The Hindu Diaspora Steven Vertovec,2013-10-11 Hinduism outside the Indian subcontinent represents a contrasting and scattered community. From Britain to the Caribbean, diasporic Hindus have substantially reformed their beliefs and practices in accordance with their historical and social circumstances. In this theoretically innovative analysis Steven Vertovec examines: * the historical construction of the category 'Hinduism in India' * the formation of a distinctive Caribbean Hindu culture during the nineteenth century * the role of youth groups in forging new identities during Trinidad's Hindu Renaissance * the reproduction of regionally based identities and frictions in Britain's Hindu communities * the differences in temple use across the diaspora. This book provides a rich and fascinating view of the Hindu diaspora in the past, present and its possible futures.

Encyclopedia of Hinduism Denise Cush,Catherine Robinson,Michael York,2012-08-21 The Encyclopedia of Hinduism contains over 900 entries reflecting recent advances in scholarship which have raised new theoretical and methodological issues as well as identifying new areas of study which have not been addressed previously. The debate over the term 'Hinduism' in the light of post-Orientalist critiques is just one example of how once standard academic frameworks have been called into question. Entries range from 150-word definitions of terms and concepts to 5,000-word in-depth investigations of major topics. The Encyclopedia covers all aspects of Hinduism but departs from other works in including more ethnographic and contemporary material in contrast to an exclusively textual and historical approach. It includes a broad range of subject matter such as: historical developments (among them nineteenth and twentieth century reform and revival); geographical distribution (especially the diaspora); major and minor movements; philosophies and theologies; scriptures; deities; temples and sacred sites; pilgrimages; festivals; rites of passage; worship; religious arts (sculpture, architecture, music, dance, etc.); religious sciences (e.g. astrology); biographies of leading figures; local and regional traditions; caste and untouchability; feminism and women's religion; nationalism and the Hindu radical right; and new religious movements. The history of study and the role of important scholars past and present are also discussed. Accessibility to all levels of reader has been a priority and no previous knowledge is assumed. However, the in-depth larger entries and the design of the work in line with the latest scholarly advances means that the volume will be of considerable interest to specialists. The whole is cross-referenced and bibliographies attach to the larger entries. There is a full index.

Holy People of the World [3 volumes] Phyllis G. Jestice,2004-12-15 A cross-cultural encyclopedia of the most significant holy people in history, examining why people in a wide range of religious traditions throughout the world have been regarded as divinely inspired. The first reference on the subject to span all the world's major religions, Holy People of the World: A Cross-Cultural Encyclopedia examines the impact of individuals who, through personal charisma and inspirational deeds, served both as glorious examples of human potential and as envoys for the divine. Holy People of the World contains nearly 1,100 biographical sketches of venerated men and women. Written by religious studies experts and historians, each article focuses on the basic question: How did this person come to be regarded as holy? In addition, the encyclopedia features 20 survey articles on views of holy people in the major religious traditions such as Islam, Buddhism, and African religions, as well as 64 comparative articles on aspects of holiness and veneration across cultures such as awakening and conversion experiences, heredity, gender, asceticism, and persecution. Whether exploring by religion, culture, or historic period, this extensively cross-referenced resource offers a wealth of insights into one of the most revealing—and least explored—common denominators of spiritual traditions.

Hindu Selves in a Modern World Maya Warriar,2004-11-10 This book explores devotional Hinduism in a modern context of high consumerism and revolutionised communications. It focuses on a fast-growing and high-profile contemporary Hindu guru faith originating in India and attracting a transnational following. The organisation is led by a vastly popular female guru, Mata Amritanandamayi, whom devotees worship as an avatar and a healer of the ills of the contemporary world. By drawing upon multi-sited ethnographic fieldwork among the mata's primarily urban, educated 'middle class' Indian devotees, the author provides crucial insights into new trends in popular Hinduism in a post-colonial and rapidly modernising Indian setting.

Vernacular Religion in Everyday Life Marion Bowman,Ulo Valk,2014-10-14 Vernacular religion is religion as people experience, understand, and practice it. It shapes everyday culture and disrupts the traditional boundaries between 'official' and 'folk' religion. The book analyses vernacular religion in a range of Christian denominations as well as in indigenous and New Age religion from the nineteenth century to today. How these differing expressions of belief are shaped by their individual, communal and national contexts

is also explored. What is revealed is the consistency of genres, the persistence of certain key issues, and how globalization in all its cultural and technological forms is shaping contemporary faith practice. The book will be valuable to students of ethnology, folklore, religious studies, and anthropology.

Lives of Indian Images Richard H. Davis,2020-07-21 For many centuries, Hindus have taken it for granted that the religious images they place in temples and home shrines for purposes of worship are alive. Hindu priests bring them to life through a complex ritual establishment that invokes the god or goddess into material support. Priests and devotees then maintain the enlivened image as a divine person through ongoing liturgical activity: they must awaken it in the morning, bathe it, dress it, feed it, entertain it, praise it, and eventually put it to bed at night. In this linked series of case studies of Hindu religious objects, Richard Davis argues that in some sense these believers are correct: through ongoing interactions with humans, religious objects are brought to life. Davis draws largely on reader-response literary theory and anthropological approaches to the study of objects in society in order to trace the biographies of Indian religious images over many centuries. He shows that Hindu priests and worshipers are not the only ones to enliven images. Bringing with them differing religious assumptions, political agendas, and economic motivations, others may animate the very same objects as icons of sovereignty, as polytheistic idols, as devils, as potentially lucrative commodities, as objects of sculptural art, or as symbols for a whole range of new meanings never foreseen by the images' makers or original worshipers.

Gods of Flesh, Gods of Stone Joanne Punzo Waghorne,Norman Cutler,Vasudha Narayanan,1996 Drawing from topics of religion in India such as bhakti, puja rituals, and spirit possessions, these essays offer a close study of the physical representations of god as the central feature of Hinduism. A valuable tool for students of anthropology and the philosophy and history of religion.
