Hollingsword Franklin Gregory

Military Helicopters Karen E. Bledsoe, Glen Bledsoe, Taylor Baldwin Kiland, 2015-07-15 The military uses helicopters for many reasons. Each chopper is designed for its specific purpose: transporting goods and troops, sending rockets and missiles at the enemy, or some combination thereof. Learn about the different kinds of military helicopters from the men and women who use them every day.

Helicopters at War Bill Gunston, 1977

United States Military Helicopters Michael Green, 2017-10-30 The helicopter came on the scene too late to play other than a minor role in the Second World War but by the Korean conflict the Bell H-13 Sioux, OH-23 Raven, and Sikorsky H-19 Chickasaw were in service. It was in Vietnam that the US military helicopters really came into their own and the best known were the Bell UH-1 Iroquois (known as the Huey), the Boeing CH-47 Chinook, and the massive CH-53 Mojave. The USAF combat search and rescue Jolly Green Giant was indispensable. Attack helicopters have evolved from the early Huey Cobra or Snake and the Boeing AH-64 Apache in the late 80s to when the Sikorsky UH-60 series became the military general purpose chopper. All these formidable aircraft and many more are covered in detail in this superbly illustrated and comprehensive book.

Helicopters Ian Graham, 1989 An introduction to the characteristics and uses of different types of helicopters.

Gunship Ace Al J. Venter, 2012 A former South African Air Force pilot who saw action throughout the region from the 1970s on, Neall Ellis is the best-known mercenary combat aviator alive. Apart from flying Alouette helicopter gunships in Angola, he has fought in the Balkan War (for Islamic forces), tried to resuscitate Mobutu's ailing air force during his final days ruling the Congo, flew Mi-8s for Executive Outcomes, and thereafter an Mi-8 fondly dubbed 'Bokkie' for Colonel Tim Spicer in Sierra Leone. Finally, with a pair of aging Mi-24 Hinds, Ellis ran the Air Wing out of Aberdeen Barracks in the war against Sankoh's vicious RUF rebels.

The Helicopters Warren R. Young, 1982 An illustrated history of helicopters with a description of how they operate.

Helicopters and Autogiros Charles Gablehouse, 1967

MASH Angels Richard C. Kirkland, 2009 Richard Kirkland was one of the pilots who pioneered the use of helicopters for battlefield medical evacuation, and in this book he recounts his experiences on the front lines of rescue flying and military medicine ... For the helicopter was the perfect partner for another revolution in military medical care -- the Mobile Army Surgical Hospital, or MASH--Page 4 of cover

Fifty Years Before the (Rotor) Mast Ben Van Etten, 2018-06-08 This book is a memoir of 50 years flying helicopters in a variety of situations. Included are rescues, combat operations, mountain and off-shore flying, medical evacuations, flight instruction and numerous flight missions that require pushing the flight envelope to the maximum. Highlighted are Ben Van Etten's five years as a flight captain with Air America, Inc. in Thailand and the unpublicized war in Laos. During that period the author describes in detail his interaction with other pilots and his customers, primarily the CIA. The book also includes geographical and historical observations from a first person perspective. And a vivid description from inside the cockpit during many lifesaving missions. This book should tweak the interest of aviators and non-aviators alike.

The Chopper Boys Al J. Venter, 1994 Covers the history of helicopter use throughout Africa, from the war in Rhodesia (1962-80) to the last days of Somalia.

The Chinese Navy Institute for National Strategic Studies, 2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's naval modernization.

Danger Close Amber Lane Smith, 2016 The inspiring and riveting first-ever memoir of active combat by a female helicopter pilot in Iraq and

Afghanistan. Amber Smith flew into enemy fire in some of the most dangerous combat zones in the world. One of only a few women to fly the Kiowa Warrior helicopter whose mission, armed reconnaissance, required its pilots to stay low and fly fast, perilously close to the fight Smith deployed to Iraq and Afghanistan as a member of the elite 2-17 Cavalry Regiment, part of the legendary 101st Airborne Division, the Screaming Eagles. She rose to Pilot-in-Command and Air Mission Commander in the premier Kiowa unit in the Army, repeatedly flying into harm's way during her 2005 and 2008 deployments. In *Danger Close*, Smith takes us into the heat of battle, enabling readers to feel, hear, and smell the experience of serving as a combat pilot in high-intensity warfare. This is an edge-of-the-seat story of learning to perform under pressure and persevere under extreme duress both in action against an implacable enemy and within the elite boys' club of Army aviation. Smith's unrelenting fight for both mastery and respect delivers universal life-lessons that will be useful to any civilian, from earning your spurs as a newbie to embracing the suck through setbacks that challenge your self-confidence to learning to trust your gut as a veteran of your profession. Intensely personal, cinematic, poignant, and inspiring, *Danger Close* is a war story on one hand, and also the story of a brave pilot who fought for and earned a lifetime membership in the ranks of the best of the best.

Kiss the Sky Jan Hornung, 2002-05-27 *KISS the Sky: Helicopter Tales* is a humorous look at flying helicopters. Whether you fly fixed-wing or rotary-wing, or you know someone's second cousin twice removed who flies kites, you can fly along with Bubba Huey in this hilarious book that will have pilots and pilot wannabes of all ages rolling with laughter. Included in the book is a history of helicopter flight, women in aviation, and a lesson in how helicopters fly.
