*Creating a Public* James L. Huffman, 1997-01-01 No institution did more to create a modern citizenry than the newspaper press of the Meiji period (1868-1912). Here was a collection of highly diverse, private voices that provided increasing numbers of readers - many millions by the end of the period - with both its fresh picture of the world and a changing sense of its own place in that world. *Creating a Public* is the first comprehensive history of Japan's early newspaper press to appear in English in more than half a century. Drawing on decades of research in newspaper articles and editorials, journalists' memoirs and essays, government documents and press analyses, it tells the story of Japan's newspaper press from its elitist beginnings just before the fall of the Tokugawa regime through its years as a shaper of a new political system in the 1880s to its emergence as a nationalistic, often sensational, medium early in the twentieth century. More than an institutional study, this work not only traces the evolution of the press' leading papers, their changing approaches to circulation, news, and advertising, and the personalities of their leading editors; it also examines the interplay between Japan's elite institutions and its rising urban working classes from a wholly new perspective - that of the press. What emerges is the transformation of Japan's commoners (minshu) from uninformed, disconnected subjects to active citizens in the national political process - a modern public. Conversely, minshu begin to play a decisive role in making Japan's newspapers livelier, more sensational, and more influential. As Huffman states in his Introduction: The newspapers turned the people into citizens; the people turned the papers into mass media. In addition to providing new perspectives on Meiji society and political life, *Creating a Public* addresses themes important to the study

of mass media around the world: the conflict between social responsibility and commercialization, the role of the press in spurring national development, the interplay between readers' tastes and editors' principles, the impact of sensationalism on national social and political life. Huffman raises these issues in a comparative context, relating the Meiji press to American and Japanese press systems at similar points of development. With its broad coverage of the press' role in modernizing Japan, *Creating a Public* will be of great interest to students of mass media in general as well as specialists of Japanese history.

### **Media and Politics in Japan**

Susan Pharr, Ellis S. Krauss, 1996-03-01 Japan is one of the most media-saturated societies in the world. The circulations of its big five national newspapers dwarf those of any major American newspaper. Its public service broadcasting agency, NHK, is second only to the BBC in size. And it has a full range of commercial television stations, high-brow and low-brow magazines, and a large anti-mainstream media and mini-media. Japanese elites rate the mass media as the most influential group in Japanese society. But what role do they play in political life? Whose interests do the media serve? Are the media mainly servants of the state, or are they watchdogs on behalf of the public? And what effects do the media have on the political beliefs and behavior of ordinary Japanese people? These questions are the focus of this collection of essays by leading political scientists, sociologists, social psychologists, and journalists. Japan's unique *kisha* (press) club system, its powerful media business organizations, the uses of the media by Japan's wily bureaucrats, and the role of the

media in everything from political scandals to shaping public opinion, are among the many subjects of this insightful and provocative book.

**Japan's News Propaganda and Reuters' News Empire in Northeast Asia, 1870-1934** Tomoko

Akami,2012-08 Exactly 20 years after the first undersea cable was laid across the English Channel in 1851, the last leg of the north- and south- bound cable networks reached Japan via Shanghai, connecting all the continents, except for the Antarctic. This age of global telecommunications coincided with two moves by the major empires in the late nineteenth century: their aggressive colonization in Africa, Asia and the Pacific; and the expansion of the franchise at their metropolitan centres. Overseas news was conveyed more quickly, and affected more people's views of the world. As metropolitan states gradually expanded their franchise bases, these peoples' views (the public opinion) were becoming an important factor not only in domestic politics, but also in foreign policies. The states had to respond to these developments of technology and mass-based politics, realize the power of news, and come to see the need to develop policy and institutions to utilize news in foreign policy. As soon as global telecommunication networks were established, three major news agencies- British Reuters, French Havas, and German Wolff-created an inter-imperial news cartel system in 1870, and Northeast Asia came under Reuters' news empire. Using the notion of 'news propaganda', this book analyses how the Meiji state came into the inter-imperial news system, and how it became aware of the problem of Reuters' news empire in Northeast Asia. It also examines how the Japanese state began to develop the governmental institutions and a key operational agency, the national

news agency, to utilize news propaganda in international politics, and how it challenged Reuters' news agency in the region with a help of American Associated Press. The book demonstrates the modern thinking of foreign policy elites, including high- to - middle-ranking diplomats, military officers and news agency men. They were well attuned with global trends, technological development, and the rising significance of 'international public opinion'. They responded not with isolationism from, but with greater engagement with the world public in the time of diplomatic crises and international conflicts. Their challenge to Reuters' news empire was not a structural challenge to the inter-imperial news system, but a quest for Japan's greater power in that system, and closely connected to the military expansion into China.

*When News Travels East* Kayo Matsushita, 2019-11-15 International news stories provided to the public basically rely on translation. Most of this translation is done not by translators, but by journalists with practically no training in translation. What happens when the norms of journalism and those of translation clash? In this book, the author, a trained conference interpreter and former international journalist, investigates translator decisions in the practice of Japanese news translation. Her extensive analysis of texts from six major Japanese newspapers and interviews with Japanese “journalators” focuses on direct quotations, where accuracy is a journalistic priority but can generate loss of communication impact if implemented rigidly. She argues that many shifts from accuracy can be explained as risk management strategies. *When News Travels East* provides invaluable insight from an insider about news translation in Japan and beyond and paves the way for further research in the field.

**A History of Japanese Journalism** William De Lange, 1998 In Japan, the kisha-clubs are the focal point between the authorities and the media - they are not the counterpart of the leisurely, informal nature of western press clubs of which the free access to information is of the essence.

**Media, Propaganda and Politics in 20th-Century Japan** The Asahi Shimbun Company, 2015-02-26 This book investigates the role played by the Asahi Newspaper, one of Japan's largest daily newspapers, as a mediator of information and power during the 20th century. Members of the staff at the paper, including Funabashi Yoichi, former Editor-in-Chief and one of the most trusted public

intellectuals in Japan, examine the paper's role in Japanese history, showing how news agencies assisted in the creation and maintenance of the nation's goals, dreams and delusions. The book draws on internal documents, committee meeting notes and interviews with the staff at the company as a means to narrate what newspaper editors chose to publish during Japan's journey through the 20th century. As well as offering an original insight into wartime media, *Media, Propaganda and Politics in 20th-Century Japan* explores the relationship between media and society during the postwar era and into the 21st century.

### **Japanese Journalism and the Japanese Newspaper**

Anthony Rausch, 2014 This reader introduces Japanese journalism and print media in Japan, focusing on Japanese newspapers and the journalism that produces it. The chapters present research that has either focused on journalistic practice and product as research topic or has used journalism and newspapers as an information source in social science research. In this sense, the contents both describe and evaluate Japanese journalism and its newspapers, while also highlighting the contribution such research has made to the field of Japanese Studies. At a broader level, the contents offer exploratory viewpoints, outline methodological approaches, and present empirical case studies, highlighting not only how journalistic practice and the news it produces constitute a meaningful research area, but also how use of journalism and the newspaper as source can contribute to research across a range of diverse themes.

### **Broadcasting Politics in Japan** Ellis S.

Krauss, 2018-09-05 The aftermath of Japan's 1945 military defeat left its public institutions in a state of deep crisis; virtually every major source of state legitimacy was

seriously damaged or wholly remade by the postwar occupation. Between 1960 and 1990, however, these institutions renewed their strength, taking on legitimacy that erased virtually all traces of their postwar instability. How did this transformation come about? This is the question Ellis S. Krauss ponders in *Broadcasting Politics in Japan*; his answer focuses on the role played by the Japanese mass media and in particular by Japan's national broadcaster, NHK. Since the 1960s, television has been a fixture of the Japanese household, and NHK's TV news has until very recently been the dominant, and most trusted, source of political information for the Japanese citizen. NHK's news style is distinctive among the broadcasting systems of industrialized countries; it emphasizes facts over interpretation and gives unusual priority to coverage of the national bureaucracy. Krauss argues that this approach is not simply a reflection of Japanese culture, but a result of the organization and processes of NHK and their relationship with the state. These factors had profound consequences for the state's postwar re-legitimization, while the commercial networks' recent challenge to NHK has helped engender the wave of cynicism currently faced by the state. Krauss guides the reader through the complex interactions among politics, media organizations, and Japanese journalism to demonstrate how NHK television news became a shaper of Japan's political world, rather than simply a lens through which to view it.

**Tokyo Vice** Jake Adelstein, 2009-10-13 NOW A MAX ORIGINAL SERIES. A riveting true-life tale of newspaper noir and Japanese organized crime from an American investigative journalist who pulls the curtain back on ... [an] element of Japanese society that few Westerners ever see (San Francisco Examiner). Jake Adelstein is the only

American journalist ever to have been admitted to the insular Tokyo Metropolitan Police Press Club, where for twelve years he covered the dark side of Japan: extortion, murder, human trafficking, fiscal corruption, and of course, the yakuza. But when his final scoop exposed a scandal that reverberated all the way from the neon soaked streets of Tokyo to the polished Halls of the FBI and resulted in a death threat for him and his family, Adelstein decided to step down. Then, he fought back. In Tokyo Vice he delivers an unprecedented look at Japanese culture and searing memoir about his rise from cub reporter to seasoned journalist with a price on his head.
