🔍 **Victorian Music for the English Concertina** Allan W. Atlas, 2009-01-01 Developed by the physicist Charles Wheatstone around 1830, the English concertina was extremely popular in art-music circles of Victorian England until late in the nineteenth century. This edition includes fifteen works that present a cross section of the instrument's concert and salon repertoires, and includes music by the mainstream composers George Alexander Macfarren, Julius Benedict, and Bernhard Molique, as well as original compositions by such concertina virtuosos as Giulio Regondi and Richard Blagrove. There are also pieces by two little-known women composers/arrangers, Hannah Rampton Binfield and Rosina King (the instrument was particularly popular with women), and an arrangement by George Case of a well-known hymn tune, which shows how the baritone concertina was used in small parish churches. Finally, there are two works for concertina ensembles, a duo for treble and baritone concertina by Blagrove and a transcription by Regondi for concertina quartet of the final movement of Mozart's Symphony No. 38 Prague.

🔍 **Complete Songs for Solo Voice and Piano, Part 1** Hamish MacCunn, 2016-01-01 Britain, long revered for its choral music and partsongs, had largely neglected art songs since the Elizabethan era. The middle of the nineteenth century witnessed efforts to revive the genre, particularly in the works of Sir C. Hubert Parry and Sir Charles Villiers Stanford. The following generation, including the Scottish composer Hamish MacCunn (1868-1916), built on the foundations laid by Parry and Stanford and served as the bridge to the vocal music of Ralph Vaughan Williams, Sir Edward Elgar, Ivor Gurney, John Ireland, and ultimately Benjamin Britten. Though best known for his Scottish-influenced compositions, MacCunn composed over 100 songs that, free from national constraints, are some of the most refined and sophisticated examples of his music. Almost no modern editions of MacCunn's songs exist, though many were published during the composer's lifetime. The current two-part edition presents the composer's 102 extant songs. Part 1 contains 53 individual songs; Part 2 presents the songs that were first published as sets.

🔍 **Proceedings of the 2nd International Conference on Languages and Arts across Cultures (ICLAAC 2022)** I. G. A. Lokita Purnamika Utami,Ni Putu Era Marsakawati, 2022-12-14 This is an open access book. The 2nd International Conference on Languages and Arts across Cultures (ICLAAC) aims to provide a venue for lecturers, teachers, researchers, as well as language and art professionals to share their insights, experiences, and ideas. This conference will also bridge the knowledge gap by presenting their works on languages and arts issues. The event will provide limitless resources and opportunities to interact with prominent scholars in this field worldwide. This will allow us to significantly expand our existing global network. The conference theme will give us a better understanding of humans through languages and arts. The development of cultural value occurring in today's global communities is certainly a stimulant for artist and language users in creating their artifacts. Restoring cross-cultural understanding is a bridge to understanding the complexities of language, culture, and the role of art in them. Cross-cultural understanding refers to people's attempts to understand one another, particularly between people of different cultural backgrounds. Significant cultural and artistic creations are incorporated into a language that promotes scholarly debate and scientific comprehension. As an attempt to minimize the spread of COVID-19 virus, the conference presenters will be invited to present their papers online via Zoom.

🔍 **Three Chamber Works for Piano and Strings** John Knowles Paine, 1991-01-01 John Knowles Paine (1839-1906) was among the first American composers successfully to pattern his works after mid-century European models, in particular, those favored and taught in German and German-American circles. Although his orchestral, choral, piano, and organ music has become better known through modern publications, his chamber music has remained largely untapped. Presented in this edition are three works: the Sonata for Piano and Violin, op. 24; the Romanza and Humoreske for Piano and Cello, op. 30; and the Larghetto and Humoreske for Piano, Violin, and Cello, op. 32. All the music in this volume is published here for the first time. Representative of Paine's middle and later style periods, these works were performed frequently and subjected to major revisions. This edition is based on the latest autographs and includes references to revisions of earlier versions --

In A Spark in Darkness, we continue to follow Kat as she tries to reach Raven Rader, a tough woman who has closed her heart to God. However, when dark shapes begin haunting Raven, will she turn to Kat for help? In The Beginning of the End, we follow Raven as she tries to navigate the world after the rapture and after the introduction of a virus tearing the remaining population apart. Will she embrace her newly appointed role as leader? Finally, in Faith Over Fear, we follow Raven and her brave band as they try to save as many people as they can before the mark is put in place. When they lose people along the way, will she remain strong enough to guide them to the end?
