The Formation of Campaign Agendas Holli A. Semetko, Jay G. Blumler, Michael Gurevitch, David H. Weaver, Steve Barkin, 2013-04-15 This unusual volume seeks to accomplish three related goals: * to assess the extent and limits of media power in election campaigns * to extend the concept of media agenda-setting to include the contributions of powerful news sources in the process of election agenda formation * to evaluate the impact of national system variables (differences in political and media systems) on the balance of party and media forces in the formation of campaign agendas In the process, it searches for ways of measuring the discretionary power of the media in electoral politics, testing this in terms of the relative ability of journalists and politicians to shape election campaign agendas.

The Principles and Practice of Crisis Management Meena Ahmed, 2006-04-27 This book examines the factors involved in the social mediation of risks, the social construction of reality, and professionals' attempts to re-design how social reality appears. It looks at single-issue politics, the mass media and how corporations can respond to threats to their political and ideological perspectives.

The Production Sites of Architecture Sophia Psarra, 2019-01-14 The Production Sites of Architecture examines the intimate link between material sites and meaning. It explores questions such as: how do spatial configurations produce meaning? What are alternative modes of knowledge

production? How do these change our understanding of architectural knowledge? Featuring essays from an international range of scholars, the book accepts that everything about the production of architecture has social significance. It focuses on two areas: firstly, relationships of spatial configuration, form, order and classification; secondly, the interaction of architecture and these notions with other areas of knowledge, such as literature, inscriptions, interpretations, and theories of classification, ordering and invention. Moving beyond perspectives which divide architecture into either an aesthetic or practical art, the authors show how buildings are informed by intersections between site and content, space and idea, thought and materiality, architecture and imagination. Presenting illustrated case studies of works by architects and artists including Amale Andraos, Dan Wood, OMA, Koen Deprez and John Soane, *The Production Sites of Architecture* makes a major contribution to our understanding of architectural theory.

The making of Thatcherism Philip Begley, 2020-05-15 The making of Thatcherism examines the Conservative Party's period in opposition between 1974 and 1979, focusing on the development of key policy on issues from the economy, to immigration, to Scottish Devolution. Offering a detailed analysis of Conservative Party policy during this period, from the point at which it had last been in government to the point at which it subsequently regained

power, this book helps us to understand the significance of the Conservative victory in 1979: What exactly did more than 13 million Britons vote for in May of that year? This period is typically viewed as one of dramatic change within the Conservative party; however, Begley argues that policy changes were more modest and complex than has been previously considered. Focusing on the short-term political context, Begley argues that though the roots of Thatcherism were beginning to emerge in the party, Thatcherism does not appear to have been inevitable in policy terms by 1979. Providing an overview of the intellectual, economic, and social contexts, Philip Begley examines the range of factors driving the Conservative Party's development of policy.

Her Majesty Robert Hardman, 2021-11-15 The hotly anticipated American edition of Robert Hardman's biography of Queen Elizabeth (formerly Our Queen in the U.K.)—An intimate portrait of England's soon-to-be longest reigning queen, in celebration of her diamond jubilee—and the first-ever book interview with her grandson, Prince William. History has known no monarch like her. She has traveled farther than all her predecessors put together and lived longer than any of them. She has known more historic figures than anyone alive—from Churchill to Mandela, de Gaulle to Obama. Now, the distinguished royal writer Robert Hardman has been granted special access to the world of Queen Elizabeth II to produce this enthralling new portrait of one of the most popular public figures on earth. Not only has Elizabeth II reigned through Britain's transformation from an imperial power to a multi-

cultural nation, but she has also steered the monarchy through more reforms in the last twenty-five years than in the previous century. Queen Elizabeth II sits at the head of an ancient institution that remains simultaneously popular, regal, inclusive, and relevant in a twenty-first-century world. It is down to neither luck nor longevity: it is down to the shrewd judgment of a thoroughly modern monarchy—with no small assistance from the longest-serving consort in history. Here is the inside story.

The Future of Quality News Journalism Peter Anderson, Michael Williams, George Ogola, 2013-09-23 In the face of the continuously changing challenges of the digital age, it is difficult for quality news journalism to survive on any significant scale if a means for adequately funding it is not available. This new study, a follow-up to 2007's *The Future of Journalism in the Advanced Democracies*, includes a comparative analysis of possible alternative business models that may save the future of the quality news business across the developed, intermediate, and developing worlds. Its detailed evaluation encompasses also the different ways in which wider key issues are affecting the prospects for quality news as a core ingredient of effectively working democracies. It focuses on the United States, the United Kingdom, South Africa, India, Kenya, and selected parts of the Arab World, providing a comprehensive cross-cultural survey of different approaches to addressing these various issues. To keep the study firmly rooted in the real world the contributors include distinguished practitioners as well as

experienced academics.

Independent Television in Britain P. Bonner, L. Aston, 1998-07-13 A stimulating treatment of an area of public life which is a subject of continuing debate and controversy. This volume covers the years in which ITV faced more challenges than at any time in its history and its regulator, the IBA, was subject to political pressures so extreme that they brought about its abolition and rebirth as the Independent Television Commission. The book gives detailed accounts, based on documents not previously available and interviews with over sixty senior figures in the industry, of the changes and controversies of the period. Highlights include: the conflict with government over the programme *Death on the Rock*, the battle with the BBC for possession of the rights to *Dallas*, the financial crisis at ITN, the impact of the Peacock Committee Report and the 1990 White Paper on Broadcasting, as well as detailed accounts of the broadcasters' and the regulator's battle with the government over the Broadcasting Bill and the subsequent 'auction' of ITV licences.

The Rise and Fall of Television Journalism Steven Barnett, 2011-11-08 This book traces the history of television journalism in Britain from its austere roots in the BBC's post-war monopoly to the present-day plethora of 24 hour channels and celebrity presenters. It asks why a medium whose thirst for pictures, personalities and drama makes it, some believe, intrinsically unsuitable for serious journalism should remain in the internet age the most influential purveyor of news. Barnett compares the two very different trajectories of television journalism in Britain and the US, arguing that from the outset a rigorous statutory and regulatory framework rooted in a belief about the democratic value of the medium created and sustained a culture of serious, responsible, accurate and interrogative journalism in

British television. The book's overarching thesis is that, despite a very different set of historical, regulatory and institutional practices, there is a very real danger that Britain is now heading down the same road as America.

The NUM and British Politics Andrew Taylor, 2017-03-02 This book is the second of two volumes examining the place of the National Union of Mineworkers in post-war British politics. Covering the years 1969 to 1995, it charts reactions to the pit closures programme of the late 1950s and 1960s and the development of the NUM's reputation as the union that could topple governments. This reputation influenced profoundly the relationship between the NUM and successive Labour and Conservative administrations, underpinning changes in the state's approach to industrial disputes, so vividly manifested in the strike of 1984-85. Following the same intellectual path as volume one, this book concentrates on 'high' politics and the relationship between the NUM, the government and the National Coal Board. It highlights many of the same the key themes of the first volume, particularly the internal political process whereby the mineworkers' tendency to fragmentation was managed, and which was to eventually lead to the breakdown of this internal political process and the fragmentation of the NUM. Volume two explores how these fractures impacted upon such key issues as the formation of the 'Broad Left', the election of Joe Gormley as NUM President in 1971 and the strikes of 1972 and 1974 and relations with the Wilson and Heath governments. It then examines the election of Arthur Scargill in 1981 and the subsequent shifting

of the union's political centre of gravity, together with the Conservative government's determination to use the power of the state to destroy the power of the NUM. The myths and legends surrounding the NUM and its power to bring down governments is still strong today, yet this book challenges many of the notions surrounding its strength, militancy and cohesiveness. Instead what emerges is a more complex picture as the union struggled to translate local loyalties into national solidarity. Whilst nationalisation initially helped this process, growing frustration exploded at the end of the 1960s, ushering in a period of

Public service content Great Britain: Parliament: House of Commons: Culture, Media and Sport Committee, 2007-11-15 In March 2006, the Government published its White Paper on the BBC (A public service for all: the BBC in the digital age, Cm. 6763 (ISBN 9780101676328)) which set out the framework for the BBC's role as a public service broadcaster over the next ten years. Given the concerns that have been raised over the future sustainability of the current public service broadcasting system, the Committee's report examines a range of issues including: the prospects for maintaining plurality in public service broadcasting in the digital age; the practicality of continuing to impose public service obligations on commercial broadcasters; the viability of existing funding models for ITV, Channel 4 and Five; and the case for public funding of broadcasters in addition to the BBC. Amongst its findings, although the Committee notes its overall confidence in the

viability of most types of public service content, it recognises that some content is already coming under pressure and that this is likely to increase over time. The report argues that the BBC should not be left as the only supplier of public service content in any area of programming, as the maintenance of plurality is an important public policy objective. Public funding, using licence fee income or general taxation, should be made available to all broadcasters on a contestable basis, to bring the benefits of competition to the provision of public service content that the market might not otherwise provide, such as UKproduced children's programming or regional programming.

The New Television Handbook Patricia Holland, 2017-07-14 The New Television Handbook provides an exploration of the theory and practice of television at a time when the medium is undergoing radical changes. The book looks at television from the perspective of someone new to the industry, and explores the place of the medium within a constantly changing digital landscape. This title discusses key skills involved in television production, including: producing, production management, directing, camera, sound, editing and visual effects. Each of these activities is placed within a wider context as it traces the production process from commissioning to post-production. The book outlines the broad political and economic context of the television industry. It gives an account of television genres, in particular narrative, factual programmes and news, and it considers the academic discipline of

media studies and the ways in which theorists have analysed and tried to understand the medium. It points to the interplay of theory and practice as it draws on the history of the medium and observes the ways in which the past continues to influence and invigorate the present. The New Television Handbook includes: contributions from practitioners ranging from established producers to new entrants; a comprehensive list of key texts and television programmes; a revised glossary of specialist terms; a section on training and ways of getting into the industry. By combining theory, real-world advice and a detailed overview of the industry and its history, The New Television Handbook is an ideal guide for students of media and television studies and young professionals entering the television industry.

Poor Reception Barrie Gunter, 2012-11-12 Published in 1990, Poor Reception is a valuable contribution to the field of Communication Studies.

The Extra Mile Kevin Sinfield, 2023-05-25 THE INSPIRATIONAL NUMBER ONE BESTSELLER The extraordinary memoir of the sporting icon, devoted friend and fundraising hero who has inspired the nation in his fight against MND 'An inspirational and life-affirming read. What Kevin Sinfield has achieved on and off the field is truly remarkable. His inspiring leadership and relentless focus on fundraising for MND shows how we should all strive to care more for each other' Gareth Southgate 'If you want inspiring, uplifting and empowering... give this amazing man some of your time' Jake Humphrey 'Kevin Sinfield is adored and respected . . . he is the best of men' Brian

Moore, Daily Telegraph 'I've always thought Kevin Sinfield was a hero. His quiet, calm, committed leadership makes people want to support him and we are all doing that as he supports Rob Burrow and everyone living with MND' Clare Balding 'The friendship between Kevin Sinfield and Rob Burrow gives you faith in humankind' Sir Chris Hoy The Extra Mile is no ordinary sports memoir. But Kevin Sinfield is no ordinary sportsman. A one-club legend of Leeds Rhinos, who has now crossed codes as a defence coach for the England national rugby union team, Kevin Sinfield is a rugby icon. But in recent years has shown heroism of a very different kind through his selfless and extraordinary fundraising for motor neurone disease (MND), the terminal illness that has affected his best mate and former teammate Rob Burrow. Sinfield's epic challenges have included running 7 ultra marathons in 7 days, and running over 101 miles in 24 hours. In the process, Sinfield has captured the hearts of the nation and over £7 million for MND. He was awarded an OBE in the Queen's Birthday honours for his efforts, along with the Freedom of Leeds and a special BBC Award for his fundraising. Told with Sinfield's characteristic warmth, dry wit and inspirational leadership, The Extra Mile is the story of an astonishing life, of an enduring friendship, of perseverance against the most difficult of challenges, and of a remarkable, humble human being who has defied the odds. The book equips readers with the tools and the mindset to embrace togetherness and to overcome their own challenges. It leaves the reader with the urgent question: Who would you go the extra mile for to help

in life? PRAISE FOR KEVIN SINFIELD 'Inspirational does not do him justice, he's that and much, much more' Matt Dickinson 'Kevin Sinfield is an incredible human being' Gabby Logan 'A total hero' Yvette Cooper 'Britain's greatest sportsman (off the pitch) ... Kevin Sinfield's fundraising is a poignant story of friendship and human endeavour' The Times

Television and Culture in Putin's Russia Stephen Hutchings, Natalia Rulyova, 2009-06-02 This book examines television culture in Russia under the government of Vladimir Putin. In recent years, the growing influx into Russian television of globally mediated genres and formats has coincided with a decline in media freedom and a ratcheting up of government control over the content style of television programmes. All three national channels (First, Russia, NTV) have fallen victim to Putin's power-obsessed regime. Journalists critical of his Chechnya policy have been subject to harassment and arrest; programmes courting political controversy, such as Savik Shuster's Freedom of Speech (Svoboda slova) have been taken off the air; coverage of national holidays like Victory Day has witnessed a return of Soviet-style bombast; and reporting on crises, such as the Beslan tragedy, is severely curtailed. The book demonstrates how broadcasters have been enlisted in support of a transparent effort to install a latter-day version of imperial pride in Russian military achievements at the centre of a national identity project over which, from the depths of the Kremlin, Putin's government exerts a form of remote control. However, central to the book's argument is the notion that

because of the changes wrought upon Russian society after 1985, a blanket return to the totalitarianism of the Soviet media has, notwithstanding the tenor of much western reporting on the issue, not occurred. Despite the fact that television is nominally under state control, that control remains remote and less than wholly effective, as amply demonstrated in the audience research conducted for the book, and in analysis of contradictions at the textual level. Overall, this book provides a fascinating account of the role of television under President Putin, and will be of interest to all those wishing to understand contemporary Russian society.

The Lib-Lab Pact Jonathan Kirkup, 2016-04-29 Using archival sources and interviews with key participants, new insight is gained to how the Lib-Lab Pact of 1977-78 - an agreement, short of a full coalition - came about, was structured and implemented, and how Liberal leader, David Steel, might have achieved significant policy concessions on electoral reform.
