The Soul of Success Nick Nanton, Esq.,Jack Canfield,2015-07-24 Success is a concept universally embraced but individually defined. Our definition of success truly depends on our individual goals. For example, your goal might be monetary, a physical accomplishment or a moral achievement. To flesh out this topic, we are adding a few comments made by famous and successful people in diverse fields - similar and familiar concepts to those put forward by the Premier Experts(r) in this book. Success is to be measured not so much by the position that one has reached in life as by the obstacles which he has overcome while trying to succeed. Booker T. Washington You can succeed best and quickest by helping others to succeed. Napoleon Hill The difference between a successful person and others is not a lack of strength, not a lack of knowledge, but rather a lack in will. Vince Lombardi Nothing can stop the man with the right mental attitude from achieving his goal; nothing on earth can help the man with the wrong mental attitude. Thomas Jefferson In our New Economy, the acquisition of success has been reformatted somewhat by business and industry even though its principles remain the same. The Electronic Revolution has changed the economic landscape as much as the Industrial Revolution. We now live more and more in real time and expect others to do the same. This era of instant communication has changed the ways in which we communicate and expect responses. To succeed today, it is useful, perhaps essential, to have a mentor. Errors will be made, but to minimize them will speed up

your journey. The Premier Experts(r) in this book will help you along the way. They have been there and know the road. Who would be better to guide you? They will illuminate your path to The Soul Of Success..

Pillars of Success Nick Nanton,Jw Dicks,Jack Canfield,2020-04-23 In working towards success, we wish to acquire pillars that best support and help us towards our mission--goals. These will often include gaining specific knowledge and developing new skillsets. We then use this knowledge gained from previous successes to move forward and achieve newer goals. Our foremost mission now becomes the accomplishment of our new goals; however, our current unique abilities may require us to acquire different pillars or methods to achieve them. The pillars successful people most o en utilize include specialized knowledge, planning, and perseverance. The greatest detracting elements are typically procrastination, inaction and analysis paralysis - these provide a convenient conduit to allow us to extract ourselves out of such ventures. To execute our plans, our desire to succeed must be greater than our fear of failure. The Celebrity Experts(R) in this book have achieved success in various fields. By observation and following their methods, we can reduce the time we spend experimenting with our own procedures - often a trial-and-error approach. These authors invariably tried and likely failed many times in their efforts to reach their goal, but their mentoring can save you untold amounts of time and heartbreak on your journey to success. They can show you PILLARS OF SUCCESS you will most likely need to accomplish your goal.
