The Breakthrough Gwen Ifill, 2009-10-27 In *The Breakthrough*, veteran journalist Gwen Ifill surveys the American political landscape, shedding new light on the impact of Barack Obama's stunning presidential victory and introducing the emerging young African American politicians forging a bold new path to political power. Ifill argues that the Black political structure formed during the Civil Rights movement is giving way to a generation of men and women who are the direct beneficiaries of the struggles of the 1960s. She offers incisive, detailed profiles of such prominent leaders as Newark Mayor Cory Booker, Massachusetts Governor Deval Patrick, and U.S. Congressman Artur Davis of Alabama (all interviewed for this book), and also covers numerous up-and-coming figures from across the nation. Drawing on exclusive interviews with power brokers such as President Obama, former Secretary of State Colin Powell, Vernon Jordan, the Reverend Jesse Jackson, his son Congressman Jesse Jackson Jr., and many others, as well as her own razor-sharp observations and analysis of such issues as generational conflict, the race/ gender clash, and the black enough conundrum, Ifill shows why this is a pivotal moment in American history. *The Breakthrough* is a remarkable look at contemporary politics and an essential foundation for understanding the future of American democracy in the age of Obama.

Showdown Arthur Eedle, 2008-07-29

Shocked by the Bible Joe Kovacs, 2008-09-28 *Shocked by the Bible* sets the record straight with well-researched, controversial, myth-breaking assertions about what the Bible really does—and doesn't—say. And guess on which day the Bible says Jesus died. Believe it or not, the Good Book doesn't mention Friday, and even more surprisingly, while the Bible says Jesus rose from the grave, it does not say it occurred Sunday morning. Remember, Jesus' followers found an empty tomb then. But don't feel bad if you've always assumed otherwise. Like countless millions of people, you've just been misinformed, misled or even (dare we say) lied to about what the Bible actually says. In a stunning investigation, news veteran Joe Kovacs goes on a mission to help both Christians and non-Christians alike find out what the Bible really contains, and what it doesn't. *Shocked by the Bible: The Most Astonishing Facts You've Never Been Told* is an educational juggernaut that relies solely on the Holy Bible to reveal hundreds of Scriptural facts that many people of all persuasions simply don't know. The book instantly skyrocketed to the No. 1 position in three Bible-related categories on Amazon.com. I'm among the biggest fans of the Bible of all time, says Kovacs. My goal is to educate people about the solid truth of Scripture and to stop the spread of erroneous information. I want people to crack open their Bibles and see with their own eyes what's actually printed on the pages, and what's not. It's shocking! According to Scripture, you won't find Three Wise Men mentioned anywhere in the story of Jesus' birth. For that matter, none are said to have shown up at the manger in Bethlehem. The truth straight from your own Bible is that an unspecified number of wise men first met Jesus as a young child in a house, not a babe in a manger, and it might have been more than a year after He was born. Go ahead, look it up for yourself. Also, according to Scripture, you won't find a single mention of Easter eggs, but you will find God warning His people not to have anything to do with a pagan fertility goddess, whose name is synonymous with Easter. Yes, I'm a Bible-believing Christian, says Kovacs. But I'm not here to convert anyone. People are free to believe whatever they wish and can come to their own conclusions. I just want to show them the biblical record is often very different from what many assume. Not only will Christians love this book, but I think Jews, Muslims and even agnostics and atheists will get a kick out of it as well.

Reaching God Speed Joe Kovacs, 2022-01-25 The answer is surprising, and what we're about to learn will wake us up to a reality most of us never knew existed. The reason we're so oblivious is because we've all been operating at human speed, relying on our own physical power and our five senses. But there is something extremely important we've all been missing. It holds the key to everything good—the key to life, success, happiness, peace of mind, and understanding beyond our wildest imagination. It's perhaps the best-kept secret in the history of mankind and it packs a staggering, invigorating message that can change your life for the better—improving understanding, eliminating anxiety, and helping to extend your living years indefinitely. All we have to do is open our eyes and ears. We're all inundated with this secret at all times. It's present in our favorite songs and movies, the stories we tell our children, and even in every commercial campaign! The secret is broadcast in famous news stories including the coronavirus pandemic, the sinking of the Titanic, or the collapse of the World Trade Center on 9/11. It's in ordinary life activities such as breathing, sleeping, waking up, traveling, sex, and getting married and changing one's name. Now, bestselling author and award-winning journalist Joe Kovacs reveals the solution—cracking the divine code that shifts our minds from operating at slow, human speed and making the jump to the incredibly quick “God speed.” Hundreds of ancient mysteries and prophecies are instantly unsealed as the master key that unlocks the mystery of everything is now in your hands.

Climategate Brian Sussman, 2010 Traces the origins of the climate scare, guiding the reader from the minds of Marx and Engels in the 1800s, to the global governance of the United Nations.

Mass Surveillance and State Control E. Cohen, 2010-10-25 This book details the factors contributing to the degenerative trend of mass, warrantless government surveillance which imperils civil liberties, and specifies recommendations for constructive change. It also provides a platform for grassroots efforts to stop the decline before it is too late.

Eco-tyranny Brian Sussman, 2012 Once one of America's most popular television meteorologists, Sussman believes that the environmental movement is a Trojan horse in an ongoing war to end America's status as a superpower.

Deciding What's True Lucas Graves, 2016-09-06 Over the past decade, American outlets such as PolitiFact, FactCheck.org, and the Washington Post's Fact Checker have shaken up the political world by holding public figures accountable for what they say. Cited across social and national news media, these verdicts can rattle a political campaign and send the White House press corps scrambling. Yet fact-checking is a fraught kind of journalism, one that challenges reporters' traditional roles as objective observers and places them at the center of white-hot, real-time debates. As these journalists are the first to admit, in a hyperpartisan world, facts can easily slip into fiction, and decisions about which claims to investigate and how to judge them are frequently denounced as unfair play. *Deciding What's True* draws on Lucas Graves's unique access to the members of the newsrooms leading this movement. Graves vividly recounts the routines of journalists at three of these hyperconnected, technologically innovative organizations and what informs their approach to a story. Graves also plots a compelling, personality-driven history of the fact-checking movement and its recent evolution from the blogosphere, reflecting on its revolutionary remaking of journalistic ethics and practice. His book demonstrates the ways these rising organizations depend on professional networks and media partnerships yet have also made inroads with the academic and philanthropic worlds. These networks have become a vital source of influence as fact-checking spreads around the world.

Neoconservatism Douglas Murray, Associate Professor of English Douglas Murray, 2010-06-29 *Neo conservatism: Why We Need It* is a defense of the most controversial political philosophy of our era. Douglas Murray takes a fresh look at the movement that replaced Great-Society liberalism, helped Ronald Reagan bring down the Wall, and provided the intellectual rationale for the Bush administration's War on Terror. While others are blaming it for foreign policy failures and, more extremely, attacking it as a "Jewish cabal," Murray argues that the West needs Neo conservatism more than ever. In addition to explaining what Neo conservatism is and where it came from, he argues that this American-born response to the failed policies of the 1960s is the best approach to foreign affairs not only for the United States but also for Britain and the West as well.

The Homebrew Industrial Revolution Kevin A. Carson, 2010 A history of the rise and fall of Sloanist mass production, and a survey of the new economy emerging from the ruins: networked local manufacturing, garage industry, household microenterprises and resilient local economies.

I Never Called It Rape Robin Warshaw, 2019-04-09 A new edition of the 1988 classic text that exposed the extreme prevalence of rape in America, coining the term acquaintance rape and establishing the disturbing statistics on sexual assault that still hold just as true today—now featuring an original preface from Gloria Steinem, a new introduction by Salamishah Tillet, an updated afterword by Mary P. Koss, PH.D., as well as an updated resources section. “Essential. . . . It is nonpolemical, lucid, and speaks eloquently not only to the victims of acquaintance rape but to all those caught in its net.”—Philadelphia Inquirer In 1988, Robin Warshaw wrote *I Never Called It Rape*, the ground-breaking book that revealed a staggering truth: 25% of women were the victims of rape or attempted rape. Over 80% of these women knew their assailants. Warshaw based her reportage on the first large-scale study into rape ever, conducted by Ms. Magazine in the late 80s. Thirty years later, we now have a wealth of statistics on rape. The

disturbing truth is that the figures have not diminished. That our culture enables rape is not just shown by the numbers—the outbreak of allegations against serial rapists from Bill Cosby to Harvey Weinstein and the 2016 presidential election of Donald Trump, a man who was recorded bragging about sexual assault, have further amplified this horrifying truth. With over 80,000 copies sold to date, *I Never Called It Rape* has served as a guide to understanding rape as a cultural phenomenon for tens of thousands—providing women and men with strategies to address our rape endemic; survivors with the context and resources to help them heal from their experiences; and pulling the wool from all our eyes on the pervasiveness of rape and sexual assault today. As relevant today as when it was first published, this new edition features Warshaw’s original report and her 1994 Introduction, as well as an original Preface from Gloria Steinem, a new Introduction by Salamishah Tillet on how the cultural landscape has evolved since the 1980s, an updated Afterword by Mary P. Koss, PH.D., examining the ways she would approach the research she did for Ms. differently today, as well as an updated resources section.

What Women Really Want Gina Loudon, Morgan Brittany, Ann-Marie Murrell, 2014 In the 1950s women were seen as docile homemakers due to the propaganda of the vocal but few feminazis of the 1960s. The 1970s through the 1990s women experienced the fallout of the so-called liberation of women with a rise of angst and self-consciousness that led to depression, image issues, and guilt. Today the traditional woman, the new lady, is standing up to the lies of the culture and media and proclaiming, enough! Women don't want to be enslaved, patronized, labeled, or invaded. What women really want is to be empowered to be able to make a difference in the world beyond the trivial things. Women really want freedom of religion, a strong family, a man who stands for something, a voice, the freedom to protect herself, prosperity, choices. Women really want to do the right thing. Women really want to be warriors of love. Female powerhouses and original PolitiChicks Murrell, Brittany, and Loudon sound the clarion call for conservative women across America to reclaim the power of the grassroots activist by fundamentally transforming their lives and work in bold ways. Women can be warriors without burning bras. Women can be strong without emasculating their husbands and sons. Women can be mothers without coddling or compromise. Most importantly, women can live out their faith without imposed compromise of her convictions. Women can be truly feminine, and it is in that design, that she is most competent and capable of truly changing the world. What Women Really Want reveals the political conversions these three beautiful and dynamic conservative dynamos. It explains the bad and the ugly of party politics, and the reality of new parties. What Women Really Want sheds light on the victories and pitfalls, the insights and shortcomings of a party in disarray, and will inspire today's women to fight to reclaim the greatness of this country as outlined so powerfully in the Declaration of Independence, so profoundly in the Bill of Rights, and so simply by Abraham Lincoln in the Gettysburg Address! What Women Really Want is a call to women across this great land to wake up! And take a stand against the cultural forces that are fighting tooth and nail to bring destroy their spirit and their families. Time is short and the call is great. Discover your hidden passion and find out what women really want.

Alice in Wonderland and the World Trade Center Disaster David Icke, 2002 Since the horrendous day of September 11th 2001, the people of the world have been told the Big Lie. Wings of Gold Beverly Weintraub, 2021-12-15 On Feb. 2, 2019, the skies over Maynardville, Tennessee, filled with the roar of four F/A-18F Super Hornets streaking overhead in close formation. In each aircraft were two young female flyers, executing the first all-woman Missing Man Formation flyover in Navy history in memory of Captain Rosemary Mariner — groundbreaking Navy jet pilot, inspiring commander, determined and dedicated leader — whose drive to ensure the United States military had its choice of the best America had to offer, both men and women, broke down barriers and opened doors for female aviators wanting to serve their country. Selected for Navy flight training as an experiment in 1972, Mariner and her five fellow graduates from the inaugural group of female Naval Aviators racked up an impressive roster of achievements, and firsts: first woman to fly a tactical jet aircraft; first woman to command an aviation squadron; first female Hurricane Hunter; first pregnant Navy pilot; plaintiff in a federal lawsuit that overturned limits on women's ability to fulfill their military duty. Leading by example, and by confrontation when necessary, they challenged deep skepticism within the fleet and blazed a trail for female aviators wanting to serve their country equally with their male counterparts. This is the story of their struggles and triumphs as they earned their Wings of Gold, learned to fly increasingly sophisticated jet fighters and helicopters, mastered aircraft carrier landings, served at sea and reached heights of command that would have been unthinkable less than a generation before. And it is the story of the legacy they left behind, one for which the women performing the Navy’s first Missing Woman Flyover in Mariner’s memory owe a debt of gratitude.

to. You'll discover that a human being has already been cloned; Joseph McCarthy was not paranoid; museums refuse to display artifacts that conflict with the theory of evolution; the CIA has admitted to involvement in the drug trade; parents don't affect who their children become; plus further revelations involving Columbine, WWII, textbooks, Al Gore, George W. Bush, Timothy Leary and much more.
