John Hickok

Reporting Indonesia Bill Tarrant, 2008 The Jakarta Post was born in 1983 when Suharto's repressive New Order regime was at its height and the media was muzzled. Five rival media companies came together to start an English-language daily that some saw as an experiment doomed to fail. But the newspaper's punchy editorials, clean presentation of the news, and quirky columns and features quickly made a mark with the growing expatriate community. Over the years, the Post developed a unique editorial culture of expatriates and multicultural Indonesians. And by the time Suharto was ousted, the newspaper had earned a reputation for testing the limits of censorship and for breaking stories. Reporting Indonesia: The Jakarta Post Story traces the birth and growth of a newspaper in a developing country against the backdrop of the tumultuous events of the past 25 years in the world's fourth-largest nation. The story of The Jakarta Post illuminates conflicting themes about journalism in Indonesia while taking the reader behind the scenes to reveal the boardroom conflicts and stresses in the newsroom. It is required reading for all students of journalism and media studies, as well as anyone interested in the struggles of independent media in the developing world. About the Author Bill Tarrant has been a correspondent, bureau chief and editor for Reuters in Asia for the past 22 years. He was among a group of editors that helped start The Jakarta Post in 1983. He is currently Deputy Editor, Politics and General News, for Thomson Reuters in Asia based in Singapore. He is married with two daughters.

Transforming Distressed Global Communities Fritz Wagner, Riad Mahayni, Andreas Piller, 2016-03-09 Many of our global cities are distressed and facing a host of issues: economic collapse in the face of rising expectations, social disintegration and civil unrest, and ecological degradation and the threats associated with climate change, including more frequent and more severe natural disasters. Our long-held assumptions about man and nature and how they interact are defunct. We realize now that we can no longer continue to build without addressing the long-term impacts of our actions and their spillovers. Energy and natural resources are finite. The way we configure economies has come into question. In the developed world, especially in the United States, infrastructure and the notions that underpin it are outdated. Meanwhile, the developing world is experiencing major, rapid transformations in lifestyles and economies that are affecting billions of people and requiring a whole new way of planning human settlements. Cities are the key to our future; they represent the most effective vehicle for positive advancements in the human condition and environmental change. This volume argues for the need to redesign and re-plan our cities in holistic ways that reflect our new understanding and relate to their diversity and multi-dimensionality. Presenting a range of case studies from around the world, this volume examines how these distressed cities are dealing with these issues in planning for their future. Alongside these empirical chapters are philosophical essays that consider the future of distressed cities. Bringing together a team of leading scholars, United Nations agencies, non-governmental organizations, private consulting firms, international organizations and foundations, and policy officials, this volume provides a unique and comprehensive overview on how to transform distressed communities into more livable places.

Asia-Pacific Disaster Management Simon Butt,Hitoshi Nasu,Luke Nottage,2013-10-29 The book outlines the regulatory environment for disaster prevention and management in broad social, economic and political context. The first half of the book focuses mainly on Japan, especially the '3-11' events: the earthquake and tsunami that devastated the Tohoku area on 11 March 2011 and the Fukushima Daiichi nuclear power plant radiation leaks. The second half focuses on the USA (the only other Asia-Pacific country to have experienced a serious nuclear emergency), Indonesia, China, New Zealand, Australia and international law. One question explored is whether socio-legal norms play different roles in preventing and managing responses to natural disasters compared to 'man-made' disasters. Another is how 'disaster law' interacts with society across very diverse societies in the disaster-prone Asia-Pacific region. The book also addresses the increasingly important roles played by international law and regional regimes for cross-border cooperation in disaster prevention and relief, including the functions played by military forces. Erudite, pragmatic, and charged with detailed, substantive knowledge of an astonishing range of contexts and research fields, this timely collection of important essays on the law and society of disaster management stands as an exemplary international academic response to the disasters of 11 March 2011. Serving Library Users from Asia John Hickok,2019-06-12 Asian populations are among some of the fastest growing cultural groups in the US. This book is a comprehensive guide to serving library users from 24 specific Asian countries. It begins with a broad overview of how libraries can better serve Asian communities and then devotes a chapter to each country, providing wealth of valuable resources.

Educational Sovereignty and Transnational Exchanges in Post-Secondary Indonesian Education Anita Abbott,2017-08-03 This book examines the effects of education exchange on educational sovereignty in Indonesia. Since independence, Indonesia has increasingly relied on the education programs of foreign providers. The author draws from critical education, dependency, and transnational and interdependence theories to highlight the defining features of educational sovereignty and demonstrate the role of state and non-state actors in its maintenance.

Human Rights Culture in Indonesia Maksimus Regus,2021-06-08 Drawing on human rights discourse and a study of the difficulties faced by religious minority groups (using the Ahmadiyya minority group as a case study), this book presents three interconnected challenges to human rights culture in Indonesia. First, it presents a normative challenge, describing the gap between philosophical and normative principles of human rights on one side and the overall problems and critical issues of human rights at national and local levels on the other. Second, it considers the political problems in developing and strengthening human rights culture. The political challenge addresses the ability (or inability) of the state to guarantee the rights of certain individuals and minority groups. Third, it examines the sociological challenge of majority-minority group relationships in human rights discourse and practices. This book describes the background of human rights in Indonesia and reviews the previous literature on the issue. It also presents a comprehensive review of the discourses about human rights and

political changes in contemporary Indonesia. The analysis focuses on how human rights challenges affect the situation of religious minorities, looking in particular at the Ahmadiyya as a minority group that experiences human rights violations such as discrimination, persecution, and violence. The study fills out its treatment of these issues by examining the involvement of actors both from the state and society, addressing also the politics of human rights protection.

My Jakarta, 2009 EVERY DAY, the Jakarta Globe newspaper publishes a column with a deceptively simple premise - we interview someone living in Jakarta and ask: what's your life here like? As we show in this selection of columns, the answers are far from simple. But then, so are the lives of the people you will meet in these pages. Inside you will find the street robber and gangster just trying to feed his family, the star student who happens to be a beauty queen and lawyer in her spare time, the 105-year-old masseur who has outlasted eight wives, the grammar teacher who is a punk rock god by night... The name of the column, *My Jakarta*, conveys the intimacy with which we all carry our hopes, experiences and dreams. Here you will get a glimpse of how others high and low relate to our steamy, unpredictable, dirty, vibrant, addictive city.

Politics in Contemporary Indonesia Ken M.P Setiawan, Dirk Tomsa, 2022-03-28 In *Politics in Contemporary Indonesia*, Ken M.P. Setiawan and Dirk Tomsa analyse the most prominent political ideas, institutions, interests and issues that shape Indonesian politics today. Guided by the overarching question whether Indonesia still deserves its famous label as a 'model Muslim democracy', the book argues that the most serious threats to Indonesian democracy emanate from the fading appeal of democracy as a compelling narrative, the increasingly brazen capture of democratic institutions by predatory interests, and the narrowing public space for those who seek to defend the values of democracy. In so doing, the book answers the following key questions: What are the dominant political narratives that underpin Indonesian politics? How has Indonesia's institutional framework evolved since the onset of democratisation in 1998? How do competing political interests weaken or strengthen Indonesian democracy? How does declining democracy affect Indonesia's prospects for dealing with its main policy challenges? How does Indonesia compare to other Muslim-majority states and to its regional neighbours? Up-to-date, comprehensive and written in an accessible style, this book will be of interest for both students and scholars of Indonesian politics, Asian Studies, Comparative Politics and International Relations.

Feminist Global Political Economies of the Everyday Juanita Elias, Adrienne Roberts, 2018-12-07 This collection

interrogates the multifaceted ways in which global transformations are constituted by deeply gendered socio-economic practices at the level of the 'everyday'. It brings feminist insights to bear on the emerging International Political Economy (IPE) debates about 'the everyday', showing how gender is key to understanding how political economy is enacted and performed at the local level, by non-elites, and via various cultural practices. Drawing on 'everyday' IPE and a longer-standing body of feminist scholarship that documents and theorizes the mutually constitutive nature of, on the one hand, global markets, and on the other, households, families, relations of social reproduction and gendered socio-economic practices, this collection charts the lived realities of people and communities across a wide range of sites and spaces of the global political economy. It considers how globalizing capitalism affects and is in turn affected by Argentine sex workers, Nepalese private security contractors, Canadian call centre workers, Southeast Asian domestic workers, workers and players in British bingo halls, working class households in the UK, and much more. It demonstrates, through detailed empirical research, that a gender lens is crucial for understanding how, and on what terms, individuals and households are becoming ever more enmeshed in capitalist social relations, and how they actively and creatively resist these processes. The chapters originally published as a special issue in *Globalizations*.

Proceedings of the fourth Asia-Pacific Research in Social Sciences and Humanities, Arts and Humanities Stream (AHS-APRISH 2019) Shuri Mariasih Gietty Tambunan, 2023-05-27 This is an open access book. According to Castells, power now rests in networks: "the logic of the network is more powerful than the powers of the network" (quoted in Weber, 2002, p. 104) – it is whether nation states or local communities are deeply affected, especially by inclusion in and exclusion from the global networks that structure a various sectors in society at any level. Thus it is also crucial look closely at exclusion from and inclusion in different kinds of social structures where connectivity and access to networks are essential, being aware that people at the bottom are those who, with nothing to offer the network, are excluded. Castells' arguments shows us how the new forms of network society offer challenges in a way that despite the disappearance of conventional ties, exploitation, marginalization, exclusion and differentiation remain. In what follows, scholarships are invited to build an academic discussion on characterizing the structure and dynamics of societies in the world of the twenty-first century. Thus, scholar may come to look at the meaning of being in a network society by examining the role of network society within the complexity of socio-cultural, political and economic circumstances in strengthening the role of science in overcoming local, national, regional and global problems. But scientific research is also required to identify a wide variety of solutions to societal problems enhanced by the network society, which no longer relate solely to a particular discipline, but are multi- and trans-disciplinary. In addition, recent research has changed the traditional role of academia, demanding more collaboration in the production of science, not only among universities, but also among researchers, social practitioners and policymakers. Considering these issues, the fourth Asia-Pacific Research in Social Sciences and Humanities (APRISH) will be hosted by the Faculty of Social and Political Sciences, Universitas Indonesia (FISIP UI) in 2019 under the theme *The Network Society: Continuity*

and Change. Scientific inputs from all parts of the world are welcome, academically and practically. Various perspectives, based on mono-disciplinary, multi-disciplinary or trans-disciplinary research are expected to examine the problems and contribute to solutions.

Jokowi's Indonesia And The World Ahmad Ibrahim Almuttaqi, 2020-03-06 When Joko 'Jokowi' Widodo was sworn in as the seventh President of the Republic of Indonesia, taking over from Susilo Bambang Yudhoyono, the change in personnel at the highest executive office of state naturally raised questions about the likely changes in government policies between that of the outgoing Yudhoyono Government and that of the incoming Widodo Government. This was especially so in the area of foreign policy given that Yudhoyono was widely lauded for his efforts and achievements on the international stage; and the general perception that Widodo lacks sufficient foreign policy experience and knowledge. Will Indonesia's foreign policy change with the new Government? If so, how will Indonesia's foreign policy change and why? If not, how not and why won't Indonesia's foreign policy change? Jokowi's *Indonesia and the World* addresses these questions by evaluating the annual performance of the Widodo Government from 2014 to 2019, focusing primarily on the President's foreign policy track record, and tracing Indonesia's successes and failures on the world stage. At the same time, the book also assesses how the domestic situation has affected Jakarta's external projections. If the Yudhoyono years are remembered for an assertive and active Indonesia in the field of foreign policy, it was greatly hoped that the same could be said about the Widodo presidency at the end of his first term. Whether this ultimately transpired or not shall be covered in the book.

Law and Justice in a Globalized World Harkristuti Harkrisnowo, Hikmahanto Juwana, Yu Un Oppusunggu, 2017-11-14 The book consists of a selection of papers presented at the Asia-Pacific Research Conference on Social Sciences and Humanities. It contains essays on current legal issues in law and justice, and their role and transformation in a globalizing world. Topics covered include human rights, criminal law, good governance, democracy, foreign investment, and regional integration. The conference focused on Asia and the Pacific, two regions where law has taken an important position in creating and shaping the regional integrations, new legal institutions, and norms. This reconfirms the idea that the legal system is extremely important in the global world. This book provides new insights and new horizons on how law and justice took part in globalizing human interaction, especially in the Asia-Pacific region.

The Indonesian Economy in Transition Hal Hill, Siwage Dharma Negara, 2019-03-06 By any indicator, Indonesia, the fourth most populous nation on earth, is a development success story. Yet 20 years after a deep economic and political crisis, it is still in some respects an economy in transition. The country recovered from the 1997–98 crisis and navigated the path from authoritarian to democratic rule surprisingly quickly and smoothly. It survived the 2008–09 global financial crisis and the end of the China-driven commodity super boom in 2014 with little difficulty. It is now embarking on its fifth round of credible national elections in the democratic era. It is in the process of graduating to the upper middle-income ranks. But, as the 25 contributors to this comprehensive and

compelling volume document, Indonesia also faces many daunting challenges – how to achieve faster economic growth along with more attention to environment sustainability, how to achieve more equitable development outcomes, how to develop and nurture stronger institutional foundations, and much else. “This is a timely and much-needed book. There are very few recent books on Indonesia with such a comprehensive analysis of not just mainstream economic policies, but also most importantly the key issues of human capital, inequality, social welfare, labour, food security and natural resource management. This book will not only be crucial for policy discourse but for all stakeholders who care about Indonesia making the transition not only to a high-income economy, but an inclusive one.” – Mari Pangestu, Faculty of Economics and Business, University of Indonesia “The Indonesian Economy in Transition: Policy Challenges in the Jokowi Era and Beyond is one of the most important books that discusses the Indonesian economy post-Asian Financial Crisis. A must-read for anyone who wants to understand contemporary Indonesian economy.” – M. Chatib Basri, former Minister of Finance of Indonesia

Shifting Power in Asia-Pacific? Enrico Fels, 2016-11-03 This book investigates whether a power shift has taken place in the Asia-Pacific region since the end of the Cold War. By systematically examining the development of power dynamics in Asia-Pacific, it challenges the notion that a wealthier and militarily more powerful China is automatically turning the regional tides in its favour. With a special emphasis on Sino-US competition, the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities, national power and the much-cited regional power shift. The book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power (CIAP) that includes 55 variables for 44 regional countries and covers a period of twenty years. Moreover, it develops a middle power theory that outlines the significance of middle powers in times of major power shifts. By addressing political, military and economic cooperation via a structured-focused comparison and by applying a comparative-historical analysis, the book analyses in depth the bilateral relations of six regional middle powers to Washington and Beijing.

Security Strategies in the Asia-Pacific A. Tan, 2011-08-01 This book argues that, given the existence of a discrete Malay archipelago security complex, it is a fallacy for the United States to approach this region primarily through the prism of global counter-terrorism

Indonesia's Foreign Policy and Grand Strategy in the 21st Century Vibhanshu Shekhar, 2018-03-14 This book examines the changes in Indonesian foreign policy during the 21st century as it seeks to position itself as a great power in the Indo-Pacific region. The rise of 21st-century Indonesia is becoming a permanent fixture in both the domestic and global discourses. Though there has been an increasing level of discussion on Indonesia's emerging power status, there has been little discussion on how the country is debating and signalling its new-found status. This book combines the insights of both neo-classical realism and social identity theory to discuss a reset in an emerging Indonesia's foreign policy during the 21st century while emphasizing domestic drivers and constraints of its international behaviour. There are three key organizing components of the book – emerging power, status signalling and the Indo-Pacific region. The Indo-Pacific region constitutes a spatial framing of the

book; the emerging power provides an analytical category to explain Indonesia's changing international status; and status signalling explains multiple facets of international behaviour through which the country is projecting its new status. Though leaders are adding different styles and characteristics to the rising Indonesia narrative, there are a few unmistakable overarching trends that highlight an increasing correlation between the country's rising power and growing ambition in international behaviour. This book is built around four key signalling strategies of Indonesia as an emerging power – expanded regional canvas, power projection, leadership projection, and quest for great power parity. They represent Indonesia's growing desire for a status-consistent behaviour, its response to the prevailing strategic uncertainty in the Indo-Pacific region and its attempt to advance its strategic interests. This book will be of much interest to students of South-East Asian politics, strategic studies, international diplomacy, security studies and IR in general.

Indonesian Law Tim Lindsey, Simon Butt, 2018-09-06 Indonesia has a growing population of almost 300 million people, it is increasingly involved in world affairs, and has a booming economy. The need to better understand its unique, complex, and often obscure legal system, has become pressing. This is true across a wide range of sectors including, but not limited to, trade and investment, crime and terrorism, and human rights. Indonesia's democratization after the fall of Soeharto in 1998 triggered massive social and political changes that opened up this diverse, and formerly tightly-controlled, society. Law reform was a key driver of Indonesia's transformation and its full effect remains to be seen. This book offers clear and detailed explanations of the foundations of Indonesia's legal system in the context of its legal reform and rapid development. It offers succinct commentaries on a wide range of issues, examining the judicial process, the constitution, corruption and the court system, contract law, administrative law, foreign investment, taxation, Islamic law, and family law. It examines current substantive law and judicial interpretation and presents case studies of how the system operates in practice. Written in an accessible and engaging style, this book is an essential guide for readers seeking quick and clear answers to questions regarding the law and its application in Indonesia.
