**Escape Emerald** 2 Bill H. Ritchie, 2024-03-27 Disclosure: This description was prompted and edited by Bill Ritchie, in Microsoft's current Copilot, an AI text generator for the second volume of Bill H. Ritchie's two-part autobiography. We traverse the years from 1991 to 2023. Ritchie, a trailblazer in the art world continues his life story. In the first book he told how he embarked on a remarkable odyssey that defied convention and reshaped the art, craft, and design of fine art printmaking. At the tender age of 24, Ritchie secured a groundbreaking position—the youngest ever—in the vibrant city of Seattle. His appointment as a teaching artist in fine art printmaking at the University of Washington marked the beginning of a transformative chapter. But this was no ordinary academic journey; Ritchie's innovative spirit would soon set him apart, a maverick in academe. The traditional classroom was too confining for Ritchie. Driven by a hunger for exploration, he wove technology into his art courses in the 1980s. Bill Ritchie's experiments disrupted the staid printmaking department and shocked the UW School of Art. Forced to leave the stifling ivory towers, by the 1990s the emergence of electronic arts opened with the Internet and would extend the boundaries of printmaking. Ritchie's vision blurred the lines between historic creativity and cutting-edge technology, birthing a new era dating back to the Paleolithic era when printmaking was invented. Ritchie pushed the envelope. Printmaking was no longer confined to ink and paper; it now danced with video, performance, computer graphics, and games. His colleagues, patrons, and former students watched in awe, wondering at the audacity of his moves. Telling all, Ritchie weaves rich, detailed tales. In his printed books he placed thousands of pictures to enliven the narrative, capturing moments

shared with those who left their marks on his journey. QR codes link videos and backstories, bridging epochs—from prehistoric cave paintings to the digital age. The echoes of ancient handprints resonate, showing that explication transcends time if replicated creatively. In a world illuminated and echoed by electronic media, Ritchie poses a poignant question: Is there hope? As climate change and global stressors threaten the future, his words resonate. Whether through brushstrokes or those fleeting, elusive pixels and here in eBook form and auxiliary Read Aloud option, Ritchie's legacy endures—a beacon for students of all ages, urging them to embrace creativity, defy boundaries, and find hope in the interplay of art, technology, and the human imagination.

**To Think Christianly** Charles E. Cotherman, 2020-04-28 2020

ECPA Top Shelf Book Cover Award In the late 1960s and on into the next decade, the American pastor and bestselling author Francis Schaeffer regularly received requests from evangelicals across North America seeking his help to replicate his innovative learning community, L'Abri, within their own contexts. At the same time, an innovative school called Regent College had started up in Vancouver, British Columbia, led by James Houston and offering serious theological education for laypeople. Before long, numerous admirers and attendees of L'Abri and of Regent had launched Christian study centers of their own—often based on or near university campuses—from Berkeley to Maryland. For evangelical baby boomers coming of age in the midst of unprecedented educational opportunity and cultural upheaval, these multifaceted communities inspired a generation to study, pray, and engage culture more faithfully—in the

words of James M. Houston, to think Christianly. In this compelling and comprehensive history, Charles Cotherman traces the stories of notable study centers and networks, as well as their influence on a generation that would reshape twentieth-century Christianity. Beginning with the innovations of L'Abri and Regent College, Cotherman elucidates the histories of The C. S. Lewis Institute near Washington, DC R. C. Sproul's Ligonier Valley Study Center in Stahlstown, Pennsylvania New College Berkeley The Center for Christian Study at the University of Virginia The Consortium of Christian Study Centers, which now includes dozens of institutions Each of these projects owed something to Schaeffer's and Houston's approaches, which combined intellectual and cultural awareness with compelling spirituality, open-handed hospitality, relational networks, and a deep commitment to the gospel's significance for all fields of study—and all of life. Cotherman argues that the centers' mission of lay theological education blazed a new path for evangelicals to fully engage the life of the mind and culture. Built on a rich foundation of original interviews, archival documents, and contemporary sources, *To Think Christianly* sheds new light on this set of defining figures and places in evangelicalism's life of the mind.
