In the Red Geremie R. Barmé,2000-01-11 China, Geremie R. Barmé notes, has become one of the greatest writing and publishing nations on the planet, and both cultural activists and the state are embroiled in debates about the production and distribution of its cultural products. But what happens when global culture and Chinese capitalist-socialism meet in the marketplace? In the Redinvestigates what goes on behind the rhetoric of the official Chinese government and the dissident community and provides a unique perspective on mainstream Western perceptions of cultural developments, artistic freedom, and popular lifestyles in China

today. Illustrated with fascinating cartoons and photographs and rich with facts, anecdotes, and events, *In the Red* exposes the complex relationship between official culture (produced, supported, or sanctioned by the government) and nonofficial or countercultures (especially among urban youths and dissidents). Two key and contrasting events loom large in this narrative: the 1989 protests that ended with the June 4 massacre and a nationwide purge, and Deng Xiaoping's 1992 tour of the south, in which he emphasized the need for radical economic reform. Although a level of political tolerance has evolved since the 1970s, Barmé sheds light on the significance of the intermittent denunciations of artists, ideas, and works.

I Survived Capitalism and All I Got Was This Lousy T-Shirt Madeline Pendleton,2024-01-16 “Move on, Jim Cramer. Here’s the real deal—smart, undaunted, and eminently wise.”—Kirkus Reviews *starred review* A big-hearted, no-bullshit memoir from the TikTok superstar about her journey from living paycheck to paycheck to creating a multi-million-dollar business that offers a compassionate alternative to capitalism • Plus no-nonsense life and money advice, from negotiating pay and building credit to putting home ownership within reach Imagine a job where you work four days a week and earn as much as the CEO. You also get full benefits, a gym membership, free lunch, and unlimited time off, no questions asked. Hard-won profits don’t just end up in the CEO’s pocket—they’re distributed equally among all employees. The company even buys you your very own car. It sounds too good to be true, but this is the reality at Tunnel Vision, the clothing company that Madeline Pendleton built from the ground up. Like so many Americans, Madeline used to struggle to make ends meet. Raised by a punk dad and a goth mom in Fresno, California, she spent her teens intermittently homeless, relying on the kindness and spare couches of the local punk community to get by. By her twenties, she was drowning in student loans and credit card debt, working long hours and sick of her bosses treating her as disposable. Then her boyfriend, struggling with financial stress, died by suicide. Capitalism was literally killing her loved ones—she knew there must be a better way. Madeline decided to study the rules of capitalism, the game everyone is forced to play. She used what she learned to build a new kind of business, one rooted in an ethos of community care. Millennials and Gen Zers like Madeline are facing an unprecedented financial reality: Stagnant wages, skyrocketing housing costs, a student debt crisis. *I Survived Capitalism* is essential reading for anyone searching for hope and stability in an unjust world.

Design Unbound: Designing for Emergence in a White Water World, Volume 2 Ann M. Pendleton-Jullian,John Seely Brown,2018-12-04 Tools for navigating today's hyper-connected, rapidly changing, and radically contingent white water world. Design Unbound presents a new tool set for having agency in the twenty-first century, in what the authors characterize as a white water world—rapidly changing, hyperconnected, and radically contingent. These are the tools of a new kind of practice that is the offspring of complexity science, which gives us a new lens through which to view the world as entangled and emerging, and architecture, which is about designing contexts. In such a practice, design, unbound from its material thingness, is set free to design contexts as complex systems. In a world where causality is systemic, entangled, in flux, and often elusive, we cannot design for absolute outcomes. Instead, we need to design for emergence. Design Unbound not only makes this case through theory but also presents a set of tools to do so. With case studies that range from a new kind of university to organizational, and even societal, transformation, Design Unbound draws from a vast array of domains: architecture, science and technology, philosophy, cinema, music, literature and poetry, even the military. It is presented in five books, bound as two volumes. Different books within the larger system of books will resonate with different reading audiences, from architects to people reconceiving higher education to the public policy or defense and intelligence communities. The authors provide different entry points allowing readers to navigate their own pathways through the system of books.

Fear and Clothing: Unbuckling American Style Cintra Wilson,2015-09-08 As the former New York Times Critical Shopper, and voted one of Fashionista's 50 Most Influential People in New York Fashion, Cintra Wilson knows something about clothes. And in *Fear and Clothing*, she imparts her no-holds-barred, totally outrageous, astute, and hilarious wisdom to the reader. Wilson reports the findings of her fashion road trip across the United States, a journey that took three years and ranges across the various economic belt regions of America: the Cotton, Rust, Bible, Sun, Frost, Corn, and Gun Belts. Acting as a kind of fashion anthropologist, she documents and decodes the sartorial sensibilities of Americans across the country. Our fashion choices, she argues, contain a riot of visual cues that tell everyone instantly who we are, where we came from, where we feel we belong, what we want, where we are going, and how we expect to be treated when we get there. With this philosophy in hand, she tackles and unpacks the meaning behind the uniforms of Washington DC politicians and their wives, the costumes of Kentucky Derby spectators, the attractive draw of the cowboy hat in Wyoming, and what she terms the stealth wealth of distressed clothing in Brooklyn. In this smart and rollicking book, Wilson illustrates how every closet is a declaration of the owner’s politics, sexuality, class, education, hopes, and dreams. With her signature wit and utterly irreverent humor, Wilson proves that, by donning our daily costume, we create our future selves, for good or ill. Indeed: your fate hangs in your closet. Dress wisely.
