Brave Girl Eating Harriet Brown,2010-08-24 “One of the most up to date, relevant, and honest accounts of one family’s battle with the life threatening challenges of anorexia. Brown has masterfully woven science, history, and heart throughout this compelling and tender story.” —Lynn S. Grefe, Chief Executive Officer, National Eating Disorders Association “As a woman who once knew the grip of a life-controlling eating disorder, I held my breath reading Harriet Brown’s story. As a mother of daughters, I wept for her. Then cheered.” —Joyce Maynard, author of *Labor Day* In *Brave Girl Eating*, the chronicle of a family’s struggle with anorexia nervosa, journalist, professor, and author Harriet Brown recounts in mesmerizing and horrifying detail her daughter Kitty’s journey from near-starvation to renewed health. *Brave Girl Eating* is an intimate, shocking, compelling, and ultimately uplifting look at the ravages of a mental illness that affects more than 18 million Americans.

Introduction to Nursing Informatics Kathryn J. Hannah,Marion J. Ball,Margaret J.A. Edwards,2013-04-17 This series is intended for the rapidly increasing number of health care professionals who have rudimentary knowledge and experience in health care computing and are seeking opportunities to expand their horizons. It does not attempt to compete with the primers already on the market. Eminent international experts will edit, author, or contribute to each volume in order to provide comprehensive and current accounts of innovations and future trends in this quickly evolving field. Each book will be practical, easy to use, and well referenced. Our aim is for the series to encompass all of the health professions by focusing on specific professions, such as nursing, in individual volumes. However, integrated computing systems are only one tool for improving communication among members of the health care team. Therefore, it is our hope that the series will stimulate professionals to explore additional means of fostering interdisciplinary exchange. This series springs from a professional collaboration that has grown over the years into a highly valued personal friendship. Our joint values put people first. If the *Computers in Health Care* series lets us share those values by helping health care professionals to communicate their ideas for the benefit of patients, then our efforts will have succeeded.

Methods in Comparative Effectiveness Research Constantine Gatsonis,Sally C. Morton,2017-02-24 Comparative effectiveness research (CER) is the generation and synthesis of evidence that compares the benefits and harms of alternative methods to prevent, diagnose, treat, and monitor a clinical condition or to improve the delivery of care (IOM 2009). CER is conducted to develop evidence that will aid patients, clinicians, purchasers, and health policy makers in making informed decisions at both the individual and population levels. CER encompasses a very broad range of types of studies—experimental, observational, prospective, retrospective, and research synthesis. This volume covers the main areas of quantitative methodology for the design and analysis of CER studies. The volume has four major sections—causal inference; clinical trials; research synthesis; and specialized topics. The audience includes CER methodologists, quantitative-trained researchers interested in CER, and graduate students in statistics, epidemiology, and health services and outcomes research. The book assumes a masters-level course in regression analysis and familiarity with clinical research.

Brave Girl Eating Harriet Brown,2013 Millions of families are affected by eating disorders, which usually strike young women between the ages of fourteen and twenty. But current medical practice ties these families' hands when it comes to helping their children recover. Conventional medical wisdom dictates separating the patient from the family and insists that 'it's not about the food', even as a family watches a child waste away before their eyes. In *BRAVE GIRL EATING* Harriet Brown describes how her family, with the support of an open-minded paediatrician and a therapist, helped her daughter recover from anorexia using a family-based treatment developed at the Maudsley Hospital in London. Chronicling her daughter Kitty's illness from the earliest warning signs, through its terrifying progression, and on toward recovery, Brown takes us on one family's journey into the world of anorexia nervosa, where starvation threatened her daughter's body and mind. *BRAVE GIRL EATING* is essential reading for families and professionals alike, a guiding light for anyone who's coping with this devastating disease.--Publisher's description.

The Gift of Participation Kenneth Getz,2007 Kenneth Getz takes a fresh look at why participation in clinical research really matters. This book addresses what clinical participation means and how it helps to advance medical science. Practical information on subjects like insurance coverage, compensation, and tax ramifications for clinical research volunteers also is included. With a foreword written by Congressman Rick Boucher of Virginia, and a back cover endorsement from Tour de France winner and cancer survivor Lance Armstrong, offers a road map into a world many readers are just beginning to explore.

Better to Have Loafed and Lost James Thurber,2002 James Thurber was the most original, influential and, less we should forget, funniest American humorist of the last century. Writing and drawing cartoons for the *New Yorker* magazine from its beginnings in the 1930s, he steadily shaped his own unique

comic universe: a world governed by absurd logic where the trivial anxieties of everyday life slowly grind down its resigned citizens. Thurber's tales, alternately related in bemused deadpan and bewildered rage and are always excruciatingly funny and occasionally quietly disturbing too. This brand new selection, the first in over 50 years, reassembles his finest work for a new generation brought up on David Lynch and Jerry Seinfeld and features all his famous obsessions: the battle of the sexes, animals, travel, the delusional and certifiably insane. His 'casuals', as he liked to call his short pieces, drift between out and out fiction and surreal memoir. Spanning his whole career, this collection includes all his classic writings and cartoons, 'The Secret Life of Walter Mitty', 'The Catbird Seat', 'The Seal in the Bedroom', and half-forgotten gems that may be new even to fully qualified Thurber fans.
