The Palgrave Handbook of Development Economics

Machiko Nissanke, José Antonio Ocampo, 2019-08-12 This Handbook responds to the needs and aspirations of current and future generations of development economists by providing critical reference material alongside or in relation to mainstream propositions. Despite the potential of globalisation in accelerating growth and development in low and middle-income countries through the spread of technology, knowledge and information, its current practice in many parts of the world has led to processes that are socially, economically and politically and ecologically unsustainable. It is critical for development economists to engage with the pivotal question of how to change the nature and course of globalisation to make it work for inclusive and sustainable development. Applying a critical and pluralistic approach, the chapters in this Handbook examine economics of development paths under globalisation, focusing on sustainable development in

social, environmental, institutional and political economy dimensions. It aims at advancing the frontier of development economics in these key aspects and generating more refined policy perspectives. It is critically reflective in examining effects of globalisation on development paths to date, and in terms of methodological and analytical approaches, as well as forward-thinking in policy perspectives with a view to laying a foundation for sustainable development.

**International Perspectives on Early Childhood
Education and Care** Jan Georgeson, Jane
Payler,2013-02-16 There is a growing interest in
understanding how early years care and education is
organised and experienced internationally. This book
examines key influential approaches to early years care as
well as some less well-known systems from around the
world. In particular the book aims to: Inform those
studying early years about perspectives in other countries
Encourage critical thinking about issues, influences and

the complexities of early years provision around the world Promote critical reflection on students' own provision and the current context of that provision Each chapter provides an overview of early years provision and explores historical and current influences in context, as well as offering insights into daily life through short vignettes, longer case studies and commentary from practitioners. Whilst many approaches - such as Reggio Emilia, Te Whariki and Head Start - are widely admired, it is important for reflective practitioners to understand the motivation which gave rise to these influential approaches in their original context. Additionally, broadening understanding through information on less widely known systems, the book provides students with a good grounding in the international context of early years, the provenance of different early years approaches and principles, and the influences on their own countries' provision. Written in a straightforward and accessible style, the book is designed to meet the needs of students studying modules related to international perspectives on a range of foundation, bachelor and master's degrees in early years. Contributors: Verity Campbell-Barr, Federica Caruso, Carmen Dalli, Rebecca Carter Dillon, Annie Davy, Chandrika Devarakonda, Alena Drzalová, Hasina Banu Ebrahim, Susan Edwards, Dora Ho, Valerie Huggins, Anne Hunt, Kerstin Kööp, Éva Kovácsné Bakoski, Caroline Leeson, Beth Marshall, Nancy McDermott, Julia Morgan, Joce Nutall, Elin Eriksen Ødegaard, Philip Selbie, Paolo Sorzio, Manabu Sumida, Keang-ieng (Peggy) Vong, Karen Wickett "The book rightly challenges common assumptions about the value of Western perspectives of ECEC and skilfully enables the reader to recognize the various social, political and economic drivers and processes that have shaped early years pedagogy on a global level." Dr Janet Rose, Early

Years Education Award Leader, Bath Spa University, UK
“Given the ever increasing interest and importance of global early childhood education and care, this critically informed book offers valuable and challenging internationalised comparative arguments for students and academics at all levels.” Dr Guy Roberts-Holmes, Senior Lecturer, Early Years and Primary Education Department, University of London, UK
