The Encyclopedia of the Sword Nick Evangelista,1995-05-23 From the gruff, sword-toting swashbucklers of the Middle Ages to modern adventure epics like The Princess Bride, the aura surrounding the sword is one that is both romantic and pragmatic. Thoughts of this weapon bring to mind images of the Knights of the Round Table, Zorro, the Three Musketeers—the things daydreams are made of. Historically, the fate of the empires revolved around the sword; nations rose and fell based on the power of their swordsmen. For centuries it was the weapon of choice in settling personal disputes. Today, the art of sword fighting has been incarnated as the dynamic, chess-like sport of fencing. It has also played an important part in the history of theatre and film, and it has been part of literature for as long as there have been books. In its varied guises, the sword has for centuries figured in the world's varied cultures, myths, and politics. Yet, there has never been a comprehensive volume on the subject of the sword until the publication of this encyclopedia. For the first time, in a single volume one can locate information on the history of sword types and styles around the world; techniques of combat sword use; techniques and styles of modern sport fencing; names and descriptions of various fencing implements and weapon types; swashbuckler films and the fencing masters who influenced the genre; significant individuals who have taught sword use; the sword at the Olympics; the literature in which the rapier, foil, or broadsword has figured; and much, much more. Essential reading for fencing and military history enthusiasts.

Lives of the Novelists John Sutherland,2012-03-27 No previous author has attempted a book such as this: a complete history of novels written in the English language, from the genre's seventeenth-century origins to the present day. In the spirit of Dr. Johnson's Lives of the Poets, acclaimed critic and scholar John Sutherland selects 294 writers whose works illustrate the best of every kind of fiction—from gothic, penny dreadful, and pornography to fantasy, romance, and high literature. Each author was chosen, Professor Sutherland explains, because his or her books are well worth reading and are likely to remain so for at least another century. Sutherland presents these authors in chronological order, in each case deftly combining a lively and informative biographical sketch with an opinionated assessment of the writer's work. Taken together, these novelists provide both a history of the novel and a guide to its rich variety. Always entertaining, and sometimes shocking, Sutherland considers writers as diverse as Daniel Defoe, Henry James, James Joyce, Edgar Allan Poe, Virginia Woolf, Michael Crichton, Jeffrey Archer, and Jacqueline Susann. Written for all lovers of fiction, Lives of the Novelists succeeds both as introduction and re-introduction, as Sutherland presents favorite and familiar novelists in new ways and transforms the less favored and less familiar through his relentlessly fascinating readings.

Advances in Visual Computing Richard Boyle,Bahram Parvin,Darko Koracin,Ronald Chung,Hammoud,Muhammad Hussain,Kar-Han Tan,Roger Crawfis,Daniel Thalmann,David Kao,Lisa Avila,2010-11-19 It is with great pleasure that we present the proceedings of the 6th International Symposium on Visual Computing (ISVC 2010), which was held in Las Vegas, Nevada. ISVC provides a common umbrella for the four main areas of visual computing including vision, graphics, visualization, and virtual reality. The goal is to provide a forum for researchers, scientists, engineers, and practitioners throughout the world to present their latest research findings, ideas, developments, and applications in the broader area of visual computing. This year, the program consisted of 14 oral sessions, one poster session, 7 special tracks, and 6 keynote presentations. The response to the call for papers was very good; we received over 300 submissions for the main symposium from which we accepted 93 papers for oral presentation and 73 papers for poster presentation. Special track papers were solicited separately through the Organizing and Program Committees of each track. A total of 44 papers were accepted for oral presentation and 6 papers for poster presentation in the special tracks.
