Creole Language, Democracy, and the Illegible State in Cabo Verde Abel Djassi Amado, 2023-07-10 This book argues that the state in Cabo Verde is illegible since its operations, procedures, and processes are carried out through Portuguese, a language that most of the people do not understand. Consequently, the illegible state produces grave political consequences in overall political participation and the quality of democracy.

Brutality Garden Christopher Dunn, 2014-01-01 In the late 1960s, Brazilian artists forged a watershed cultural movement known as Tropicalia. Music inspired by that movement is today enjoying considerable attention at home and abroad. Few new listeners, however, make the connection between this music and the circumstances surrounding its creation, the most violent and repressive days of the military regime that governed Brazil from 1964 to 1985. With key manifestations in theater, cinema, visual arts, literature, and especially popular music, Tropicalia dynamically articulated the conflicts and aspirations of a generation of young, urban Brazilians. Focusing on a group of musicians from Bahia, an impoverished state in northeastern Brazil noted for its vibrant Afro-Brazilian culture, Christopher Dunn reveals how artists including Caetano Veloso, Gilberto Gil, Gal Costa, and Tom Ze created this movement together with the musical and poetic vanguards of Sao Paulo, Brazil's most modern and industrialized city. He shows how the tropicalists selectively appropriated and parodied cultural practices from Brazil and abroad in order to expose the fissure between their nation's idealized image as a peaceful tropical garden and the daily brutality visited upon its citizens.

Trincheras Sites in Time, Space, and Society Suzanne K. Fish, Paul R. Fish, M. Elisa Villalpando, 2018-07-02 The intriguing hilltop archaeological sites known as cerros de trincheras span almost three millennia, from 1250 BC to AD 1450. Archaeologists have long viewed them as a unitary phenomenon because they all have masonry architecture and occur mostly on low volcanic peaks. Scattered across the southwestern United States and northwestern Mexico, these sites received little comprehensive research until the 1980s. This first volume in the Amerind Studies in Archaeology series from the Amerind Foundation documents considerable variability among trincheras sites with respect to age, geographic location, and cultural affiliation. This multi-author volume integrates a remarkable body of new data representing a textbook-like array of current research issues and methodologies in the archaeology of the region. Scholars from the United States and Mexico offer original research on trincheras sites in Chihuahua, Sonora, Arizona, and New Mexico. Scales of focus range from intensive intrasite sampling to the largest contiguous survey in the region. Authors incorporate spatial analyses, artifact studies, environmental and subsistence data, ethnographic analogs, ethnohistorical records, cross-cultural comparisons, archaeology, and archival resources. The volume's discussions contribute innovative approaches to worldwide interpretations of landscapes marked by hilltop sites. Contributors present meticulous research arguing that many trincheras sites were primarily used for habitation and ceremonial rites, in addition to previously predominant views of them as defensive refuges. Because trincheras occupations date from the late preceramic era to shortly before Spanish contact, authors relate them to early forms of agriculture, the emergence of village life, the appearance of differentiated settlement systems, and tendencies toward political and ritual centralization. Detailed maps and figures illustrate the text, and close-up aerial photographs capture the visual essence of the sites, highlighted by a section that includes color photographs and an essay by renowned photographer Adriel Heisey. The Desert is No Lady Vera Norwood, Janice J. Monk, 1997 Over the past century, women artists and writers have expressed diverse creative responses to the landscape of the Southwest. *The Desert Is No Lady* provides a cross-culture perspective on women by examining Anglo, Hispanic, and Native American women's artistic expressions and the effect of their art in defining the southwestern landscape. *The Desert Is No Lady* has been made into a motion picture of the same title by *Women Make Movies*, New York, NY A beautifully crafted book. . . . Although it varies in intensity, the response of women to the environment is virtually always different from the male frontiersman's view of the land as inanimate, boundless, conquerable and controllable. 1000 Great Everyday Wines DK, 2011-09-19 We live in a time when it is possible to enjoy excellent wine without spending a fortune. Whatever your preferred style, there is superb value to be found if you know what to look for. This new guide to the best everyday wines tells you everything you need to know for buying and enjoying wine at an affordable price, meaning you need never overspend on an average bottle again. When we say everyday wines, we are talking about wines from the great wineries of the world that cost much less than those properties' flagship wines. Wines that a person of above average income could conceivably afford to drink two-to-three times per week. These should be wines with personality, definitely more sophisticated and authentic than, say Two-Buck Chuck or a generic Merlot from Languedoc. They should show regional characters, be labeled perhaps Haut Medoc and not Bordeaux, Monterrey County and not California, Barossa Valley rather than general Southeast Australia, etc. First and foremost, this book contains lots and lots of recommendations. A new generation of wine writers from around the world have looked in detail at the region(s) they know best and between them have picked out over a thousand superb, yet affordable, wines in every style. For most entries, a bottle or label image

appears alongside the text to make it quick and easy to spot these recommended wines on a crowded liquor store or supermarket shelf. Beyond these listings of wines and producers is a wealth of information to expand your knowledge and understanding of the world of wine. A series of feature spreads looks at the most significant varietals, explaining their particular characteristics, detailing where the best Old and New World examples come from, and suggesting foods they work well with. A further series of features focuses on the enjoyment of wine, dispensing practical advice on how to get the most from the experience: subjects include hosting a wine tasting, storing wine, and navigating the wine list in a restaurant. Compiled with as much care and attention to detail as any book on fine wine, 1,000 Great Everyday Wines is the only choice for the budding wine enthusiast who cares about getting great value for money.

Archipelago Tourism Godfrey Baldacchino,2016-03-09 Exploring the conceptual insights provided by the archipelagic 'twist' in the context of tourism principles, policies and practices, this volume draws on an international series of case studies to analyse best practice in branding, marketing and logistics in archipelago tourist destinations. The book asks and seeks to answer such questions as: How to 'sell' a multi-island destination, without risking a message that may be too complex and diffuse for audiences to grab on to? Does one encourage visitors to do 'island hopping'; and, if so, how and with what logistic facilities? How does one ascribe specific island destinations within an overall archipelago brand? Would smaller islands rebel against a composite branding strategy that actually benefits other islands? How does one read or craft transport policies as a function of the 'reterritorialisation' of a multi-island space? This book pioneers the exploration of the archipelago as tourism study focus (and not just locus); a heuristic device for rendering islands as sites of different tourism practices, industries and policies, but also of challenges and possibilities.

The Renaissance Bazaar Jerry Brotton,2003-05-22 More than ever before, the Renaissance stands as one of the defining moments in world history. Between 1400 and 1600, European perceptions of society, culture, politics and even humanity itself emerged in ways that continue to affect not only Europe but the entire world. This wide-ranging exploration of the Renaissance sees the period as a time of unprecedented intellectual excitement and cultural experimentation and interaction on a global scale, alongside a darker side of religion, intolerance, slavery, and massive inequality of wealth and status. It guides the reader through the key issues that defined the period, from its art, architecture, and literature, to advancements in the fields of science, trade, and travel. In its incisive account of the complexities of the political and religious upheavals of the period, the book argues that Europe's reciprocal relationship with its eastern neighbours offers us a timely perspective on the Renaissance as a moment of global inclusiveness that still has much to teach us today.

What is Life? The Next Fifty Years Michael P. Murphy,Luke A. J. O'Neill,1997-03-13 Erwin Schrödinger's book What is Life? had a tremendous influence on the development of molecular biology, stimulating scientists such as Watson and Crick to explore the physical basis of life. Much of the appeal of Schrödinger's book lay in its approach to the central problems in biology - heredity and how organisms use energy to maintain order - from a physicist's perspective. At Trinity College, Dublin a number of outstanding scientists from a range of disciplines gathered to celebrate the fiftieth anniversary of What is Life? and following Schrödinger's example fifty years previously, presented their views on the current central problems in biology. The contributors to this volume include Stephen Jay Gould, Roger Penrose, Jared Diamond, Manfred Eigen, John Maynard Smith, Christien de Duve and Lewis Wolpert. This collection is essential reading for anyone interested in biology and its future.
