**Translators Have Their Say?** Abdel Wahab Khalifa, 2014 To address the idea of agency in translation is to highlight the interplay of power and ideology: what gets translated or not and why a text is translated is mainly a matter of exercising power or reflecting authority. The contributions in this book serve as an attempt to understand the complex nature of agency in terms of its relation to agents of translation; the role of translatorial agents and the way they exercise their agency in (de)constructing narratives of power and identity; and the influence of translatorial agency on the various processes of translation and hence on the final translation product as well. **Key Debates in the Translation of Advertising Material** Beverly Adab, Cristina Valdes, 2016-04-01 Much has been written about the marketing

aspects of promotional material in general, and several scholars (particularly in linguistics) have addressed questions relating to the structure and function of advertisements, focusing on images, rhetorical structure, semiotic functions, discourse features and audio-visual media, amongst other aspects of the genre. Not much, on the other hand, has been written within translation studies about the complexities involved in the transfer of an advertising message. Contributors to this volume explore various interdependent aspects of the interlingual and intercultural transfer of an advertising message. They emphasize features of culture specificity, of multi-medial semiotic interaction, of values and stereotypes, and most importantly, they recommend strategies and approaches to assist translators. Topics covered include a critique of the Western-based approach to advertising in the context of the Far East; different perceptions of the concept of cleanliness in advertising texts in Italy, Russia and the UK; the Walls Cornetto strategy of internationalization of product appeal, followed by localization; the role of the translator in recreating appeal in different lingua-cultural contexts; what constitutes 'Italianness' in advertisements for British consumers; and strategies for repackaging France as a tourist destination.

**Professional Issues for Translators and Interpreters** Deanna L. Hammond, 1994 This volume brings both beginning and experienced translators and interpreters up to date on a broad range of issues. The seven sections take up success and survival strategies for a language professional, including the challenges posed by the changing global economy, the impact of new technologies, adjustments required by a different legal environment and traditional ethical practices. Such challenges and changes point to a need for continuing education and networking and for newcomers specialized postsecondary training. The issues are as broad as the translator and interpreter's role in the modern world, as detailed as advice on setting up a workstation or choosing a degree program. The contributors, all practicing translators and interpreters, discuss also the value of the Association and its Committees to the profession and its individual members.

The Translator's Invisibility Lawrence Venuti, 2012-06-25 Since publication over ten years ago, *The Translator's Invisibility* has provoked debate and controversy within the field of translation and become a classic text. Providing a fascinating account of the history of translation from the seventeenth century to the present day, Venuti shows how fluency prevailed over other translation strategies to shape the canon of foreign literatures in English and investigates the cultural consequences of the receptor values which were simultaneously inscribed and masked in foreign texts during this period. The author locates alternative translation theories and practices in British, American and European cultures which aim to communicate linguistic and cultural differences instead of removing them. In this second edition of his work, Venuti: clarifies and further develops key terms and arguments responds to critical commentary on his argument incorporates new case studies that include: an eighteenth century translation of a French novel by a working class woman; Richard Burton's controversial translation of the *Arabian Nights*; modernist poetry translation; translations of Dostoevsky by the bestselling translators Richard Pevear and Larissa Volokhonsky; and translated crime fiction updates data on the current state of translation, including publishing statistics and translators' rates. *The Translator's Invisibility* will be essential reading for students of translation studies at all levels. Lawrence Venuti is Professor of English at Temple University, Philadelphia. He is a translation theorist and historian as well as a translator and his recent publications include: *The Scandals of Translation: Towards an Ethics of Difference* and *The Translation Studies Reader*, both published by Routledge.

The Savvy Client's Guide to Translation Agencies John Yunker, 2010 Your translation agency is your voice to the world. Select the right agency, and the world will hear you loud and clear. Select the wrong agency, and the world may never know what you have to say—or worse, hear something you never intended to say. This book will help you select the right agency the first time. The book is designed to be used as both a learning tool and a reference. The first two-thirds of the book demystifies the terminology, the workflow, and the major technologies now being used. The last third of the book includes a directory of 44 translation agencies, to help executives begin

their search. The book includes: \* 10 things you should know about the translation industry\* An overview of machine translation and how it is transforming the industry\* 10 questions you should ask any prospective translation agency

**Localizing Apps** Johann Roturier, 2015-05-08 The software industry has undergone rapid development since the beginning of the twenty-first century. These changes have had a profound impact on translators who, due to the evolving nature of digital content, are under increasing pressure to adapt their ways of working. *Localizing Apps* looks at these challenges by focusing on the localization of software applications, or apps. In each of the five core chapters, Johann Roturier examines: The role of translation and other linguistic activities in adapting software to the needs of different cultures (localization); The procedures required to prepare source content before it gets localized (internationalization); The measures taken by software companies to guarantee the quality and success of a localized app. With practical tasks, suggestions for further reading and concise chapter summaries, *Localizing Apps* takes a comprehensive look at the transformation processes and tools used by the software industry today. This text is essential reading for students, researchers and translators working in the area of translation and creative digital media.

**Some Remarks on Translation and Translators** English Association, John Swinnerton Phillimore, 1919

**Translation Strategies in Global News** Claire Scammell, 2018-03-14 This book analyses the translation strategies employed by journalists when reporting foreign news events to home audiences. Using English-language press coverage of inflammatory comments made by Nicolas Sarkozy in his role as French interior minister in 2005 as a case study, the author illustrates the secondary level of mediation that occurs when news crosses linguistic and cultural borders. This critical analysis examines the norm for 'domesticating' news translation practices and explores the potential for introducing a degree of 'foreignisation' as a means to facilitating cross-cultural engagement and understanding. The book places emphasis on foreign-language quotation and culture-specific concepts as two key sites of translation in the news, and addresses a need for research that clarifies where translation, as a distinct part of the newswriting process, occurs. The interdisciplinary nature of this book will appeal to a broad range of readers, in particular scholars and students in the fields of translation, media, culture and journalism studies.
