*Media and Accountability in Latin America* Mariella Bastian,2019-01-30 This study approaches a pressing question for the public, the media, and in academia: how can the media be held accountable? By focusing on the relationship between media and accountability in the understudied region of Latin America, Mariella Bastian provides a theoretical framework for the analysis of media accountability (MA) beyond the Global North. The underlying conditions for the development of MA in Brazil,

Argentina, and Uruguay are identified by conducting a multi-method study. The author also gives an overview of the status quo of the implementation of both traditional and innovative MA instruments.

**Perspectivas y fronteras en el estudio de la desigualdad social: movilidad social y clases sociales en tiempos de cambio** Salido, Olga,Fachelli,

Sandra,2020-10-29 Este libro tiene como principal objetivo reivindicar el papel fundamental de la Sociología en el debate contemporáneo de la desigualdad, con frecuencia excesivamente orientado a la medición de la desigualdad económica, resituándolo en la cuestión central de la desigualdad de oportunidades y los mecanismos de transmisión de la ventaja y desventaja social a través de las generaciones. Mediante las principales voces contemporáneas sobre el estudio de las clases y la movilidad social a ambos lados del Atlántico, el libro ofrece una visión panorámica sobre los caminos transitados y los principales hallazgos encontrados en la investigación sobre movilidad social a lo largo de las últimas décadas, así como sobre los puntos de fricción del debate actual. A lo largo de sus páginas se abordan cuestiones de gran calado, que sin duda resultarán de interés tanto para los estudiosos de la movilidad y la estratificación social, como para un público atento más amplio: ¿Se paró el ascensor social? ¿Sigue siendo la educación el «gran igualador» de las diferencias de origen? ¿Disfrutaban las generaciones actuales de las mismas oportunidades que sus padres? ¿Cuál es el papel de la inmigración en el escenario actual de la desigualdad? Como tal, el libro pretende ofrecer un espacio para la

reflexión y el aprendizaje, pero también estimular el debate intelectual en la comunidad científica internacional, incorporando a los países de habla hispana, donde comienza a haber un cúmulo de datos y resultados de investigación suficiente para posibilitar un diálogo internacional comparativo ampliado.

### **The Geological Record of Neoproterozoic**

**Glaciations** Emmanuelle Arnaud, Galen P.

Halverson, Graham Shields-Zhou, 2011 In recent years, interest in Neoproterozoic glaciations has grown as their pivotal role in Earth system evolution has become increasingly clear. One of the main goals of the IGCP Project number 512 was to produce a synthesis of newly available information on Neoproterozoic successions worldwide. This Memoir consists of a series of overview chapters followed by site-specific chapters. The overviews cover key topics including the history of research on Neoproterozoic glaciations, identification of glacial deposits, chemostratigraphic techniques and datasets, palaeomagnetism, biostratigraphy, geochronology and climate modelling. The site specific chapters include reviews of the history of research on these rocks and up-to-date syntheses of the structural framework, tectonic setting, palaeomagnetic & geochronological constraints, physical, biological, and chemical stratigraphy, and descriptions of the glaciogenic and associated strata, including economic deposits.

*Journalism and Political Democracy in Brazil* Carolina Matos, 2008-03-20 Journalism and Political Democracy in Brazil is an investigation into the complexities of the relationship established between the media and the

government in the aftermath of the Brazilian dictatorship. It examines the role of the mainstream press in the process of the democratization of the Latin American nation from 1984 to 2002 and questions to what extent the communications industry was able to offer contributions to the creation of wider democratic spaces for debate in the media's public sphere. Matos concludes that the commercial media did have a role in advancing the cause of democracy in Brazil, though limited by political and economic constraints. By focusing on the analysis of key post-dictatorship political and presidential campaigns, this book discusses the inherent tension between the media and the Brazilian state and shows how crucial the impact of these campaigns was in the formation of power hierarchies in society and politics. An important work that highlights the struggle for the wider inclusion social and political players in the media's ongoing dialogue on democratization, Journalism and Political Democracy in Brazil provides a picture of the forms of media that have grown out of the diverse political interests of Brazilian society.
