**The Alpha Bodyguards Books 7-9** Sybil Bartel,2021-12-01  
From USA Today Bestselling author Sybil Bartel, the page-turning, heart-stopping, bestselling Alpha Bodyguard Series is now available in a series of boxsets! Former Special Forces Military Operatives come together in this series of Alpha Bodyguards who will stop at nothing to save the women they've sworn to protect. Come meet the dominant, sexy Alpha heroes who work for Luna & Associates! THE ALPHA BODYGUARDS BOOKS 7-9 features RELENTLESS, SHAMELESS and HEARTLESS! RELENTLESS: Resourceful. Resolute. Bodyguard. A single diagnosis, and I wasn't good enough. Not for college ball, not for my family, and not for the Marines. Medically discharged before I finished basic training, I was determined to prove myself. Landing a job as a bodyguard for the best security firm in the business was a second chance. It should've been my focus, but a sophisticated blonde walked through the lobby and dismissed me

with a single glance. Now she was going to find out how relentless a bodyguard could be. SHAMELESS: Bodyguard. Shadow. Warrior. The Marines trained me to be a weapon, and tactical warfare was in my blood. Then a mission went south and I was medically discharged. Too many years downrange, I didn't fit in the civilian world. Becoming a bodyguard seemed like a solid plan... until I got babysitting duty for a spoiled little rich girl. The only thing worse than the assignment was the client's smart mouth. She thought she could run it—all over me—and not suffer the consequences. Now she was about to find out how shameless a bodyguard could be. HEARTLESS: Bodyguard. Sentry. Explosives expert. There was a reason I was the only Explosive Ordnance Disposal technician in the Marines who'd never sustained any injuries. I didn't take chances, ever, but serving my country as an EOD apparently had a shelf life. Promoted off the front lines, I was given an assignment behind a desk. Instead, I took a civilian job. The security firm seemed like the better option... until a frightened client with haunted eyes lied to me about everything. Now she was going to find out how heartless a bodyguard could be. **The Ox Factor** Richard Duvall,2013-11-13 For years, an unsuspecting United States did not know that its entire defense establishment, from security satellites to requisition orders, fed all that data into a Chinese supercomputer hidden deep within Beijing. When the invasion force struck and wiped out the entire U.S. Pacific fleet, a full conquest of America seemed certain. At first. But where there are computers, there are also programmers, and the fate of the world may lie in one pair of hands: those belonging to the elusive and secretive Ox, the only one who knows how the Chinese were able to pull off their daring cyberattack. Among the many choices facing U.S. President Elizabeth Rutledge is whether to trust Ox and how far; how best to cripple the Chinese; and whether the Union should even be saved. In *The Ox Factor* novelist Richard Duvall explores the unthinkable scenario: a powerful foreign invasion in direct conflict with the indomitable spirit only to be found in the average

American. Not to be missed

**Free Market Criminal Justice** Darryl K. Brown, 2015-12-22  
Free Market Criminal Justice explains how faith in democratic politics and free markets has undermined the rule of law in US criminal process. America's unique political development, characterized by skepticism of government power, has restrained the state's role not only in the economic realm but also in key parts of its criminal justice systems. From charging decisions through trials or guilty pleas and appeals, legal safeguards against bias, wrongful convictions, and excessive punishment rely more on politics and laissez-faire economic ideas than on enforceable rules and duties. Prosecutorial discretion is checked not by legal standards but by popular elections, and plea bargaining law is wholly built on a faith in unregulated markets-in contrast to the systems in other common law countries that also have neoliberal economies, adversarial process, and high guilty plea rates. This book argues that democratic and market ideas have led to more partisan prosecutors, narrower duties of evidence disclosure, and to a right to defense counsel that carefully accommodates preexisting wealth inequalities. Most important, democratic and market values have diminished the responsibility of judges-and of the state itself-for the accuracy and integrity of court judgments. Paradoxically, skepticism of government has expanded state power, reduced checks on executive officials, marginalized juries, and contributed to record incarceration rates. In contrast to recent arguments for re-invigorating democracy in criminal process, Free Market Criminal Justice argues that, to strengthen the rule of law, US criminal justice needs less democracy, fewer market mechanisms, and

more law.

**Automobile Insurance Subrogation: In All 50 States**

Gary L. Wickert,2012-01-01 Automobile Insurance Subrogation: In All 50 States is the most thorough, comprehensive, and ambitious anthology of subrogation-related legal information and insurance resources ever put to paper. It is the last and most anticipated of the subrogation trilogy, and a book which will serve as the "bible" for any insurance company writing personal lines or commercial auto policies. It is destined to become the standard work and reference for attorneys, insurance companies, and subrogation industry professionals. Every year there are more than 7 million auto accidents in the United States with a financial toll of more than \$300 billion. Nearly 3 million people are injured and 42,636 people are killed. In the overwhelming majority of these accidents there is at least one party at fault. For virtually every one of these accidents, a policy of automobile insurance provides some sort of claim payments or benefits. In the vast majority of those claims, one or more insurance policies and/or applicable state law grants the insurer a right of subrogation against a negligent third party whose carelessness caused the accident. This book is the bible on subrogating those claims. This book covers the nuts and bolts of auto subrogation in all 50 states, covering every topic imaginable -- including PIP, Med Pay, UM/UIM, property claims, deductible reimbursement, no-fault subrogation and more. It surveys the laws of every state and provides descriptions of every type of auto coverage imaginable,

as well as the statutory, case law, and regulatory authority governing every aspect of auto subrogation. If you have subrogation responsibility involving auto claims, you need this book. It universally covers issues which are indelibly interwoven into the business of auto insurance, including a complete treatment of the laws of all 50 states and the District of Columbia relating to:

- Basic and Statutory Subrogation Rights •
- Mandatory vs. Optional Insurance Coverage •
- No-Fault Laws, PIP, Mini-Torts, and Loss Transfer Laws •
- Tort Limitations •
- Medical Payments Coverage and Subrogation •
- Uninsured/Underinsured Motorist Coverage and Subrogation •
- Collision/Property Subrogation •
- Release of Tortfeasor by Insured •
- Accord and Satisfaction: Accepting Partial Payments from Tortfeasor •
- Made Whole Doctrine •
- Common Fund Doctrine •
- Economic Loss Doctrine •
- Deductible Recovery and Reimbursement •
- Collateral Source Rule •
- Contributory Negligence/Comparative Fault •
- Seat Belt Laws and Defenses •
- Rental Cars, Loaner Vehicles, and Test Drivers •
- Bailment/Parking Lot Liability •
- Negligent Entrustment •
- Facing Multiple Claims In Excess of Liability Policy Limits •
- Conflict of Laws/Interstate Subrogation •
- Recovery of Attorney's Fees and Costs •
- Statutes of Limitations

It is a complete treatment -- A to Z -- of virtually every issue which the insurance claims or subrogation professional will face in the area of automobile insurance. It is like no legal treatise ever written and promises to be the most used reference in any insurance company.
