate the mobile search engine. In addition, we combine mobile search with APP usage to give more in-depth analysis, such as APP transition in mobile search and follow-up actions triggered by mobile search. The study, combining the mobile search with APP usage, can contribute to the interaction design of APPs, such as the search recommendation and APP recommendation. Addressing the phenomenon of users owning more smart devices today than ever before, we focus on user cross device search behavior. We model the information

preparation behavior and information resumption behavior in cross-device search and evaluate the search performance in cross-device search. Research on mobile search behaviors across different devices can help to understand online user information behavior comprehensively and help users resume their search tasks on different devices.

Texting Toward Utopia Ben Agger, 2015-11-17 This book examines the contemporary era where parents complain that children today don't do their homework because they are distracted by the Internet, texting, and video games. Texting Toward Utopia presents the writings of today's children and develops the argument that this is actually a time of mass literacy, in which young people write furiously, albeit often below the adult radar. Agger argues that where texting replaces textbooks, the writing may be emoticon-laden, slangy, or terse, but it is still profound, as children (and their parents) engage in resistance and write for a better world. This book is a guide to understanding the meeting point between a new generation of children and new communication technologies.

United States Code United States, 2013 The United States Code is the official codification of the general and permanent laws of the United States of America. The Code was first published in

1926, and a new edition of the code has been published every six years since 1934. The 2012 edition of the Code incorporates laws enacted through the One Hundred Twelfth Congress, Second Session, the last of which was signed by the President on January 15, 2013. It does not include laws of the One Hundred Thirteenth Congress, First Session, enacted between January 2, 2013, the date it convened, and January 15, 2013. By statutory authority this edition may be cited U.S.C. 2012 ed. As adopted in 1926, the Code established prima facie the general and permanent laws of the United States. The underlying statutes reprinted in the Code remained in effect and controlled over the Code in case of any discrepancy. In 1947, Congress began enacting individual titles of the Code into positive law. When a title is enacted into positive law, the underlying statutes are repealed and the title then becomes legal evidence of the law. Currently, 26 of the 51 titles in the Code have been so enacted. These are identified in the table of titles near the beginning of each volume. The Law Revision Counsel of the House of Representatives continues to prepare legislation pursuant to 2 U.S.C. 285b to enact the remainder of the Code, on a title-by-title basis, into positive law. The 2012 edition of the Code was prepared and published under the supervision of Ralph V. Seep, Law Revision Counsel. Grateful acknowledgment is made of the contributions by all who helped in this work, particularly the staffs of the Office of the Law Revision Counsel and the Government Printing Office--Preface.

Art, Politics and the Pamphleteer Jane Tormey,Gillian Whiteley,2020-12-10 Art, Politics and the Pamphleteer brings

together a collection of text-based and visual essays, commissioned artworks and graphics. This richly illustrated book responds to the concept, aesthetics and function of the political pamphlet. It is diverse in content, interpreting the 'pamphlet' in the broadest terms, and encompassing a number of case studies that offer historical or specific examples of contemporary pamphleteering practice that can be seen to perform 'a clear political implication' or protest. Besides exploring the radical history and diverse cultures of the pamphlet, it also celebrates the rich visual rhetoric, typography and contemporary relevance of the format for both artists and activists. Contributions include an historical overview and essays by: Andy Abbott, Angeliki Avgitidu, Aziz Choudry and Désirée Rochat, David Murrieta Flores, Michelle Kempson, Pil and Galia Kollektiv, Rachel Schreiber, Jane Tormey, Gillian Whiteley; visual contributions by Gary Anderson and Steven Shakespeare, Ruth Beale, Ami Clarke, Common Culture, Jeremy Deller, Freee, Patrick Goddard, Gavin Grindon, Ferenc Grof, Marc Herbst, Joanne Lee, Josh MacPhee, Manual Labours, Mark McGowan, Minute Works, Chris Morton, radicalreThink, Hester Reeve, Oliver Ressler, Greg Sholette & Christopher Darling, Laura Wild, Andrew Wilson. As the book was conceived as predominantly visual from the outset, the book concept has been a collaboration with The Little Riot Press (Phil Eastwood and Chris Dunne). Overall, an aesthetic of protest and propaganda was considered integral to the design to reiterate the generally handmade, analogue techniques found in political pamphlets. The Little Riot Press have thus approached the illustration and overall visual cohesion from the perspective of the radical artist pamphleteer.
